THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2019/818 of the European Parliament and of the Council of 20 May 2019 on establishing a framework for interoperability between EU information systems in the field of police and judicial cooperation, asylum and migration and amending Regulations (EU) 2018/1726, (EU) 2018/1862 and (EU) 2019/816 ⁽¹⁾, and in particular Article 39(5) thereof,

Whereas:

- (1) Regulation (EU) 2019/818, together with Regulation (EU) 2019/817 of the European Parliament and of the Council ⁽²⁾, establishes a framework to ensure interoperability between the EU information systems in the field of borders, visa, police and judicial cooperation, asylum and migration.
- (2) That framework includes a number of components and tools supporting interoperability, including a central repository for reporting and statistics ('the central repository'). The central repository stores anonymised data extracted from the underlying EU information systems, the shared biometric matching service, the common identity repository and the multi-identity detector, in order to provide cross-system statistical data and analytical reporting for policy, operational and data quality purposes.
- (3) In order to enable the central repository to fulfill its role, Commission Delegated Regulation (EU) 2021/2222 ⁽³⁾ lays down detailed rules on the operation of the central repository, including specific standards for the processing of personal data, and security rules.
