COMMISSION IMPLEMENTING REGULATION (EU) 2025/2290
of 6 November 2025
concerning the classification of certain goods in the Combined Nomenclature

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 952/2013 of the European Parliament and of the Council of 9 October 2013 laying down the Union Customs Code ⁽¹⁾, and in particular Article 57(4) and Article 58(2) thereof,

Whereas:

- (1) In order to ensure uniform application of the Combined Nomenclature annexed to Council Regulation (EEC) No 2658/87 ⁽²⁾, it is necessary to adopt measures concerning the classification of the goods referred to in the Annex to this Regulation.
- (2) Regulation (EEC) No 2658/87 has laid down the general rules for the interpretation of the Combined Nomenclature. Those rules apply also to any other nomenclature which is wholly or partly based on it or which adds any additional subdivision to it and which is established by specific provisions of the Union, with a view to the application of tariff and other measures relating to trade in goods.
- (3) Pursuant to those general rules, the goods described in column (1) of the table set out in the Annex should be classified under the CN code indicated in column (2), by virtue of the reasons set out in column (3) of that table.
- (4) It is appropriate to provide that binding tariff information issued in respect of the goods concerned by this Regulation which does not conform to this Regulation may, for a certain period, continue to be invoked by the holder in accordance with Article 34(9) of Regulation (EU) No 952/2013. That period should be set at three months.
- (5) The measures provided for in this Regulation are in accordance with the opinion of the Customs Code Committee,

HAS ADOPTED THIS REGULATION:

Article 1

The goods described in column (1) of the table set out in the Annex shall be classified within the Combined Nomenclature under the CN code indicated in column (2) of that table.

Article 2

Binding tariff information which does not conform to this Regulation may continue to be invoked in accordance with Article 34(9) of Regulation (EU) No 952/2013 for a period of three months from the date of entry into force of this Regulation.

ANNEX

Description of the goods	Classification (CN-code)	Reasons
(1)	(2)	(3)
Unassembled product comprising profiles (made of aluminium alloy and anodised) and fasteners (made of plastics), for use in the assembly of a voting booth, consisting of: — 6 hollow 'vertical' profiles, cut to length, of uniform cross-section along their whole length, with holes and fitted with fasteners, — 12 hollow 'horizontal' profiles, cut to length, of uniform cross-section along their whole length, with holes and fitted with fasteners. The voting booth is assembled on site. Depending on its adjustment, the assembled product can be placed on the ground or on a table and it can be carried to wherever it is needed. The 'walls' (plates designed to be mounted between the profiles) are not included at importation. The product, once assembled and fitted with the walls, is designed to provide a temporary cover to ensure voter secrecy.	7616 99 90	Classification is determined by General Rules 1, 2(a), and 6 for the interpretation of the Combined Nomenclature and by the wording of CN codes 7616, 7616 99 and 7616 99 90. The product consists of various components, presented unassembled. It comprises not only aluminium profiles but also fasteners, all intended to be used together to assemble a specific article, namely, the frame of a voting booth. Classification under heading 7604 as aluminium profiles is therefore excluded. Classification under heading 9403 as other furniture and parts thereof is also excluded. The assembled article is not used, mainly with a utilitarian purpose, to equip private dwellings, hotels, theatres, cinemas, offices, churches, schools, cafés, restaurants, laboratories, hospitals, dentists' surgeries, etc. It is (once assembled and fitted with the walls) designed to provide a temporary cover during voting. In addition, the assembled article can be placed either on the floor or on other pieces of furniture (such as tables). However, the term 'furniture' does not apply to articles used as furniture but designed for placing on other furniture or shelves, or for hanging on walls or from the ceiling. (See also the Harmonized System Explanatory Notes to Chapter 94, General, item (B) and exclusion paragraph to this item.) The article is therefore to be classified under CN code 7616 99 90 as other articles of aluminium.
