COMMISSION IMPLEMENTING REGULATION (EU) 2025/2494

of 9 December 2025

amending Implementing Regulation (EU) 2016/323 as regards the structure of messages relating to the movements of excise goods exchanged pursuant to Council Regulation (EU) No 389/2012

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Council Regulation (EU) No 389/2012 of 2 May 2012 on administrative cooperation in the field of excise duties and repealing Regulation (EC) No 2073/2004 ⁽¹⁾, and in particular Articles 9(2), 15(5) and 16(3) thereof,

Whereas:

- (1) Council Directive (EU) 2020/262 ⁽²⁾ lays down the procedure to be followed for the movements of excise goods between Member States and the monitoring and surveillance of those movements by means of the computerised system referred to in Article 1 of Decision (EU) 2020/263 of the European Parliament and of the Council ⁽³⁾ ('the computerised system').
- (2) Commission Implementing Regulation (EU) 2016/323 ⁽⁴⁾ sets out the rules on cooperation and exchange of information between Member States regarding the movements of excise goods and the data required for mutual administrative assistance documents referred to in Article 9(2), Article 15(5) and Article 16(3) of Council Regulation (EU) No 389/2012.
- (3) Pursuant to Directive (EU) 2020/262, the computerised system was modified to include the movement of excise goods that are exported outside the Union and the movement of excise goods which have been released for consumption in the territory of one Member State and that are moved to the territory of another Member State in order to be delivered there for commercial purposes. These modifications affected the messages for the exchange of information between Member States. As a result, certain data elements of the computerised system have become obsolete or required modification. The computerised system should be revised to correct any such inconsistencies.
- (4) Implementing Regulation (EU) 2016/323 should therefore be amended accordingly.
- (5) In order to allow Member States adequate time to prepare for the amendments to Implementing Regulation (EU) 2016/323, and to align the application date of this Regulation with the date on which the new version of the computerised system referred to in Decision (EU) 2020/263 becomes operational, this Regulation should apply from 12 February 2026.
- (6) The measures provided for in this Regulation are in accordance with the opinion of the Committee on Excise Duty,

⁽¹⁾ OJ L 121, 8.5.2012, p. 1, ELI: <http://data.europa.eu/eli/reg/2012/389/oj>.

⁽²⁾ Council Directive (EU) 2020/262 of 19 December 2019 laying down the general arrangements for excise duty (OJ L 58, 27.2.2020, p. 4, ELI: <http://data.europa.eu/eli/dir/2020/262/oj>).

⁽³⁾ Decision (EU) 2020/263 of the European Parliament and of the Council of 15 January 2020 on computerising the movement and surveillance of excise goods (OJ L 58, 27.2.2020, p. 43, ELI: <http://data.europa.eu/eli/dec/2020/263/oj>).

⁽⁴⁾ Commission Implementing Regulation (EU) 2016/323 of 24 February 2016 laying down detailed rules on cooperation and exchange of information between Member States regarding excise goods pursuant to Council Regulation (EU) No 389/2012 (OJ L 66, 11.3.2016, p. 1, http://data.europa.eu/eli/reg_impl/2016/323/oj).

HAS ADOPTED THIS REGULATION:

Article 1

Annex I to Implementing Regulation (EU) 2016/323 is replaced by the text set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 12 February 2026.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 9 December 2025.

For the Commission
The President
Ursula VON DER LEYEN

ANNEX

‘ANNEX I

STRUCTURE OF COMMON MESSAGES

Electronic messages used for the purpose of information exchange concerning excise goods as referred to in the meaning of Chapter IV, and Section 2 of Chapter V, of Directive (EU) 2020/262

EXPLANATORY NOTES

- (1) The data elements of the electronic messages used for the purpose of information exchange concerning excise goods within the meaning of Chapter IV and Section 2 of Chapter V, of Directive (EU) 2020/262 using the computerised system referred to in Article 1 of Decision (EU) 2020/263 and in Article 2, point (17), of Regulation (EU) No 389/2012 are structured in data groups and, where applicable, data subgroups. Details regarding the data and their use are presented in the tables of this Annex, in which:
- (a) column A sets out the numeric code (number) attributed to each data group and data subgroup; each subgroup follows the sequence number of the data (sub)group of which it forms part (for example: where the data group number is 1, one data subgroup of that group is 1.1 and one data subgroup of that subgroup is 1.1.1);
 - (b) column B sets out the alphabetic code (letter) attributed to each data element in a data (sub)group;
 - (c) column C identifies the data (sub)group or data element;
 - (d) column D indicates for each data (sub)group or data element a value indicating whether the insertion of the corresponding data is:
 - ‘R’ (required), meaning that the data must be provided; when a data (sub)group is ‘O’ (optional) or ‘C’ (conditional), data elements within that (sub)group can still be ‘R’ (required) when the competent authorities of the Member State have decided that the data in that (sub)group must be completed or when the condition for the enclosing data (sub)group is fulfilled,
 - ‘O’ (optional), meaning that the insertion of the data is optional for the person submitting the message (the consignor or consignee) except where a Member State has stipulated that the data are required in accordance with the option provided for in column E for some of the optional data (sub)groups or data elements,
 - ‘C’ (conditional), meaning that the use of the data (sub)group or data element depends on other data (sub)groups or data elements in the same message;
 - (e) column E sets out the condition(s) on which the insertion of data is conditional, specifies the use of the optional data where applicable and indicates which data must be provided by the competent authorities;
 - (f) column F provides explanations, where necessary, concerning the completion of the message;
 - (g) column G indicates:
 - for some data (sub)groups a number followed by the character ‘x’ indicating how many times the data (sub)group can be repeated in the message (default = 1),
 - for each data element, except for data elements indicating the time or date, the characteristics identifying the data type and the data length; the codes for the data types are as follows:
 - a alphabetic,
 - n numeric,
 - an alphanumeric.

The number following the code indicates the admissible data length for the data element concerned. The two dots before the length indicator mean that the data have no fixed length, but can have up to a number of digits, as specified by the length indicator. A comma in the data length means that the data can hold decimals, the number before the comma indicating the total length of the attribute, and the number after the comma indicating the maximum number of digits after the decimal point.

For data elements indicating the time or date, the mention 'date', 'time' or 'dateTime' means that the date, the time or the date and time must be given using the ISO 8601 standard for representation of dates and time.

(2) The following abbreviations are used in the tables of this Annex:

- e-AD: electronic administrative document,
- e-SAD: electronic simplified administrative document,
- ARC: administrative reference code,
- SEED: system for exchange of excise data (the electronic database referred to in Article 19(1) of Regulation (EU) No 389/2012),
- CN Code: Combined Nomenclature code,
- LNG: language,
- VAT: value added tax,
- ACO: administrative cooperation,
- EORI: economic operators' registration and identification.
