COMMISSION IMPLEMENTING REGULATION (EU) 2024/2915

of 25 November 2024

specifying technical items of data sets of the sample survey in the income and living conditions domain on over-indebtedness, consumption and wealth pursuant to Regulation (EU) 2019/1700 of the European Parliament and of the Council, and amending Commission Implementing Regulation (EU) 2021/2052

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2019/1700 of the European Parliament and of the Council of 10 October 2019 establishing a common framework for European statistics relating to persons and households, based on data at individual level collected from samples, amending Regulations (EC) No 808/2004, (EC) No 452/2008 and (EC) No 1338/2008 of the European Parliament and of the Council, and repealing Regulation (EC) No 1177/2003 of the European Parliament and of the Council and Council Regulation (EC) No 577/98 ⁽¹⁾, in particular Article 7(1) thereof,

Whereas:

- (1) To ensure that the implementation of the income and living conditions domain is conducted accurately, the Commission should specify the technical items of the data sets on over-indebtedness, consumption and wealth.
- (2) The income and living conditions domain provides the information required by the European Semester and the European Pillar of Social Rights, in particular on income distribution, poverty and social exclusion. It also provides information for other EU policies related to living conditions and poverty. There is a strong policy need for detailed information on over-indebtedness, consumption and wealth, in particular on reasons for over-indebtedness, elements of consumption and wealth, and the assessment of own needs. The data set provides information on material inequality and poverty and helps monitor transport poverty. Moreover, it allows statistical matching of data between income and the living conditions and consumption domains.
- (3) To ensure that policy needs for better measuring energy poverty, especially household energy costs, are fulfilled, Commission Implementing Regulation (EU) 2021/2052 ⁽²⁾ should be amended accordingly. The detailed topics 'employment status' and 'housing conditions details, including deprivation and imputed rent' should be amended to respond to new data needs.
- (4) The measures provided for in this Regulation are in accordance with the opinion of the European Statistical System Committee established under Article 7 of Regulation (EC) No 223/2009 of the European Parliament and of the Council ⁽³⁾,

⁽¹⁾ OJ L 261I, 14.10.2019, p. 1, ELI: <http://data.europa.eu/eli/reg/2019/1700/oj>.

⁽²⁾ Commission Implementing Regulation (EU) 2021/2052 of 24 November 2021 specifying technical items of data sets of the sample survey in the income and living conditions domain on Labour market and housing, Intergenerational transmission of advantages and disadvantages, Housing difficulties, and the 2023 ad hoc subject on Households energy efficiency pursuant to Regulation (EU) 2019/1700 of the European Parliament and of the Council (OJ L 420, 25.11.2021, p. 23, ELI: http://data.europa.eu/eli/reg_impl/2021/2052/oj).

⁽³⁾ Regulation (EC) No 223/2009 of the European Parliament and of the Council of 11 March 2009 on European statistics and repealing Regulation (EC, Euratom) No 1101/2008 of the European Parliament and of the Council on the transmission of data subject to statistical confidentiality to the Statistical Office of the European Communities, Council Regulation (EC) No 322/97 on Community Statistics, and Council Decision 89/382/EEC, Euratom establishing a Committee on the Statistical Programmes of the European Communities (OJ L 87, 31.3.2009, p. 164, ELI: <http://data.europa.eu/eli/reg/2009/223/oj>).
