COMMISSION IMPLEMENTING REGULATION (EU) 2025/922
of 20 May 2025
making imports of softwood plywood originating in Brazil subject to registration

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union ⁽¹⁾ ('the basic Regulation') and in particular Article 14(5) thereof,

After informing the Member States,

Whereas:

- (1) On 6 March 2025, the European Commission ('the Commission') announced, by a notice published in the *Official Journal of the European Union* ⁽²⁾, the initiation of an anti-dumping proceeding with regard to imports into the Union of softwood plywood originating in Brazil.
- (2) This initiation followed a complaint lodged on 20 January 2025 by the Softwood Plywood Consortium on behalf of producers representing more than 25 % of the total Union production of softwood plywood.

1. PRODUCT SUBJECT TO REGISTRATION

- (3) The product subject to registration ('the product concerned') is plywood consisting solely of sheets of wood (other than bamboo), each ply not exceeding 6 mm thickness, with both outer plies of coniferous wood, whether or not coated or surface-covered, currently classified under CN code 4412 39 00 and originating in Brazil. The CN code is given for information only and without prejudice to a subsequent change in the tariff classification.

2. REGISTRATION

- (4) Under Article 14(5) of the basic Regulation, imports of the product concerned may be made subject to registration for the purpose of ensuring that, if the investigation results in findings leading to the imposition of anti-dumping duties, those duties can, if the necessary conditions are fulfilled, be levied retroactively on the registered imports in accordance with the applicable legal provisions.
- (5) The Commission has decided to make imports of the product concerned subject to registration on its own initiative under Article 14(5) of the basic Regulation. The conditions for retroactive collection of duties will be assessed in the regulation imposing definitive duties if any.
- (6) Any future liability would emanate from the findings of the anti-dumping investigation.
- (7) The calculations provided in the complaint requesting the initiation of an anti-dumping investigation estimate dumping margins between 87 % and 131 % and an injury elimination level at 73 % for the product concerned for the period from 1 July 2023 to 30 June 2024. The amount of possible future liability would normally be set at the lower of those two levels according to Article 7(2) of the basic Regulation.
- (8) However, at this stage the Commission is not in a position to estimate the amount of possible future liability. Thus, the amounts mentioned in the complaint are only for information purposes and cannot create any expectations as to the actual level of liability which will be established as a result of the investigation.
