COMMISSION IMPLEMENTING REGULATION (EU) 2025/1501

of 25 July 2025

amending Implementing Regulation (EU) 2022/191 imposing a definitive anti-dumping duty on imports of certain iron or steel fasteners originating in the People's Republic of China

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union ⁽¹⁾, and in particular Article 14(1) thereof,

Whereas:

1. MEASURES IN FORCE

- (1) On 17 February 2022, the Commission imposed a definitive anti-dumping duty on imports of certain iron or steel fasteners originating in the People's Republic of China ('China') by the original Regulation.
- (2) In the investigation leading to the imposition of definitive anti-dumping duties ('original investigation'), sampling was applied for investigating the exporting producers in China in accordance with Article 17 of the basic Regulation.
- (3) The Commission imposed individual anti-dumping duty rates ranging from 22,1 % to 48,4 % on imports of certain iron or steel fasteners ('fasteners' or 'the product concerned') for the sampled exporting producers from China. The Chinese cooperating exporting producers that were not included in the sample were made subject to a duty rate of 39,6 % which is the weighted average duty rate of the sampled Chinese exporting producers found to be dumping. The names of the Chinese cooperating exporting producers not included in the sample are listed in the Annex to the original Regulation. A country-wide duty of 86,5 % was imposed on fasteners from companies in China which did not cooperate with the investigation.

2. REQUEST AND ANALYSIS

- (4) The company Moregood Hardware Technology (Nanjing) Co., Ltd. ('the applicant') submitted a request to the Commission to receive the anti-dumping duty for non-sampled cooperating exporting producers due to its relationship to Shanghai Moregood Hardware Co., Ltd., which was included as a non-sampled cooperating exporting producer in the original Regulation.
- (5) The applicant provided information showing that Shanghai Moregood Hardware Co., Ltd. is its main shareholder.
- (6) Furthermore, the applicant provided its business licence, confirming its establishment in March 2025, i.e. after the original investigation period and therefore the Commission confirmed that the applicant could not have been reported by Shanghai Moregood Hardware Co., Ltd. as a related company when the sampling exercise was carried out in the original investigation. Since the duty applicable to the entity Shanghai Moregood Hardware Co., Ltd. was based on the average of the sampled exporting producers, the inclusion of the applicant does not alter the Commission's findings in this respect. Thus, the Commission finds it appropriate that the anti-dumping duty on exports of Shanghai Moregood Hardware Co., Ltd. becomes applicable to exports of the applicant.
- (7) In light of the above, the Commission considered it appropriate to amend the Annex of the original Regulation by adding Moregood Hardware Technology (Nanjing) Co., Ltd. as a related exporting producer to Shanghai Moregood Hardware Co., Ltd. listed under TARIC additional code C837.

3. DISCLOSURE

- (8) The applicant, the Union industry, and other interested parties were informed of the essential facts and considerations based on which it was considered appropriate to amend Annex of the original Regulation by adding Moregood Hardware Technology (Nanjing) Co., Ltd. as a related exporting producer to Shanghai Moregood Hardware Co., Ltd. listed under TARIC additional code C837.
- (9) TARIC additional code C837, previously only attributed to Shanghai Moregood Hardware Co., Ltd., should also apply to Moregood Hardware Technology (Nanjing) Co., Ltd.
- (10) The parties were granted the possibility to submit comments. No comments were received.
- (11) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 15(1) of Regulation (EU) 2016/1036,

HAS ADOPTED THIS REGULATION:
