GENERAL STATEMENT OF EXPENDITURE

INTRODUCTION TO THE UNION'S ANNUAL BUDGET

The Union's annual budget ('the budget'), as set out in Chapter 3 of Title II of Part Six of the Treaty on the Functioning of the European Union (TFEU), is the instrument which sets out and authorises the total amount of revenue and expenditure appropriations deemed necessary for the European Union and the European Atomic Energy Community for each year.

The budget is established and implemented in compliance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency.

- The *principle of unity* and the *principle of budgetary accuracy* mean that all revenue and expenditure of the Union when it is charged to the budget must be incorporated in a single document.
- The *principle of annuality* means that the budget is adopted for one budgetary year at a time and that both commitment and payment appropriations for the current budgetary year must, in principle, be used in the course of the year.
- The *principle of equilibrium* means that forecasts of revenue for the budgetary year must be equal to payment appropriations for that year; borrowing to cover any budget deficit which may arise is not compatible with the own resources system and will not be authorised.
- In accordance with the *principle of unit of account*, the budget is drawn up and implemented in euros and the accounts must be presented in euros.
- The *principle of universality* means that total revenue is to cover total payment appropriations with the exception of a limited number of revenue items which are assigned to particular items of expenditure. Revenue and expenditure are entered in full in the budget without any adjustment against each other.
- The *principle of specification* means that each appropriation must have a given purpose and be assigned to a specific objective in order to prevent any confusion between appropriations.
- The *principle of sound financial management* is defined by reference to the principles of economy, efficiency and effectiveness.
- The *principle of transparency* ensures sound information on the implementation of the budget and the accounts.

The budget presents revenue and expenditure appropriations by section, one for each of the Union institutions as defined in Article 2, point 67, of the Financial Regulation. The revenue appropriations common to all Union institutions (own resources, surpluses, balances and adjustments) are presented in a separate section 'Total revenue'.

In accordance with Article 47 of the Financial Regulation, Commission revenue and the revenue appropriations and expenditure appropriations of the other Union institutions are classified according to their type or the use to which they are assigned. The section of the budget relating to the Commission is classified according to the purpose of the expenditure, with a view to enhancing transparency in the management of the budget with reference to the objectives of sound financial management and in particular efficiency and effectiveness.

On its expenditure side, the budget contains differentiated appropriations, which consist of commitment appropriations and payment appropriations, and non-differentiated appropriations. Commitment appropriations cover the total cost of the legal commitments entered into during the financial year, whereas payment appropriations cover payments made to honour the legal commitments entered into in the financial year or preceding financial years.

For 2026, the expenditure appropriations authorised by the budget totals EUR 192 768 071 555 in commitments and EUR 190 091 555 667 in payments, representing a variation rate of - 3,2 % and of 18,0 % respectively by comparison with the 2025 budget (including amending budgets).

In accordance with Article 312 TFEU, the budget complies with the ceilings for the year 2026 of the multiannual financial framework (MFF) for the period 2021-2027 in accordance with Council Regulation (EU, Euratom) 2020/2093 of 17 December 2020 laying down the multiannual financial framework for the years 2021 to 2027 (OJ L 433I, 22.12.2020, p. 11, ELI: <http://data.europa.eu/eli/reg/2020/2093/oj>). In this respect, this section ('General statement of expenditure') includes two overview tables presenting the budget according to the structure by heading of the MFF, at aggregate level as well as at cluster and programme level.

This section also includes the overview table of the establishment plan posts of all Union institutions and bodies and the overview table of buildings.

GENERAL REVENUE

1. INTRODUCTION

According to the equilibrium principle, the total budgeted revenue of the Union must equal the total budgeted expenditure of the Union. When determining Member States' own resources contributions, the starting point is the total amount of authorised expenditure (payment appropriations). A minor part of that amount is covered by other revenue (taxes levied on the salaries of Union staff, interest on late payments, fines and contributions from third countries to certain programmes, etc.). The remainder is financed by Member States' own resources contributions.

Own resources can be divided into the following categories:

- traditional own resources, mainly customs duties, collected on behalf of the Union by the Member States;
- the own resource based on value added tax (VAT): a small proportion of each Member State's VAT base;
- the own resource based on plastic packaging waste that is not recycled: a small amount applied to the weight of non-recycled plastic packaging waste generated in each Member State;
- the own resource based on gross national income (GNI), which is a proportion of Member States' GNI aggregate. It serves as the balancing resource. It finances all spending not covered by other sources of revenue so that budgeted revenue and expenditure are always in balance.

The legal basis for determining the own resources is Council Decision (EU, Euratom) 2020/2053 ⁽¹⁾. That Decision entered into force on 1 June 2021, with retroactive effect as from 1 January 2021, after the ratification by all Member States according to their national constitutional requirements. It defines a system of own resources, which includes the introduction of the own resource based on plastic packaging waste not recycled.

Budgetary revenue totals EUR 190 091 555 667. The uniform rate of call for the VAT-based own resource is 0,30 % whilst that for the GNI resource is 0,6930 %. Traditional own resources account for 11,24 % of the financing of the 2026 budget. The VAT-based own resource accounts for 13,02 %, the plastic-based own resource accounts for 3,59 % and the GNI-based own resource accounts for 70,28 %. Other revenue for the financial year 2026 is estimated at EUR 3 536 104 775.

Own resources needed to finance the 2026 budget account for 0,97 % of the total GNI of the Union.

The total amount of own resources allocated to the Union to cover annual appropriations for payments shall not exceed 1,40 % of the sum of all the Member States' GNIs (own resources ceiling). This ceiling is temporarily increased by 0,6 percentage points for the sole purpose of covering all liabilities of the Union arising from the allocation of the resources necessary for addressing the consequences of the COVID-19 crisis.

The appropriations to be covered by the own resources referred to in Article 2 of Council Decision (EU, Euratom) 2020/2053 include the costs associated with the funds borrowed on the capital markets and on behalf of the Union in the framework of the European Union Recovery Instrument in accordance with Article 5 of that Decision.

The tables below set out step-by-step the method used to calculate the financing of the 2026 budget.

⁽¹⁾ Council Decision (EU, Euratom) 2020/2053 of 14 December 2020 on the system of own resources of the European Union and repealing Decision 2014/335/EU, Euratom (OJ L 424, 15.12.2020, p. 1, ELI: <http://data.europa.eu/eli/dec/2020/2053/oj>).

2. CALCULATION OF THE FINANCING OF THE BUDGET

Allocation of resources of the Union to ensure, pursuant to Article 311 of the Treaty on the Functioning of the European Union (TFEU), the financing of the Union's annual budget

Revenue description	Budget 2026	Budget 2025 ⁽¹⁾	Change (%)
Miscellaneous revenue (Titles 3 to 6)	3 536 104 775	5 496 479 429	– 35,67

VAT-based own resource at the uniform rate (Tables 1 and 2, Chapter 1 3)	24 757 441 950	23 814 511 650	+ 3,96
Plastic packaging waste own resource (Table 3, Chapter 1 7)	6 826 530 720	6 848 152 160	– 0,32
Remainder to be financed by the additional resource (GNI-based own resource, Table 4, Chapter 1 4)	133 603 178 222	101 480 252 237	+ 31,65
Appropriations to be covered by the own resources referred to in Article 2 of Decision (EU, Euratom) 2020/2053 ⁽²⁾ , ⁽³⁾	186 555 450 892	154 321 516 047	+ 20,89
Total revenue ⁽⁴⁾	190 091 555 667	161 162 528 615	+ 17,95

⁽¹⁾ The figures in this column correspond to those in the 2025 budget (OJ L, 2025/31, 27.2.2025, ELI: <http://data.europa.eu/eli/budget/2025/31/oj>) plus amending budgets No 1/2025 to No 3/2025.

⁽²⁾ The own resources for the 2026 budget are determined based on the budget forecasts adopted at the 194th meeting of the Advisory Committee on Own Resources on 26 May 2025.

⁽³⁾ This amount includes EUR 7 970 000 000 in relation to liabilities of the Union resulting from the borrowing referred to in Article 5 of Decision (EU, Euratom) 2020/2053.

⁽⁴⁾ Article 310(1), third subparagraph, TFEU reads: 'The revenue and expenditure shown in the budget shall be in balance'.

Remarks

The assignment of customs duties as own resource to the financing of common expenditure is the logical consequence of the free movement of goods within the Union. This article may comprise levies, premiums, additional or compensatory amounts, additional amounts or factors, Common Customs Tariff duties and other duties established or to be established by the institutions of the European Union in respect of trade with third countries and customs duties on products under the expired Treaty establishing the European Coal and Steel Community.

Figures are net of collection costs.

133 603 178 222	101 480 252 237	90 333 902 377,03

Remarks

The GNI-based resource is an ‘additional’ resource, providing the revenue required to cover expenditure in excess of the amount yielded by traditional own resources, VAT-based payments, the plastic-based own resource and other revenue in any particular year. By implication, the GNI-based resource ensures that the budget is always balanced *ex ante*.

COMMISSION

CHAPTER 14 — OWN RESOURCE BASED ON GROSS NATIONAL INCOME (*cont'd*)**140** (*cont'd*)

The GNI call rate is determined by the additional revenue needed to finance the budgeted expenditure not covered by the other resources (plastic-based own resource, VAT-based resource, traditional own resources and other revenue). Thus a call rate is applied to the GNI of each of the Member States.

The rate to be applied to the Member States' GNI for financial year 2026 is 0,6930 %.

Remarks

In accordance with Article 18 of the Financial Regulation, the balance from each financial year, whether surplus or deficit, is entered as revenue or expenditure in the budget of the subsequent financial year.

The relevant estimates of such revenue or expenditure are entered in the budget during the budgetary procedure and, where appropriate, in a letter of amendment submitted pursuant to Article 42 of the Financial Regulation. They are drawn up in accordance with the principles set out in Article 1(1) of Regulation (EU, Euratom) 2021/768.

After the closure of the accounts for each financial year, any discrepancy in relation to the estimates is entered in the budget for the following financial year through an amending budget that must be presented by the Commission within 15 days following the submission of the provisional accounts.

A deficit is entered in Article 16 05 01 of the statement of expenditure in Section III ‘Commission’.

For the outturn please see the explanatory memorandum of the Draft Amending Budget No 2/2024 (COM(2024) 920 final of 9 April 2024) and for 2025 please see the explanatory memorandum of the Draft Amending Budget No 1/2025 (COM(2025) 350 final of 9 April 2025).

Remarks

Under Article 7(1) of Regulation (EEC, Euratom) No 1553/89, Member States are to send the Commission a statement of the total amount of the VAT resources base for the previous calendar year before 31 July.

Each Member State is debited with an amount calculated on the basis of that statement according to Union rules and credited with the 12 payments actually made during the previous financial year.

Any corrections to those statements resulting from Commission controls in accordance with Article 9 of Regulation (EEC, Euratom) No 1553/89 and any changes to the GNI of previous financial years that have an effect on the capping of the 'VAT' base will lead to adjustments of the 'VAT' balances.

The Commission shall inform the Member States of the amounts resulting from that calculation before 1 February of the year following that in which the data for the adjustments were supplied.

Legal basis

Council Regulation (EEC, Euratom) No 1553/89 of 29 May 1989 on the definitive uniform arrangements for the collection of own resources accruing from value added tax (OJ L 155, 7.6.1989, p. 9, ELI: <http://data.europa.eu/eli/reg/1989/1553/oj>).

Remarks

On the basis of the annual statement providing the calculation of the amount of the own resource based on non-recycled plastic packaging waste, each Member State shall, in the year following that in which that statement was sent, be debited or credited with an amount calculated as the difference between the amounts in the forecast for a given year and the real amounts in the statement for that same year.

After 31 July of the fifth year following a given financial year, changes shall no longer be taken into account, except on points notified within that time limit either by the Commission or by the Member State.

Remarks

Result of the calculation for the netting of adjustments to plastic-based own resource of previous financial years.

This calculation is the product of multiplying the total amounts of adjustments by the percentage that the GNI of the Member State concerned represents of the GNI of all Member States, as applicable on 15 January to the budget in force for the year following that in which the data for the adjustments were supplied (the 'net amount').

The Commission shall inform the Member States of the amounts resulting from that calculation before 1 February of the year following that in which the data for the adjustments were supplied.

Remarks

Article 5 of Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice and Article 3 of Protocol No 22 on the position of Denmark, both annexed to the Treaty on European Union and the Treaty on the Functioning of the European Union, grant full exemption to Ireland and Denmark from supporting the financial consequences of some specific policies in the area of freedom, security and justice, with the exception of the related administrative costs. They can therefore obtain an adjustment to the own resources paid for each year in which they do not participate.

CHAPTER 2 2 — ADJUSTMENT FOR THE NON-PARTICIPATION OF CERTAIN MEMBER STATES IN SPECIFIC POLICIES (*cont'd*)**2 2 0**(*cont'd*)

Each Member State's contribution to the adjustment mechanism is calculated by applying to the budget expenditure resulting from this operation or policy the scale of the aggregate GNI and its components from the preceding year, supplied by the Member States in accordance with Article 2(2) of Regulation (EU) 2019/516 of 19 March 2019 on the harmonisation of gross national income at market prices (OJ L 91, 29.3.2019, p. 19, ELI: <http://data.europa.eu/eli/reg/2019/516/oj>).

Also in accordance with Article 332 TFEU, and based on Article 91(7) of Council Regulation (EU) 2017/1939 of 12 October 2017 implementing enhanced cooperation on the establishment of the European Public Prosecutor's Office ('the EPPO') (OJ L 283, 31.10.2017, p. 1, ELI: <http://data.europa.eu/eli/reg/2017/1939/oj>), the expenditure of the EPPO shall be borne by the participating Member States.

The Commission works out each Member State's balance and informs it in time for that Member State to enter its balance in the account referred to in Article 9(1) of Regulation (EU, Euratom) No 609/2014 on the first working day of December, in accordance with Article 11 of that Regulation.

Legal basis

Council Regulation (EU, Euratom) No 609/2014 of 26 May 2014 on the methods and procedure for making available the traditional, VAT and GNI-based own resources and on the measures to meet cash requirements (OJ L 168, 7.6.2014, p. 39, ELI: <http://data.europa.eu/eli/reg/2014/609/oj>), and in particular Article 11 thereof.

Protocol No 21 on the position of the United Kingdom and Ireland in respect of the area of freedom, security and justice, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and in particular Article 5 thereof, and Protocol No 22 on the position of Denmark, annexed to the Treaty on European Union and to the Treaty on the Functioning of the European Union, and in particular Article 3 thereof.

2026 estimate	2025 estimate	2024 out-turn
p.m.	p.m.	0,—

Remarks

This article is intended to record interest and other revenue generated on trust accounts.

The trust accounts are kept on behalf of the Union by international financial institutions (European Investment Fund, European Investment Bank, Council of Europe Development Bank in partnership with Kreditanstalt für Wiederaufbau, European Bank for Reconstruction and Development) which manage Union programmes. The amounts paid in by the Union remain on the accounts until they are made available to the beneficiaries under the single programme, such as small and medium-sized enterprises or institutions managing projects in accession countries.

In accordance with Article 21(5) of the Financial Regulation, interest generated by trust accounts used for Union programmes is used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

2026 estimate	2025 estimate	2024 out-turn
5 000 000	5 000 000	364 393 209,24

Remarks

Any delay by a Member State in making the entry in the account opened in the name of the Commission referred to in Article 9(1) of Regulation (EU, Euratom) No 609/2014 gives rise to the payment of interest by the Member State concerned. However, the recovery of amounts of interest below EUR 500 shall be waived.

For the VAT and GNI-based own resources, interest shall be payable only in relation to delays in entering amounts referred to in Article 12(2) of Regulation (EU, Euratom) No 609/2014.

For the own resource based on plastic packaging waste that is not recycled interest shall be payable only in relation to delays in entering the amounts referred to in Article 11(1) of Regulation (EU, Euratom) 2021/770.

CHAPTER 4 1 — DEFAULT INTEREST (cont'd)

4 1 0 (cont'd)

In the case of Member States belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate as published in the *Official Journal of the European Union*, C series, which the European Central Bank applied to its main refinancing operations on the first day of the month in which the due date fell, or 0 per cent, whichever is higher, increased by 2,5 percentage points. That rate shall be increased by 0,25 of a percentage point for each month of delay.

In the case of Member States not belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate applied on the first day of the month in question by the central banks for their main refinancing operations, or 0 per cent, whichever is higher, increased by 2,5 percentage points. For the Member States for which the central bank rate is not available, the interest rate shall be equal to the most equivalent rate applied on the first day of the month in question on the Member State's money market, or 0 per cent, whichever is higher, increased by 2,5 percentage points. That rate shall be increased by 0,25 of a percentage point for each month of delay.

The total increase shall not exceed 14 percentage points. The increased rate shall be applied to the entire period of delay.

Legal basis

2026 estimate	2025 estimate	2024 out-turn
p.m.	p.m.	2 069 033 980,28

Remarks

This item is intended to record the external assigned revenue of the Innovation Fund (IF). This revenue results from the auctioning of the allowances and the unspent amounts from the previous NER300 fund in accordance with Article 10 and Article 10a(8) of Directive 2003/87/EC. The external assigned revenue becoming available on this item is intended to cover all expenditure related to the implementation tasks carried out by the Commission.

For financial year 2026, it is provisionally estimated that an amount of EUR 14,4 million will be needed in order to finance the contribution to the expenditure for the European Climate, Infrastructure and Environment Executive Agency's (CINEA) staff and administration, incurred as a result of the Agency's role in the management of the Innovation Fund financed from Item 16 01 02 74.

The appropriation from Article 16 01 02 will cover the administrative and management costs incurred in relation to the Innovation Fund implementation activities and preparatory activities for the implementation of the Social Climate Fund, in particular costs for external personnel in headquarters.

As regards the operational expenditure for financial year 2026 financed from Article 16 03 01, calls for proposals for projects and competitive bidding for fixed premiums of EUR 4 800 million (indicative) as well as EUR 1 200 million (indicative) for a dedicated instrument to support the Clean Industrial Deal policy priority are planned during that year.

This item is intended to record the annual contributions from the European Coal and Steel Community (ECSC) in liquidation to the Union's annual budget for the years 2021 to 2025 that are resulting from the application of the Article 145 of the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community.

Under this item, the Union is liable to the United Kingdom for its share in the net assets of the ECSC in liquidation on 31 December 2020 (EUR 184 373 974) and the related reimbursement shall be made in five equal annual instalments (EUR 36 874 795) from 2021 to 2025.

These contributions from the ECSC in liquidation therefore aim at fully compensating the effects of the corresponding reductions accounted for in the contributions to the Union's annual budget of the United Kingdom, as recorded under Item 6 6 0 2.

COMMISSION
TITLE 01 — RESEARCH AND INNOVATION

CHAPTER 01 01 — SUPPORT ADMINISTRATIVE EXPENDITURE OF THE ‘RESEARCH AND INNOVATION’ CLUSTER (cont’d)

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature (salaries, studies, meetings of experts, information and publications, etc.) directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

01 01 01 **Support expenditure for Horizon Europe**

Remarks

Besides the expenditure described in this chapter, this appropriation is also intended to cover expenditure relating to officials, temporary and external staff as well as other administrative expenditure for the management of the specific research and innovation programme — Horizon Europe, in the form of indirect and direct actions, including administrative expenditure incurred by staff posted in Union delegations.

Legal basis

See Chapter 01 02.

Remarks

This appropriation is intended to cover expenditure relating to officials and temporary staff occupying posts on the authorised establishment plan of the Joint Research Centre (JRC) and implementing the specific research and innovation programme — Horizon Europe, and in particular:

- direct action, consisting of research activities, scientific and technical support activities, and exploratory research activities undertaken in the establishments of the JRC and in Union delegations,
- indirect action, consisting of programmes implemented as part of the JRC’s activities conducted on a competitive basis.

Staff costs comprise the basic salary, allowances, miscellaneous indemnities and contributions based on the statutory provisions, including expenses related to the entry into service, change in the place of employment and termination of service.

This appropriation can be supplemented by appropriations that the JRC will receive by participating on a competitive basis in indirect actions and in scientific and technical activities in support of Union policies. The activities of a competitive nature conducted by the JRC shall consist of:

- activities carried out following grant or procurement procedures,
- activities on behalf of third parties,
- activities undertaken under an administrative agreement with other institutions or other Commission departments for the provision of technical-scientific services.

Revenue from competitive activities will be used to cover, inter alia, expenditure incurred on staff and resources in respect of activities in support of the Union’s policies and work for third parties carried out by the JRC.

Remarks

Horizon Europe – the Framework Programme for Research and Innovation aims at delivering scientific, technological, economic and societal impact from the Union's investments in research and innovation so as to strengthen the scientific and technological bases of the Union and foster its competitiveness in all Member States including in its industry, deliver on the Union's strategic priorities, contribute to the realisation of Union objectives and policies, contribute to tackling global challenges, including the Sustainable Development Goals by following the principles of Agenda 2030 and the Paris Agreement, and strengthen the European Research Area. Horizon Europe shall thus maximise Union added value by focusing on objectives and activities that cannot be effectively realised by Member States acting alone, but in cooperation.

COMMISSION

TITLE 01 — RESEARCH AND INNOVATION

CHAPTER 01 02 — HORIZON EUROPE (*cont'd*)

Horizon Europe shall:

- develop, promote and advance scientific excellence, support the creation and diffusion of high-quality new fundamental and applied knowledge, skills, technologies and solutions, training and mobility of researchers, attract talent at all levels and contribute to full engagement of the Union's talent pool in actions supported under Horizon Europe,
- generate knowledge, strengthen the impact of research and innovation in developing, supporting and implementing Union policies and support the access to and uptake of innovative solutions in European industry, notably in SMEs, and in society to address global challenges, including climate change and the Sustainable Development Goals,
- foster all forms of innovation, facilitate technological development, demonstration and knowledge and technology transfer, strengthen deployment and exploitation of innovative solutions,
- optimise Horizon Europe's delivery for strengthening and increasing the impact and attractiveness of the European Research Area, to foster the excellence-based participations from all Member States, including low R&I performing Member States, in Horizon Europe and to facilitate collaborative links in European research and innovation.

Horizon Europe shall ensure the effective promotion of equal opportunities for all and the implementation of gender mainstreaming, including the integration of the gender dimension in R&I content.

Horizon Europe shall be implemented in synergy with other Union programmes while aiming for maximal administrative simplification.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for this programme under this title for a total amount of EUR 5 412 000 000 in commitments. Such amounts had to be legally committed before the end of 2023 with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Legal basis

Council Regulation (EU) 2020/2094 of 14 December 2020 establishing a European Union Recovery Instrument to support the recovery in the aftermath of the COVID-19 crisis (OJ L 433 I, 22.12.2020, p. 23, ELI: <http://data.europa.eu/eli/reg/2020/2094/oj>).

CHAPTER 01 02 — HORIZON EUROPE (cont'd)

Regulation (EU) 2021/695 of the European Parliament and of the Council of 28 April 2021 establishing Horizon Europe – the Framework Programme for Research and Innovation, laying down its rules for participation and dissemination, and repealing Regulations (EU) No 1290/2013 and (EU) No 1291/2013 (OJ L 170, 12.5.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/695/oj>).

Regulation (EU) 2021/2115 of the European Parliament and of the Council of 2 December 2021 establishing rules on support for strategic plans to be drawn up by Member States under the common agricultural policy (CAP Strategic Plans) and financed by the European Agricultural Guarantee Fund (EAGF) and by the European Agricultural Fund for Rural Development (EAFRD) and repealing Regulations (EU) No 1305/2013 (EU) No 1307/2013 (OJ L 435, 6.12.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/2115/oj>).

01 02 01 **Excellent Science (Pillar I)**

Remarks

This pillar of Horizon Europe aims to promote scientific excellence, attract the best talent to Europe, provide appropriate support to early stage researchers and support the creation and diffusion of scientific excellence, high-quality knowledge, methodologies and skills, technologies and solutions to global social, environmental and economic challenges.

This pillar consists of:

- the European Research Council (ERC),
- Marie Skłodowska-Curie Actions (MSCA),
- research infrastructures.

Remarks

This appropriation is intended to provide attractive and flexible funding to enable talented and creative individual researchers, with an emphasis on early stage researchers, and their teams to pursue the most promising avenues at the frontier of science, regardless of their nationality and country of origin and on the basis of Union-wide competition based solely on the criterion of excellence.

The activities of the European Research Council shall support frontier research, in a bottom-up manner, carried out across all fields by principal investigators and their teams in competition at the European level, including early-stage career researchers.

Remarks

This appropriation is intended to cover the following activities and actions:

Under Horizon Europe, the Marie Skłodowska-Curie Actions (MSCA) continue to support the career development and training of researchers through trans-national, cross-sectoral and interdisciplinary mobility. This will be achieved, inter alia, through the development of excellent and innovative doctoral training programmes, postdoctoral fellowships and collaborative projects, which promote high-quality training, employment and mentoring standards for researchers at all stages of their careers, and cooperation between academic and non-academic organisations in Europe and beyond.

CHAPTER 01 02 — HORIZON EUROPE (*cont'd*)**01 02 01** (*cont'd*)01 02 01 02 (*cont'd*)

The MSCA will contribute to the Commission's political priorities and missions, with specific focus on the European Green Deal, the Digital Agenda and Making Europe Stronger in the World.

The Commission will inform stakeholders and interested parties worldwide about the MSCA and facilitate their participation in Horizon Europe. The Commission will also continue to inform the public about the positive impact of MSCA-funded research projects on their daily lives and to motivate pupils and students to consider a career in science and research. In addition, it will support the MSCA alumni as well as a network of national contact points dedicated to the MSCA.

Remarks

This appropriation is intended to endow Europe with world-class sustainable research infrastructures open and accessible to all researchers in Europe and beyond, which fully exploit their potential for scientific advance and innovation. Key objectives are to reduce the fragmentation of the research and innovation ecosystem, avoiding duplication of effort, and to better coordinate the design, development, accessibility and use of research infrastructures, including those financed from the European Regional Development Fund.

01 02 02 **Global Challenges and European Industrial Competitiveness (Pillar II)**

Remarks

This pillar is intended to support the creation and better diffusion of high-quality new knowledge, technologies and sustainable solutions, reinforce the competitiveness of European industry, strengthen the impact of research and innovation in developing, supporting and implementing Union policies, and support the uptake of innovative solutions in industry, notably in SMEs and start-ups, and in society to address global challenges.

To maximise impact flexibility and synergies, research and innovation activities shall be organised in six clusters, interconnected through pan-European research infrastructures, which individually and together will incentivise interdisciplinary, cross-sectoral, cross-policy, cross border and international cooperation.

This pillar consists of the following six clusters:

- Health,
- Culture, Creativity and Inclusive Society,
- Civil Security for Society,
- Digital, Industry and Space,
- Climate, Energy and Mobility,
- Food, Bioeconomy, Natural Resources, Agriculture and Environment,

and the non-nuclear direct actions of the Joint Research Centre.

Social sciences and humanities shall be fully integrated across all clusters, including specific and dedicated activities. Activities from a broad range of Technology Readiness Levels, including lower Technology Readiness Levels, will be covered in this pillar of Horizon Europe. Each cluster contributes towards several Sustainable Development Goals; and many of those goals are supported by more than one cluster. Gender equality is a crucial factor in order to obtain sustainable economic growth; it is therefore important to integrate a gender perspective in all global challenges.

Remarks

This appropriation is intended to cover activities to improve and protect the health and well-being of citizens at all ages. It is to be used to generate new knowledge, develop innovative solutions, and ensure where relevant the integration of a gender perspective to:

- prevent, diagnose, monitor, treat and cure diseases,
- develop health technologies,
- mitigate health risks,
- protect populations,
- promote good health and well-being, also in the work place,
- make public health systems more cost effective, equitable and sustainable,
- prevent and tackle poverty-related diseases, and supporting and enabling patients' participation and self-management.

Remarks

The Innovative Health Initiative Joint Undertaking shall contribute to the implementation of Horizon Europe, in particular cluster ‘Health’. It will help create a Union-wide health research and innovation ecosystem that facilitates the translation of scientific knowledge into tangible innovations. It will foster the development of safe, effective, people-centred and cost-effective products and services that target key unmet public health needs and drive cross-sectoral health innovation for a globally competitive European health industry. It will cover prevention, diagnostics, treatment and disease management affecting the population of the Union including the Europe’s Beating Cancer Plan. The initiative will contribute to reaching the objectives of the new Industrial Strategy for Europe and the Pharmaceutical Strategy for Europe.

Remarks

This appropriation is intended to respond to the challenges arising from persistent security threats, including cybercrime, as well as natural and man-made disasters. Research and innovation activities under this cluster will have an exclusive focus on civil applications. Coordination with Union-funded defence research will be sought in order to strengthen synergies, recognizing that there are areas of dual-use technology. Due attention will be given to the human understanding and perception of security. Security research responds to the commitment of the Rome Agenda to work towards 'a safe and secure Europe', contributing to a genuine and effective Security Union.

Remarks

The Chips Joint Undertaking shall contribute to the implementation of Horizon Europe, in particular cluster ‘Digital, Industry and Space’ with the aim of supporting:

- large-scale capacity building throughout investment into cross-border and openly accessible research, development and innovation infrastructure set up in the Union to enable the development of cutting-edge and next-generation semiconductor technologies that will reinforce the Union’s advanced design, systems integration, and chips production capabilities, including emphasis on start-ups and scale-ups,
- key digital technologies that encompass electronic components, their design, manufacture and integration in systems and the software that defines how they work. The overarching objective of this partnership is to support the digital transformation of all economic and societal sectors, make the transformation work for Europe and support the European Green Deal.

Remarks

The Smart Networks and Services Joint Undertaking shall contribute to the implementation of Horizon Europe, in particular cluster 'Digital, Industry and Space'. This partnership will support technological sovereignty for smart networks and services in line with the new Industrial Strategy for Europe and the 5G cybersecurity toolbox. It aims to help resolve societal challenges and to enable the digital and green transition. For the COVID-19 crisis, it will support technologies that respond to both the health crisis and the economic recovery. The partnership will enable European players to develop the technology capacities for 6G systems as a basis for future digital services towards 2030.

Remarks

The Single European Sky ATM Research 3 Joint Undertaking shall contribute to the implementation of Horizon Europe, in particular cluster ‘Climate, Energy and Mobility’. The initiative aims to digitally transform air traffic management, to make European airspace the most efficient and environmentally friendly sky to fly in the world and to support the competitiveness and recovery of Europe’s aviation sector following the COVID-19 crisis. Its objectives are: improving connectivity, air-ground integration and automation, increasing flexibility and scalability of airspace management and the safe integration of unmanned aircraft.

The Clean Aviation Joint Undertaking shall contribute to the implementation of Horizon Europe, in particular cluster 'Climate, Energy and Mobility'. It puts aviation on course for climate neutrality, by accelerating the development, integration, and validation of mainly disruptive research and innovation solutions so that they can be deployed as soon as possible. It also aims to develop the next generation of ultra-efficient low-carbon aircraft, with novel power sources, engines, and systems, which will emerge from the research and demonstration phase at a high technology-readiness level.

Remarks

This appropriation is intended to build a knowledge base and deliver solutions to: protect the environment; restore, sustainably manage natural and biological resources from land, inland waters and sea to stop biodiversity erosion; address food and nutrition security for all, support the transition to a low-carbon, resource-efficient and circular economy; and develop a sustainable bioeconomy.

These activities will help to maintain and enhance biodiversity and secure the long-term provision of ecosystem services, such as climate change adaptation and mitigation and carbon sequestration (both on land and sea). They will help reduce greenhouse gas and other emissions, waste and pollution from primary production (both terrestrial and aquatic), the use of hazardous substances, processing, consumption and other human activities. Activities will also foster participatory approaches to research and innovation, including the multi-actor approach and develop knowledge, and innovation systems at local, regional, national and European levels.

Remarks

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre (JRC).

High-quality and trusted scientific evidence is essential for good public policies. New initiatives and proposals for Union legislation need transparent, comprehensive and balanced evidence, whereas implementation of policies needs evidence to measure and monitor their impact and progress.

The JRC adds value to Union policies because its science is excellent, multi-disciplinary and independent of national, private and other external interests. Serving all areas of Union policy, it provides the cross-sectoral support that policymakers need to tackle increasingly complex societal challenges. The JRC's independence from special interests combined with its scientific-technical reference role enable it to facilitate consensus building between stakeholders and other actors such as citizens, and policymakers. With its capacity to respond rapidly to policy needs, the JRC's activities are complementary to indirect actions aimed at supporting longer-term policy objectives.

The JRC performs its own research and is a strategic manager of knowledge, information, data and competences to deliver high quality and relevant evidence for smarter policies. To achieve this, the JRC works together with the best organisations worldwide, and with international, national and regional experts and stakeholders. Its research contributes to the general objectives and priorities of Horizon Europe, provides independent scientific knowledge, advice and technical support for Union policies throughout the policy cycle, and is focused on Union policy priorities, supporting a Europe that is safe and secure, prosperous and sustainable, social and stronger on the global scene.

This appropriation covers specific expenditure relating to research and support activities, including the purchase of scientific and technical equipment, subcontracting of scientific and technical services, access to information and acquisition of consumables. This includes expenditure on scientific infrastructure directly incurred for the projects concerned, as well as expenses of external users accessing JRC physical research infrastructures in order to conduct research, undertake experimental development, or provide education and training.

It also covers expenditure of any type concerning research and scientific support tasks relating to activities under this item entrusted to the JRC within the framework of its participation on a competitive basis in support of Union policies and on behalf of outside bodies.

01 02 03 ***Innovative Europe (Pillar III)****Remarks*

This pillar shall foster all forms of innovation, including non-technological innovation, primarily within SMEs including start-ups, by facilitating technological development, demonstration and knowledge transfer, and strengthen deployment of innovative solutions.

This pillar shall also provide for the activities developed under the European Institute of Innovation and Technology (EIT), in particular through its Knowledge and Innovation Communities (KICs). Systematic synergies shall be ensured between the European Innovation Council (EIC) and the EIT. Innovative companies stemming from an EIT KIC may be channelled to the EIC to create a pipeline of not yet bankable innovations, while high potential innovative companies funded by the EIC that are not already engaged in one of the EIT KICs may be offered access to this additional support.

Whilst the EIC and the EIT KICs may directly support innovations across the Union, the overall environment from which European innovations are nurtured and emerge must be further developed and enhanced: findings in fundamental research lead to market-creating innovations. It must be a common European endeavour to support innovation all across Europe, and in all dimensions and forms, including through complementary Union national and regional policies (including through effective synergies with the European Regional Development Fund and smart specialisation strategies) and resources whenever possible. Hence, this pillar provides also for renewed and reinforced coordination and cooperation mechanisms with Member States and associated countries, but also with private initiatives, in order to support all actors of European innovation ecosystems, including at regional and local level.

Additionally, as a continued effort to enhance risk-finance capacities for research and innovation in Europe, this pillar will closely link with the InvestEU Programme. Building on the successes and the experiences gained under Horizon 2020 InnovFin, as well as under the European Fund for Strategic Investments, the InvestEU Programme will enhance access to risk finance for bankable entities, as well as for investors.

The European Innovation Council (EIC) is intended to focus mainly on breakthrough and disruptive innovation, targeting especially market-creating innovation, while also supporting all types of innovation, including incremental.

The EIC shall:

- identify, develop and deploy high risk innovations of all kinds including incremental, with a strong focus on breakthrough, disruptive and deep-tech innovations that have the potential to become market-creating innovations, and
- support the rapid scale-up of innovative companies mainly SMEs, including start-ups and in exceptional cases small mid-caps at Union and international levels along the pathway from ideas to market.

Where relevant, the EIC shall contribute to the activities supported under other parts of Horizon Europe, in particular in Pillar II.

CHAPTER 01 02 — HORIZON EUROPE (*cont'd*)**01 02 03** (*cont'd*)01 02 03 02 (*cont'd*)*Remarks*

This appropriation is intended to contribute to support all types of innovation, reach out to all innovators across the Union and provide them with adequate support through:

- the development of an effective innovation ecosystem at Union level,
- the encouragement of cooperation and networking, and the exchange of ideas and knowledge,
- the development of open innovation processes in organisations,
- supporting funding and skills among national, regional and local innovation ecosystems.

Activities will include connecting with national and regional innovation actors and supporting the implementation of joint cross-border innovation programmes by Member States, regions and associated countries. This should be implemented in synergy, inter alia, with support from the European Regional Development Fund for innovation ecosystems and interregional partnerships around smart specialisation topics.

01 02 03 03 (*cont'd*)

The overall mission of the EIT is to boost sustainable European economic growth and competitiveness by reinforcing the innovation capacity of the Member States and the Union. In particular, the EIT reinforces the Union's innovation capacity and addresses societal challenges through the integration of the knowledge triangle of higher education, research and innovation. The EIT operates through its KICs: large-scale European partnerships which address specific societal challenges by bringing together education, research and business organisations. The EIT provides grants to the KICs, monitors their activities, supports cross-KIC collaboration and disseminates results and good practices.

01 02 04 **Widening participation and strengthening the European Research Area**

Remarks

The appropriations under this Article will support activities that contribute to attracting talent, fostering brain circulation and preventing brain drain, as well as a more knowledge-based and innovative and gender-equal Europe at the forefront of global competition and fostering transnational cooperation and thereby optimise national strengths and potential across the whole Europe. It will support a well-performing European Research Area, where knowledge and a highly skilled workforce circulate freely in a balanced manner, where the outcomes of R&I are widely disseminated to, as well as understood and trusted by, informed citizens, and where Union policy, notably R&I policy, is based on high quality scientific evidence.

It shall also support activities aimed at:

- improving the quality of proposals from legal entities from low R&I performing Member States, such as professional pre-proposal checks and advice,

CHAPTER 01 02 — HORIZON EUROPE (cont'd)

01 02 04 (cont'd)

- boosting the activities of national contact points to support international networking,
- activities aimed at supporting legal entities from low R&I performing Member States to join already selected collaborative projects.

Remarks

This appropriation is intended to reduce disparities and the existing divide in research and innovation performance by sharing knowledge and expertise across the Union by helping widening countries and the Union's outermost regions to attain a competitive position in the global value chains and the Union to fully benefit from the R&I potential of all Member States. Further action, for example through the promotion of openness and diversity of project consortia, is therefore needed to counter the trend for closed collaborations, which can exclude large number of promising institutions and individuals, including newcomers, and to exploit the potential of the Union's talent pool by maximising and sharing the benefits of research and innovation across the Union.

Remarks

Appropriations under this chapter are intended to cover the Research and Training Programme of the European Atomic Energy Community for the period 2021-2025 (the 'Euratom Programme'). The Euratom Programme supports nuclear research and training activities. The Euratom Programme is aimed at enhancing nuclear safety, security and protection from ionising radiation, including through safe waste management and decommissioning activities. The Programme focuses also on the development of fusion energy, a potentially inexhaustible and climate-friendly energy source. The Euratom Programme provides, through the Joint Research Centre (JRC), important independent scientific advice in support of the implementation of Union policies in the nuclear field. The Euratom Programme also seeks to strengthen the Union's nuclear competences, expertise and knowledge management and pursues improvements in the areas of education, training and access to research infrastructure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries associated with the Euratom Programme for participating in the Euratom Programme, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation aims to foster the development of fusion energy as a potential future energy source for electricity production and contribute to the implementation of the European fusion roadmap. A co-funded European Partnership in fusion research will implement this roadmap towards the goal of fusion electricity production by the second half of this century. The fusion research and development activity contributes also to maintaining and further developing expertise and competence in the field in the Union.

Remarks

This appropriation aims to improve and support nuclear safety, security, safeguards, radiation protection, safe spent fuel and radioactive waste management and decommissioning, including the safe and secure use of nuclear power and of non-power applications of ionising radiation. It also contributes to maintaining and further developing expertise and competence in the field in the Union.

Remarks

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre (JRC) to implement the Euratom Research and Training Programme. That programme shall contribute to the achievement of its specific objectives:

- improve the safe and secure use of nuclear energy and non-power applications of ionising radiation, including nuclear safety, security, safeguards, radiation protection, safe spent fuel and radioactive waste management and decommissioning,
- maintain and further develop expertise and competence in the Community,
- support the policy of the Community on nuclear safety, safeguards and security.

This appropriation also addresses the activities necessary for implementing safeguards pursuant to Chapter 7 of Title II of the Euratom Treaty and the obligations arising from the Treaty on the Non-Proliferation of Nuclear Weapons and implementation of the Commission's programme to support the International Atomic Energy Agency (IAEA).

It covers specific expenditure relating to research and support activities, including the purchase of scientific and technical equipment, subcontracting of scientific and technical services, access to information and acquisition of consumables. This includes expenditure on scientific infrastructure directly incurred for the projects concerned, as well as expenses linked to the cost of the use of JRC physical research infrastructures by external users accessing them in order to conduct research, undertake experimental development, or provide education and training.

This appropriation also covers expenditure of any type concerning research and scientific support tasks relating to activities under this article entrusted to the JRC within the framework of its participation on a competitive basis in support of Union policies and on behalf of outside bodies.

Remarks

The ITER project aims to demonstrate fusion as a viable and sustainable source of energy by building and operating an experimental fusion reactor as a major step towards the creation of prototype reactors for fusion power stations that are safe, sustainable, environmentally responsible and economically viable. Fusion is expected to play an important role in Europe's future energy landscape as a climate friendly energy source. It is particularly important following the 2015 Paris Agreement on climate change and the Union commitment to lead the way in decarbonising the economy and tackling climate change in a cost effective manner. In this regard, it will contribute to the European Green Deal objective of no net greenhouse gas emissions in 2050 and will foster the mobilisation of European high-tech industries, which are involved in the construction of ITER and provide the Union with a global competitive advantage in this promising sector.

The European Joint Undertaking for ITER and the Development of Fusion for Energy has been established by Decision 2007/198/Euratom. The tasks of the Joint Undertaking are as follows:

- to provide the contribution of Euratom to the ITER International Fusion Energy Organisation,
- to provide the contribution of Euratom to broader approach activities with Japan for the rapid realisation of fusion energy,
- to prepare and coordinate a programme of activities in preparation for the construction of a demonstration fusion reactor and related facilities.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover part of expenses of any kind incurred during the implementation of the high-flux reactor (HFR) supplementary research programme.

The scientific and technical objectives of the HFR supplementary research programme are the following:

- to ensure the safe and reliable operation of the HFR in order to guarantee the availability of the neutron flux for experimental purposes,
- to allow efficient use of HFR by research institutes in a broad range of areas: improvement of safety of nuclear reactors, health (including the development of medical isotopes), nuclear fusion, fundamental research and training and waste management, including the possibility to study the safety issues of nuclear fuels for reactor systems of interest to Europe.

The HFR supplementary research programme also allows the HFR to act as a training facility hosting doctoral and post-doctoral fellows in performing their research activities through national or European programmes.

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature, such as studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

Appropriations under this chapter are intended to cover the costs of a Union guarantee provided under the InvestEU Fund for financing and investment operations carried out in support of the Union's internal policies. It also covers the costs for an advisory support mechanism to support the development of investable projects and access to financing and to provide related capacity building (InvestEU Advisory Hub). Finally, it also covers the costs of a database granting visibility to projects for which project promoters seek financing and which provides investors with information about investment opportunities (InvestEU Portal).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for this programme under this title for a total amount of EUR 6 074 000 000 in commitments in current prices. Such amounts had to be legally committed before the end of 2023, with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Moreover, in accordance with Regulation (EU) 2021/523, resources from the additional allocation provided in accordance with Article 5 of and Annex II to Regulation (EU, Euratom) 2020/2093 give rise to the provision of appropriations for this fund.

CHAPTER 02 02 — INVESTEU FUND (*cont'd*)

Furthermore, any revenues, repayments and recoveries from financial instruments established by programmes referred to in Annex IV to Regulation (EU) 2021/523, may be used for the provisioning of the EU guarantee, taking into account the relevant provisions of Regulation (EU) 2021/1229 of the European Parliament and of the Council of 14 July 2021 on the public sector loan facility under the Just Transition Mechanism (OJ L 274, 30.7.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/1229/oj>) concerning the budget for 2021-2027.

Remarks

Appropriations under this chapter are intended to cover actions focused on the development and modernisation of the trans-European networks in the fields of transport, energy and digital and to facilitate cross-border cooperation in the field of renewable energy, taking into account the long-term decarbonisation commitments and with an emphasis on synergies among sectors.

CHAPTER 02 03 — CONNECTING EUROPE FACILITY (CEF) (cont'd)

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Regulation (EU) 2021/1153 of the European Parliament and of the Council of 7 July 2021 establishing the Connecting Europe Facility and repealing Regulations (EU) No 1316/2013 and (EU) No 283/2014 (OJ L 249, 14.7.2021, p. 38, ELI: <http://data.europa.eu/eli/reg/2021/1153/oj>).

Remarks

This appropriation is intended to cover actions to contribute to the development of projects of common interest relating to efficient, interconnected and multimodal networks and infrastructure for smart, interoperable, sustainable, inclusive, accessible, safe and secure mobility. Those projects will be implemented mainly through calls for proposals under multiannual work programmes constituting financing decisions within the meaning of Article 110 of the Financial Regulation.

This appropriation will support actions that take into account the long-term decarbonisation commitments of the Union. The implementation will take the form of studies, works and other accompanying measures necessary for the management and delivery of the CEF, in line with the sector specific guidelines, i.e. the TEN-T Guidelines.

CHAPTER 02 03 — CONNECTING EUROPE FACILITY (CEF) (cont'd)

02 03 01 (cont'd)

Eligible actions will relate to the development of efficient, interconnected and multimodal networks in railways, inland waterways, maritime ports and road infrastructure along the TEN-T core network and for cross-border links, maritime ports and inland ports located on the TEN-T comprehensive network. Moreover, support will be provided to smart, interoperable, sustainable, multimodal, inclusive, accessible, safe and secure mobility, such as Motorways of the Sea, telematics application systems for all transport modes, new technologies and innovation with a specific focus on alternative fuels infrastructures, actions to remove interoperability barriers and actions improving transport infrastructure accessibility and resilience.

Assigned revenue received may give rise to additional appropriations under this budget line in accordance with Article 22(1) of the Financial Regulation.

Remarks

This appropriation is intended to cover the costs of energy infrastructure projects of common interest and projects of mutual interest relating to further integration of an efficient and competitive internal energy market, interoperability of networks across borders and sectors, facilitating decarbonisation of the economy, promoting energy efficiency and ensuring security of supply, and projects aiming to facilitate cross-border cooperation in the area of energy, including renewable energy.

Remarks

This appropriation is intended to cover actions to contribute to the development of projects of common interest relating to the deployment of safe and secure very high-capacity digital networks and 5G systems, to the increased capacity and resilience of digital backbone networks in Union territory, as well to the digitalisation of transport and energy networks.

Actions foreseen under CEF include: the deployment of and access to very high-capacity networks, including 5G systems, capable of providing Gigabit connectivity in areas where socioeconomic drivers are located; the provision of very high-quality local wireless connectivity in local communities that is free of charge and without discriminatory conditions; uninterrupted coverage with 5G systems of all major transport paths, including the trans-European transport networks; the deployment of new or significant upgrades of existing backbone networks including submarine cables, within and between Member States and between the Union and third countries; and supporting operational digital platforms directly associated with transport or energy infrastructures.

This appropriation may also be used for technical and administrative assistance for the implementation of CEF, such as preparatory, monitoring, control, audit and evaluation activities including corporate information technology systems.

Remarks

This appropriation is intended to cover actions to build up and strengthen the Union's high-performance computing and data processing capacities, and ensure their wide use both in areas of public interest such as health, climate, environment, and security, and by industry, notably small and medium-sized enterprises (SMEs). More concretely, the Connecting Europe Facility appropriation should be used to fund part of the activities of the federation of supercomputing services pillar, i.e. the interconnection of the high performance computing, quantum computing and data resources, as well as the interconnection with the Union's common European data spaces and secure cloud infrastructures.

Remarks

Appropriations under this chapter are intended to cover actions focused on reinforcing Europe's capacities in high performance computing, artificial intelligence (AI), cybersecurity and advanced digital skills, development and deployment of cutting-edge and next generation semiconductor and quantum technologies and ensuring their wide use across the economy and society. Fostered simultaneously, these will help create a thriving data economy, promote inclusiveness and equal opportunities for all and ensure value creation. Most importantly, the programme will concentrate on the areas where no single Member State alone can ensure the level required for digital success. Focus will be placed on those areas where public spending has the highest impact, notably on improving efficiency and quality of services in areas of public interest such as health, environment, climate, mobility and public administrations, and helping small and medium-sized enterprises (SMEs) to adapt to digital change.

The Digital Europe Programme will consider the added value of combining digital with other enabling technologies in order to maximise benefits from digitisation.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover the interoperability block of the Digital Europe Programme that is the successor of the ISA² programme that ended in December 2020.

Interoperability of European public services concerns all levels of administration: Union-wide, national, regional and local. The aim of the interoperability block of the Digital Europe Programme is to eliminate fragmentation of European services, and to implement a holistic cross-sector and cross-border approach to interoperability. It will facilitate and support the design, development, update, use and deployment of interoperable solutions and frameworks by European public administrations, businesses and citizens. It will also offer public administrations access to testing and piloting of digital technologies, including their cross-border use.

Remarks

The Chips Joint Undertaking contributes to the implementation of the Digital Europe Programme with the aim of supporting large-scale capacity building throughout investment in cross-border and openly accessible research, development and innovation infrastructure set up in the Union to enable the development of cutting-edge and next-generation semiconductor technologies that will reinforce the EU's advanced design, systems integration, and chips production capabilities, including an emphasis on start-ups and scale-ups.

The Chips Joint Undertaking will pool resources from the Union, Member States and third countries associated with the existing Union programmes, as well as the private sector.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex 'Staff' to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

EASA is the Union's agency for aviation safety. Its mission is to ensure the highest common level of safety protection for Union citizens, ensure the highest common level of environmental protection, establish a single regulatory and certification process among Member States, facilitate the internal aviation market and create a level playing field, and work with other international aviation organisations and regulators.

The main activities of EASA include the collection and analysis of safety intelligence and performance data to derive strategic action plans, the certification of aviation products and the approval of organisations in all aviation domains (design, production, maintenance, training, air traffic management, etc.), the preparation of regulatory material setting up common standards for aviation in Europe and the monitoring and inspections of the effective implementation of such standards in the Member States and the Union's neighbouring States that have signed aviation agreements with the Union.

The tasks performed by EASA cover the whole spectrum of the Union's aviation safety rules and have an important international component as EASA is legally mandated to cooperate with international actors in order to achieve the highest safety level for EU citizens globally (e.g. EU safety list, authorisation of third country operators, and implementation of technical assistance programming towards third countries). Established in 2002, EASA is composed of more than 800 aviation experts and administrators, and it has 31 Member States (27 EU Member States + Switzerland, Iceland, Norway and Liechtenstein). It has four international offices in Montreal, Washington, Beijing and Singapore. Typically, its budget consists mainly of fees and charges (64%), a subsidy from the Union (23%), earmarked funds (11%) and third country contributions (2%).

Remarks

EMSA is the Union agency for maritime safety. It sits at the heart of the Union's maritime safety network and fully recognises the importance of effective collaboration with many different interests and between Union and international institutions, Member States' administrations and the maritime industry.

EMSA's activities include: providing technical and scientific assistance to the Member States and the Commission in the proper development and implementation of Union legislation on maritime safety, security, prevention of pollution by ships and maritime transport administrative simplification; monitoring the implementation of Union legislation through visits and inspections; improving cooperation with and between Member States; building capacity of national competent authorities; providing operational assistance, including developing, managing and maintaining integrated maritime services related to ships, ship monitoring and enforcement; carrying out operational preparedness, detection and response tasks with respect to pollution caused by ships and marine pollution by oil and gas installations; and, at the request of the Commission, providing technical and operational assistance to third countries.

Remarks

ERA contributes to the further development and effective functioning of a single European railway area without frontiers, by guaranteeing a high level of railway safety and interoperability, while improving the competitive position of the railway sector. In particular, the ERA contributes, on technical matters, to the implementation of Union legislation by developing a common approach to safety on the Union rail system and by enhancing the level of interoperability on the Union rail system. Further objectives of the ERA are to follow the reduction of national railway rules in order to support the performance of national authorities acting in the fields of railway safety and interoperability, to promote the optimisation of procedures, to monitor national safety authorities and conformity assessment bodies and to manage and keep up-to-date a number of registers, which is vital for the smooth operation of the European railway area.

The entry into force of the technical pillar of the Fourth Railway Package designated ERA as the Union authority responsible for issuing authorisations for placing railway vehicles on the market, single safety certificates for railway undertakings and track-side approvals of the European Rail Traffic Management System.

Remarks

ENISA was set up to enhance the capability of the Union, the Member States and, as a consequence, the business community to prevent, address and respond to network and information security problems. In order to achieve this goal, ENISA will be developing a high level of expertise and stimulating broad cooperation between actors from the public and private sectors.

ENISA's aim is to provide assistance and to deliver advice to the Commission and the Member States on issues related to network and information security falling within its competencies and to assist the Commission, where called upon, in the technical preparatory work for updating and developing Union legislation in the field of network and information security.

Remarks

The Body of European Regulators for Electronic Communications (BEREC) acts as a specialised and independent expert advisory body assisting the Commission and the national regulatory authorities in the implementation of the Union regulatory framework for electronic communications in order to promote a consistent regulatory approach across the Union. BEREC is neither a Union body nor does it have legal personality.

The Agency for Support for BEREC (BEREC Office) is established as a Union body with legal personality, providing BEREC with professional and administrative support in carrying out the tasks conferred on it by Regulation (EU) 2018/1971.

Remarks

ACER is an independent body and neutral arbiter on regulatory matters that can take binding decisions required for the integration of the European Internal Energy Market, both for electricity and natural gas, and thereby supports the European Green Deal and the construction of a more resilient Europe. ACER is entrusted with supervising wholesale electricity and gas markets in order to prevent, detect and investigate market manipulations.

In close cooperation with national energy regulatory authorities, ACER ensures that market integration and the implementation of Union legislation is achieved according to the Union's energy policy objectives and regulatory framework.

This appropriation is intended to cover the financing of the technical and legal assistance necessary for the evaluation of the safety, environmental, economic and financial aspects of the projects for which financing in the form of a Euratom loan has been requested, including studies undertaken by the European Investment Bank (EIB). The measures are also intended to enable loan contracts to be concluded and carried out.

Appropriation under this item will also be used to cover or temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with Euratom borrowing and lending operations.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3) point (a) of the Financial Regulation.

Legal basis

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to contract Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9, ELI: <http://data.europa.eu/eli/dec/1977/270/oj>).

Remarks

This appropriation is intended to cover support to renewable energy installations from the Union renewable energy financing mechanism with either the aim of helping Member States to fill the gap, in part or entirely, towards the EU 2030 renewables target in relation to their national reference points or contributing to the enabling framework for renewable energy deployment in line with Article 3 of Directive (EU) 2018/2001 of the European Parliament and of the Council of 11 December 2018 on the promotion of the use of energy from renewable sources (OJ L 328, 21.12.2018, p. 82, ELI: <http://data.europa.eu/eli/dir/2018/2001/oj>). The renewable energy generated by these installations would be statistically attributed to the participating Member States, reflecting their relative payments. The mechanism provides the Member States with the opportunity to increase the sectoral share of renewable energy in the electricity, heating, cooling and transport sector to territories facing socio-economic challenges deriving from the transition process towards a climate-neutral economy in the Union by 2050.

Remarks

This appropriation is intended to finance the activities necessary for the analysis, definition, promotion, monitoring, evaluation and implementation of the Union's transport policy, for all transport modes (road, rail, air, sea and inland waterways). The main actions and objectives are intended to support the Union's transport policy, including extension to third countries.

This appropriation covers all transport sectors such as transport safety, internal market of transport, optimisation of the transport network, multimodality, logistics, passengers' rights and protection, the use of alternative fuels, clean vehicles procurement and urban mobility, social and gender aspects as well as the safety and protection of transport users.

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of inland, air and sea transport, including extension to third countries, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of transport and in particular:

- measures to prevent malicious acts in the transport sector,
- approximation of legislation, technical standards and administrative monitoring practices relating to transport security,
- definition of common indicators, methods and security objectives for the transport sector and collection of the data necessary for such definition,
- monitoring of measures taken on transport security by the Member States, in all modes,
- international coordination on transport security,
- promoting research in the field of transport security.

Support activities include studies, consultancy, evaluations and impact assessments, development and maintenance of IT tools and databases, meetings of experts, information and communication including communication campaigns, conferences and events.

This appropriation also covers expenditure on the establishment and operation of a corps of inspectors to check compliance with the requirements of Union security legislation of airports, ports and port facilities in the Member States, including extension to third countries, and of ships flying the flag of a Member State. This expenditure includes the subsistence allowances and travel expenses of the Commission inspectors and the expenses of inspectors from the Member States, borne in accordance with the provisions laid down in that legislation. The costs of training inspectors, of preparatory meetings and of the supplies needed for inspections must, in particular, be added to that expenditure.

Remarks

This appropriation is intended to cover expenditure incurred by the Commission to support the energy policy for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, financing, evaluation and implementation of a competitive, safe and sustainable European energy policy, of the internal energy market and its extension to third countries, of all aspects of energy supply security in a European and global perspective as well as the strengthening of the rights and protection of energy users by supplying quality services at transparent and comparable prices.

The principal endorsed objectives are to implement a progressive common European policy in line with the Energy Union strategy (COM(2015) 80 final) ensuring continuous energy supply security, good functioning of the internal energy market and access to transport networks of energy, observation of the energy market, integrated governance and monitoring, analysis of modelling including scenarios on the impact of policies considered and the strengthening of the rights and protection of energy users, based on general and particular knowledge of global and European energy markets for all energy types.

This appropriation is also intended to cover experts' expenditure directly linked to the collection, validation and analysis of necessary information on energy market observation, as well as expenditure on information and communication, digital processing and visualisation of data, conferences and events promoting activities in the energy sector, electronic and paper publications, audiovisual products as well as the development of different web-based and social media activities directly linked to the achievement of the objective of the energy policy. This appropriation will also support an enhanced energy dialogue with the Union's key energy partners and international agencies in the field of energy.

Remarks

This appropriation is intended to cover expenditure on a set of measures designed to:

- develop electronic communications policy, and promote (including outside the Union), monitor and coordinate the implementation of the regulatory framework with a view to completing the internal market, promoting competition, investment and growth and protecting end users over the entire range of issues in the e-communications field: economic analysis, impact assessment, policy development and regulatory compliance,
- develop policy and legislation with a particular focus on issues related to retail and consumer issues notably net neutrality, switching, roaming, demand and use stimulation and universal service,
- promote, monitor and review the implementation of the Union roaming policy as established under Regulation (EU) 2015/2120 of the European Parliament and of the Council of 25 November 2015 laying down measures concerning open internet access and retail charges for regulated intra-EU communications and amending Directive 2002/22/EC and Regulation (EU) No 531/201 (OJ L 310, 26.11.2015, p. 1, ELI: <http://data.europa.eu/eli/reg/2015/2120/oj>),
- develop and implement consistent market-based regulations to be applied by national regulatory authorities and to respond to individual notifications from those authorities, notably regarding relevant markets, competition and appropriate regulatory intervention, in particular for next generation access networks,
- develop policies across the board which will ensure that Member States manage all uses of spectrum, including the different internal market realms such as e-communications, 5G (including broadband internet), and innovation,
- promote and monitor the implementation of the regulatory framework for communication services, including the mechanism provided for in Article 32 of Directive (EU) 2018/1972 of the European Parliament and of the Council of 11 December 2018 establishing the European Electronic Communications Code (OJ L 321, 17.12.2018, p. 36, ELI: <http://data.europa.eu/eli/dir/2018/1972/oj>),
- enable third countries to pursue a policy of opening up their markets to the same extent as in the Union,
- promote and monitor the implementation of the radio spectrum policy programme (Decision No 243/2012/EU of the European Parliament and of the Council of 14 March 2012 establishing a multiannual radio spectrum policy programme (OJ L 81, 21.3.2012, p. 7, ELI: [http://data.europa.eu/eli/dec/2012/243\(2\)/oj](http://data.europa.eu/eli/dec/2012/243(2)/oj)),
- develop policies on copyright at Union level, including on Directive 96/9/EC of the European Parliament and of the Council of 11 March 1996 on the legal protection of databases (OJ L 77, 27.3.1996, p. 20, ELI: <http://data.europa.eu/eli/dir/1996/9/oj>),

CHAPTER 02 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**02 20 04** (*cont'd*)02 20 04 03 (*cont'd*)

- develop, implement and monitor policies in the context of the digital single market, on e-commerce in the Union, in particular those related to Directive 2000/31/EC of the European Parliament and of the Council of 8 June 2000 on certain legal aspects of information society services, in particular electronic commerce, in the Internal Market ('Directive on electronic commerce') (OJ L 178, 17.7.2000, p. 1, ELI: <http://data.europa.eu/eli/dir/2000/31/oj>), including the assessment of legal and economic barriers stemming from the internal market framework for electronic commerce or from related measures,
- support the implementation and take-up of policies in the context of eGovernment (in particular the eGovernment Action Plan 2016-2020) and eIDAS (Regulation (EU) No 910/2014 of the European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC (OJ L 257, 28.8.2014, p. 73, ELI: <http://data.europa.eu/eli/reg/2014/910/oj>) in order to advance the quality and innovation of public administrations and accelerate the large-scale public and private sector use of trusted identification and trust services in the digital single market.

Those measures consist, inter alia, in preparing analyses and progress reports, consulting stakeholders and the public, preparing communications, legislative proposals and monitoring the application of legislation, translations of notifications and consultations under Article 32 of Directive (EU) 2018/1972 of the European Parliament and of the Council of 11 December 2018 establishing the European Electronic Communications Code (OJ L 321, 17.12.2018, p. 36, ELI: <http://data.europa.eu/eli/dir/2018/1972/oj>).

This appropriation is also intended to cover, in particular, contracts for analyses and expert reports, specific studies, evaluation reports, coordination activities, grants and the part-financing of certain measures.

In addition, it is also intended to cover expenditure on meetings of experts, communication events, membership fees, information and publications directly linked to the achievement of the objectives of the policy or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature (such as studies, meetings of experts, and information and publications) directly linked to the achievement of the objectives of the programmes or measures coming under this cluster and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

CHAPTER 03 02 — SINGLE MARKET PROGRAMME (cont'd)

Remarks

Appropriations under this chapter are intended to contribute to the good functioning of the single market for goods and services, including financial services, anti-money laundering and the free movement of capital, and to provide high quality European statistics on all Union policies, as per the purpose of the Programme for the single market, competitiveness of enterprises, including small and medium-sized enterprises, and European statistics ('Single Market Programme'). In particular, the programme will support the design, implementation and enforcement of the Union legislation underpinning the proper functioning of the single market for goods and services, including financial services, anti-money laundering and the free movement of capital, as well as capacity building, coordination of joint actions between Member States and the Commission, and the international dimension of the internal market. It will also support women's participation and contribute to the empowerment of all actors of the single market: businesses, citizens including consumers, civil society and public authorities. The Single Market Programme brings together six preceding programmes from different policy areas, notably the grants and contracts part of the Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME), programmes on consumer protection, enhancing the participation of consumers and other end users in financial services policymaking, the development of international financial, auditing and corporate reporting standards, measures to contribute to a high level of health for humans, animals and plants along the food chain and in related areas, and European statistics. In addition, the programme includes several other budgetary lines concerning, in particular market surveillance, company law, contract and extra-contractual law, standardisation and support for competition policy, customs and taxation. The impact assessment showed that one single programme will create synergies contributing to more agile and efficient budgetary spending.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover expenditure arising from the management and development of the internal market governance tools (Your Europe, Single Digital Gateway, Digital Product Passport, Your Europe Advice, SOLVIT, the Internal Market Information (IMI) system and the Single Market Scoreboard). These tools are providing a seamless range of services for citizens, business and public authorities, that aim to ensure a better functioning of the internal market in practice. The Your Europe online portal provides citizens and businesses with information on their Union rights in 23 languages of the Union. Since December 2020, Your Europe serves as the entry point for Single Digital Gateway, adding information on national and regional rights and procedures in English and the relevant national languages. Single Digital Gateway is also working towards digitalising the most important administrative procedures for citizens and businesses, including their accessibility cross-border, and establishing a system for the automated cross-border exchange of evidence needed for those procedures. The Digital Product Passport offers a single point of entry for accessing product specific information essential for sustainability and circularity to consumers, businesses and public authorities, promoting transparency and harmonized application of EU rules in the internal market. It supports cooperation between public authorities in the Member States, including customs and market surveillance authorities. Your Europe Advice offers citizens and businesses free of charge tailored advice on their rights in the internal market. SOLVIT is an informal problem-solving network, efficiently dealing with cross-border problems faced by citizens or businesses that result from an incorrect application or transposition of Union legislation by a Member State. SOLVIT also identifies wider issues and reports on such issues as detected in the SOLVIT-IMI database. IMI is a multilingual online application for administrative cooperation between Member States within the internal market, making it easy for authorities to exchange information and work together, on the basis of simple and unified procedures in their own language. The Single Market Scoreboard, showing Member States' performance in the most relevant policy areas and for internal market governance tools, is being developed to provide an even more complete vision of the internal market.

Remarks

This appropriation is intended to cover measures which aim to make the internal market more effective, inter alia in light of the digital transformation, by:

- supporting the development of the Union regulatory framework in the areas of company law and corporate governance, and contract and extra-contractual law, with a view to making businesses, especially SMEs, more efficient and competitive, while providing protection for stakeholders affected by company operations, and with a view to reacting to emerging policy challenges;
- supporting the appropriate evaluation, implementation and enforcement of the relevant acquis, informing and assisting stakeholders and promoting information exchange in the area;
- supporting the Commission's initiatives in support of a clear and well-adapted legal framework for the data economy and innovation.

Remarks

This appropriation is intended to cover expenditure contributing to the effective enforcement, implementation, development, modernisation and communication of Union competition policy. It is intended to tackle the implications for competition and the functioning of the internal market resulting from the ongoing globalisation and transformation of the economy and business environment, in particular, the exponential growth and use of data, the increase of artificial intelligence and other digital tools and expertise. It should support networks and cooperation with national authorities and courts, as well as outreach activities to stakeholders.

Remarks

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion of the internal market and its operation, strengthening, improvement and development in the area of financial services, financial stability, pensions, payment systems and the capital markets union, including sustainable finance. It shall contribute to making the internal market more effective, facilitating the prevention and removal of obstacles, supporting the development, implementation and enforcement of Union law in the areas of financial services (including market surveillance) and the free movement of capital. It shall also contribute to the development of governance tools.

03 02 01 06 (cont'd)

The appropriation shall cover expenditure arising from the Commission's monitoring of financial markets and financial stability, the assessment of the implementation of Union legislation by Member States, the evaluation of whether existing legislation is fit for purpose and the identification of potential areas of action where new risks or opportunities emerge. This shall include the international dimension of Union policies. It may also cover expenditure to facilitate the involvement of stakeholders throughout the policy cycle. Such activities rely on the production of analyses, studies, training materials, surveys, conformity assessments, evaluations and statistics. The appropriation shall also, where necessary, cover the procurement of data and the cost of access to external databases; the development and maintenance of IT systems, including licences and internal charge-backs, and IT support to internal and external users of these systems; information and communication activities and tools; participation in meetings including of international organisations and associations; the costs of membership of bodies, organisations and associations; consultations and meetings; and any other assistance required to ensure the required operation, strengthening, improvement and development of the internal market.

The appropriation shall also cover expenditure for promoting the correct and full implementation and application by the Member States of the Union legal framework for anti-money laundering and countering the financing of terrorism and the development of future policies to address new challenges in those fields, as well as supporting relevant activities of international organisations of European interest.

Remarks

Within the internal market, the free movement of goods is the most developed of all four fundamental freedoms. However, the increasing number of illegal and non-compliant products on the market distorts competition and puts consumers at risk. Many businesses disregard the rules either through a lack of knowledge or intentionally to gain a competitive advantage.

CHAPTER 03 02 — SINGLE MARKET PROGRAMME (cont'd)

03 02 01 (cont'd)

Market surveillance ensures that non-food products on the Union market do not endanger European consumers and workers. It also ensures the protection of other public interests such as the environment, security and fairness in trade.

Under the Single Market Programme, support to market surveillance measures in the Union seeks to strengthen product compliance by providing the right incentives to entrepreneurs, intensifying compliance checks and controls of products at the external borders, and promoting closer cross-border cooperation between market surveillance enforcement authorities.

The Single Market Programme also contributes to the consolidation of the existing framework for market surveillance activities, to encourage joint actions of authorities from different Member States, to improve the exchange of information and to promote convergence and closer integration of activities.

Remarks

This appropriation is intended to support the competitiveness of enterprises, in particular that of SMEs, and to support their growth.

The implemented measures will include:

- networks and clusters bringing together a variety of stakeholders and support to strategically connect ecosystems,
- various forms of support for SMEs, including for social economy enterprises to foster access to markets and global value chains, entrepreneurship, the modernisation of industry and the competitiveness of sectors,
- various forms of support for SMEs, including for social economy enterprises, to empower their investments in green and social sustainability that benefits the local and regional economic ecosystem,

- information sharing, dissemination, awareness raising and advisory services to increase SMEs' competitiveness and help them participate in the single market and beyond.

Projects will seek to improve conditions for SMEs and contribute to a favourable business environment, including through capacity building, support to SME internationalisation, industrial transformation, skill development, and value chain collaboration, and help them increase their competitiveness and sustainability. They will rely on the services provided by clusters, entrepreneurship and business support networks.

In addition, projects will be put in place to support the implementation of the SME Relief Package, the SME Strategy for a sustainable and digital Europe and the New Industrial Strategy for Europe; as well as current Commission priorities, including the European Green Deal and Better Regulation. Appropriations also covers actions related to the implementation of the Single Digital Gateway and the Digital Product Passport which are key components supporting competitiveness and sustainability as well as the transition to a digital Europe.

Support actions directly linked to the achievement of the programme-specific objectives are also considered for funding: meetings (including workshops), studies, information and publications and participation in study groups.

Key activities that have proven expertise and success in reaching and supporting SMEs will continue to be central.

The Enterprise Europe Network (EEN) will be further strengthened and supported, and will use its expertise to enable SMEs to improve their competitiveness and develop their business in the single market and beyond. EEN services will be further adapted and widened to suit SME needs in respect of new policy priorities such as digitalisation, internationalisation, the circular economy and skills. EEN will help SMEs and scale-ups understand sustainability issues, and put in place strategies and business plans to adapt and compete successfully.

Joint Cluster Initiatives will be used as a strategic tool for supporting the competitiveness, scaling up of SMEs, supported by the European Cluster Collaboration Platform and its European Resource Efficiency Knowledge Centre (EREK). By connecting specialised ecosystems, clusters create new business opportunities for SMEs and integrate them better in European and global strategic value chains. Support will be provided for the development of transnational partnership strategies and the implementation of joint activities, including for channelling direct support to SMEs for encouraging the uptake of advanced technologies, low-carbon solutions, and skills upgrading.

The 'Erasmus for Young Entrepreneurs' mobility scheme enables new or aspiring entrepreneurs to gain business experience by matching with an experienced entrepreneur from another country and thus allow the strengthening of entrepreneurial talents. It helps tackle unemployment and enables existing SMEs to create jobs and increase their turnover by expanding and internationalising their business.

The High-Level Construction Forum is an active platform to bring together key stakeholders in the construction sector. The Forum monitors the green, digital and resilient transition pathways for the EU construction industry ecosystem.

Sustainable tourism will receive a special focus through sectorial support actions. The Union will support, inter alia:

- actions related to the implementation of Regulation (EU) 2024/1735 of the European Parliament and of the Council of 13 June 2024 on establishing a framework of measures for strengthening Europe's net-zero technology manufacturing ecosystem and amending Regulation (EU) 2018/1724 (OJ L, 2024/1735, 28.6.2024, ELI: <http://data.europa.eu/eli/reg/2024/1735/oj>), in particular in relation to skills,
- actions to build capacity of tourism businesses, in particular SMEs, in areas such as sustainability, digitalisation and innovation,
- actions to promote cross-border cooperation and peer learning among tourism stakeholders and public authorities responsible for tourism,
- foresight and socio-economic analysis regarding, inter alia, the long-term competitiveness of the tourism sector and promotion of Union tourism businesses.

The Programme is intended to ensure the effective promotion of equal opportunities for all, and the implementation of gender mainstreaming in its actions.

Remarks

European standardisation activities are governed by Regulation (EU) No 1025/2012 of the European Parliament and of the Council of 25 October 2012 on European standardisation and implemented through a long-standing public-private partnership which is fundamental to achieve the objectives set in that Regulation as well as in general and sectorial Union standardisation policies.

This appropriation is intended to cover the financing of European standardisation and stakeholder participation in setting up European standards. In particular, the appropriation will financially support the actions and the entities specified in Articles 15 and 16 of Regulation (EU) No 1025/2012.

European standards play an important role in the internal market. They are of vital interest for the competitiveness of undertakings, and especially SMEs. They are also a crucial tool to support Union legislation and policies in a number of key areas such as energy, climate change, information and communication technology, sustainable use of resources, innovation, product safety, consumer protection, workers' safety and working conditions and ageing population, thus positively contributing to society as a whole.

Remarks

This appropriation is intended to cover expenditure in pursuit of the specific objective of supporting the development of high-quality financial and non-financial reporting and auditing standards globally and across the Union, facilitating their integration into Union legislation and promoting the innovation and development of best practices in corporate reporting. Union funding for these activities is vital to support the development of International Financial Reporting Standards (IFRS) which take account of Union interests and which are consistent with the legal framework of the internal market, to promote best practices in wider corporate reporting and to support public oversight for the transparent development of International Standards on Auditing (ISA). Union funding is also vital to support the development and implementation of European sustainability reporting standards that build on and contribute to the development of such standards at the global level.

The appropriations may be used for actions supporting the development, application, assessment and monitoring of corporate reporting and auditing standards, thereby contributing to the transparency of Union capital markets and enhancing investor protection, financial stability and sustainable finance.

Remarks

This appropriation is intended to cover expenditure in pursuit of the specific objective of promoting the interests of consumers and ensuring a high level of consumer protection and product safety by:

- empowering, assisting and educating consumers, businesses and civil society in particular with regard to consumer's rights under Union law,
- ensuring a high level of consumer protection, sustainable consumption and product safety for, in particular, the most vulnerable consumers in order to enhance fairness, transparency and trust in the single market,
- ensuring that the interests of consumers in the digital world are duly taken into consideration,
- supporting competent enforcement authorities and consumer representative organisations and actions enhancing the cooperation between competent authorities with particular emphasis on issues raised by existing and emerging technologies,
- contributing to improving the quality and availability of standards across the Union,
- efficiently addressing unfair commercial practices,
- ensuring that all consumers have access to efficient redress mechanisms and are provided with adequate information on markets and consumers rights, and
- promoting sustainable consumption, namely through raising awareness about specific characteristics and the environmental impact of goods and services.

Remarks

This appropriation is intended to cover expenditure in pursuit of the specific objective of enhancing the participation of consumers, other financial service end users and representatives of civil society in financial services policymaking, promoting a better understanding of the financial sector and of the different categories of commercialised financial products and ensuring that the interests of consumers in the area of retail financial services are protected.

The appropriation may be used to support: the identification of issues relevant for Union policymaking for the protection of consumer interests in the area of financial services; awareness raising, dissemination, education and training for consumers, other financial service end users and non-experts; reinforcing the interactions between members of organisations representing the interests of consumers and other financial service end users; advocacy and policy advice; fostering the public and general interest in financial and Union regulation. The appropriation will provide the possibility to co-finance such activities, including in relation to sustainable finance, the transition to a low-carbon economy and climate change, undertaken by two non-profit organisations (Finance Watch and Better Finance) or by other potential beneficiaries, should they emerge.

CHAPTER 03 02 — SINGLE MARKET PROGRAMME (*cont'd*)**03 02 05** (*cont'd*)*Remarks*

This appropriation is intended to cover:

- statistical data collection and surveys, studies and the development of indicators and benchmarks,
- quality studies, knowledge transfer, capability building and activities designed to improve the quality of statistics,
- the processing, dissemination, promotion and marketing of the statistical information,
- the development, maintenance and reengineering of IT systems and infrastructure linked to putting into place and monitoring measures coming under this article,
- risk-based control work at the sites of entities involved in the production of statistical information in Member States, especially to support the economic governance of the Union,
- support to collaborative networks and support to organisations having as their primary objectives and activities the promotion and support for the implementation of the European Statistics Code of Practice and the implementation of new methods of production of European statistics,
- services rendered by external experts,
- statistical training courses for statisticians,
- the cost of purchasing documentation,
- subsidies and subscriptions to international statistical associations,
- gathering of the information necessary to draw up an annual summary report on the economic and social state of the Union on the basis of economic data and structural indicators and benchmarks,
- costs incurred in connection with the training of national statisticians and the policy of cooperation in the field of statistics with third countries; expenditure relating to exchanges of officials, the costs of information meetings, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff,
- cooperating with the programme labelled European Master in Official Statistics to develop research in official statistics, encourage joint teaching projects and practical training in the European Statistical System,
- expenditure on the purchase of data and access for Commission departments to external databases,
- development of new, modular techniques,

Remarks

This appropriation is intended to support measures aiming to contribute to a high level of health for humans, animals and plants along the food chain and in related areas such as actions in the areas of animal welfare, sustainable food production and consumption, food fraud, coordinated control programmes, digitalisation, antimicrobial resistance and food waste prevention.

The animal welfare actions will aim at supporting innovative projects that replace, reduce or refine current practices that are detrimental to the welfare of animals as well as activities of data collection and training. Moreover, there will be initiatives to improve the sustainable use of food packaging materials and tableware as a way to reach the target of the circular economy and contribute to the zero pollution strategy.

Remarks

Appropriations under this chapter are intended to cover expenditure to support the customs union and customs authorities to protect the financial and economic interests of the Union and its Member States, to ensure security and safety within the Union and to protect the Union from unfair and illegal trade, while facilitating legitimate business activity.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

CHAPTER 03 10 — DECENTRALISED AGENCIES (*cont'd*)

The establishment plans of the agencies are set out in Annex 'Staff' to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

New article

Having regard to the TFEU, and in particular Article 114 thereof, as well as to Regulation (EU) No 952/2013, the European Customs Authority will contribute to a more effective and efficient operational management of the customs union. It will develop and manage the EU Custom Data Hub and perform EU level risk management, crisis management and performance measurement activities. It will provide operational coordination and support to national customs authorities to ensure a more harmonized application of customs controls and a uniform application of customs legislation. It will not only make the customs union stronger to better target illicit and non-compliant goods and 'bad' supply chains in close cooperation with other authorities and agencies, it will also make customs simpler by drastically simplifying customs processes for trade through the Data Hub.

Reference acts

Proposal for a Regulation of the European Parliament and of the Council establishing the Union Customs Code and the European Union Customs Authority, and repealing Regulation (EU) No 952/2013 (COM(2023) 258 final).

Remarks

This appropriation is intended to cover:

- the completion of the deployment phase of the Global Navigation Satellite System (GNSS) components, consisting of the construction, establishment, protection of the space and ground infrastructure,
- the exploitation phase of the GNSS components, consisting of the management, maintenance, continuous improvement, evolution and protection of the space and ground infrastructure, the development of future generations of the system and the evolution of the services provided by the system, certification and standardisation operations, provision and marketing of the services provided by the system and all other activities needed to ensure that the programme runs smoothly.

Remarks

This appropriation is intended to cover the operations of Copernicus services, tailored to the needs of users, contributing to ensure access to data of the observation infrastructure necessary to operate Copernicus services and creating opportunities for increased private sector usage of information sources, thereby facilitating innovation by value-adding service providers.

This appropriation is also intended to cover the remaining development activities of the current Sentinels as well as the initiation of new missions' development.

CHAPTER 04 02 — UNION SPACE PROGRAMME (cont'd)

04 02 02 (cont'd)

This appropriation may also fund cross-cutting activities among the services or their articulation and coordination, as well as for the in situ coordination, user uptake and training and communication.

In addition, in support of competitiveness and growth, this appropriation may also fund data dissemination and the incubation of new businesses by supporting more robust and innovative IT structures in Europe.

Copernicus services will facilitate access to key data required in policy formulation at Union, national, regional and local level in fields such as agriculture, forest monitoring, water management, transport, urban planning, climate change and many others. This appropriation covers mainly the implementation of delegation agreements for the Copernicus programme, pursuant to Article 58 of the Financial Regulation.

Remarks

This appropriation is intended to cover all activities related to the set-up of Govsatcom and Space Situational Awareness (SSA) (covering Space Surveillance and Tracking (SST), space weather and near-Earth objects (NEO) components of the Union Space Programme).

Under the GOVSATCOM component, satellite communication capacities and services shall be combined into a common Union pool of satellite communication capacities and services, with appropriate security requirements. This component comprises:

- (a) the development, construction, and operations of the ground segment infrastructure;
- (b) the procurement of governmental and commercial satellite communication capacities, services, and user equipment necessary for the provision of GOVSATCOM services;
- (c) measures necessary to further interoperability and standardisation of GOVSATCOM user equipment.

CHAPTER 04 02 — UNION SPACE PROGRAMME (*cont'd*)**04 02 03** (*cont'd*)

Under the SSA component, a space surveillance and tracking system aiming to improve, operate and provide data, information and services related to the surveillance and tracking of space objects that orbit the Earth ('SST' sub-component) shall be complemented by observational parameters related to space weather events ('SWE' sub-component) and the risk monitoring of near-Earth objects approaching the Earth ('NEO sub-component').

The SST function shall support the following activities:

- (a) the establishment, development and operation of a network of ground-based and space-based SST sensors of the Member States, including sensors developed through the European Space Agency and nationally operated Union sensors, to survey and track objects and to produce a European catalogue of space objects;
- (b) the processing and analysis of SST data at national level in order to produce SST information and SST services referred to in Article 55 of Regulation (EU) 2021/696;
- (c) the provision of the SST services referred to in Article 55 to the SST users referred to in Article 56 of Regulation (EU) 2021/696;
- (d) monitoring and seeking synergies with initiatives promoting development and deployment of technologies for spacecraft disposal at the end of operational lifetime, of technological systems for the prevention and elimination of space debris as well as with the international initiatives in the area of the space traffic management;
- (e) technical and administrative support to ensure the transition to the Union Space Programme from the SST support framework established by Decision No 541/2014/EU of the European Parliament and of the Council of 16 April 2014 establishing a Framework for Space Surveillance and Tracking Support (OJ L 158, 27.5.2014, p. 227, ELI: [http://data.europa.eu/eli/dec/2014/541\(1\)/oj](http://data.europa.eu/eli/dec/2014/541(1)/oj)).

The space weather function may support the following activities:

- (a) the assessment and identification of the needs of the users in the sectors of transport, GNSSs, electric power grids and communications with the aim of setting out the space weather services to be provided;
- (b) the provision of space weather services to the space weather users, according to the identified users' needs and technical requirements.

The NEO function may support the following activities:

- (a) the mapping of Member States' capacities for detecting and monitoring near-Earth objects;
- (b) the promotion of the networking of Member States' facilities and research centres;
- (c) the development of the service referred to in the subsequent paragraph;
- (d) the development of a routine rapid response service able to characterise newly discovered near-Earth objects;
- (e) the creation of a European catalogue of near-Earth objects.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies’ staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex ‘Staff’ to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

ERDF support under the Investment for jobs and growth goal and for the European territorial cooperation goal (Interreg) in the 2021-2027 and preceding programming periods.

It will cover the following three categories of regions:

- less developed regions, with a GDP per capita less than 75 % of the average GDP of the Union,
- transition regions, with a GDP per capita between 75 % and 100 % of the average GDP of the Union,

COMMISSION
TITLE 05 — REGIONAL DEVELOPMENT AND COHESION

CHAPTER 05 02 — EUROPEAN REGIONAL DEVELOPMENT FUND (ERDF) (*cont'd*)

— more developed regions, with a GDP per capita above 100 % of the average GDP of the Union.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for programmes financed under the REACT-EU under Titles 05 and 07 for a total amount of EUR 50 620 000 000 in commitments. Such amounts had to be legally committed before the end of 2023 with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Remarks

CF support under the Investment for jobs and growth goal in the 2021-2027 and preceding programming periods. The CF will support Member States whose gross national income (GNI) per capita, measured in Purchasing Power Standards (PPS) and calculated on the basis of Union figures for the period 2014-2016, is less than 90 % of the average GNI per capita of the EU-27 for the same reference period. The appropriation, while ensuring an appropriate balance and according to the investment and infrastructure needs specific to each Member State, is intended to support:

- investments in the environment, including areas related to sustainable development and energy which present environmental benefits,
- the Connecting Europe Facility (CEF).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover CF support under the Investment for jobs and growth goal in the 2021-2027 programming period. The CF will support Member States whose GNI per capita, measured in Purchasing Power Standards (PPS) and calculated on the basis of Union figures for the period 2014-2016, is less than 90 % of the average GNI per capita of the EU-27 for the same reference period. The appropriation, while ensuring an appropriate balance and according to the investment and infrastructure needs specific to each Member State, is intended to support:

- investments in the environment, including areas related to sustainable development and energy which present environmental benefits,
- the Connecting Europe Facility (CEF).

05 03 02 (cont'd)

Remarks

This appropriation is intended to cover the CF-funded technical assistance provided for in Article 35 of Regulation (EU) 2021/1060.

Technical assistance may support preparatory, monitoring, control, audit, evaluation, communication including corporate communication on the political priorities of the Union, visibility and all administrative and technical assistance actions necessary for the implementation of the legislation on Union funds and, where appropriate with third countries.

It may, in particular, be used to cover:

- IT-related expenditure, including corporate IT,
- communication expenditure, including corporate communication,
- expenditure related to studies and evaluations.

Remarks

An amount transferred from the CF shall be spent exclusively in Member States eligible for funding from the CF.

The objective will be mainly implemented through calls for proposals under multiannual work programmes, which will constitute financing decisions in the meaning of Article 110 of the Financial Regulation.

It will support actions that take into account the long-term decarbonisation commitments of the Union. The implementation will take the form of studies, works and any other accompanying measures necessary for the management and delivery of the programme, in line with the sector-specific guidelines, i.e. the TEN-T Guidelines.

Eligible actions will mainly relate to the development of efficient, interconnected and multimodal networks in railways, inland waterways, maritime ports and road infrastructure along the TEN-T core network and for cross-border links, maritime ports and inland ports located on the TEN-T comprehensive network.

CHAPTER 05 03 — COHESION FUND (CF) (*cont'd*)**05 03 03** (*cont'd*)

In accordance with Article 4, point (4), of Regulation (EU) 2021/1153, up to 1 % of the overall CEF financial envelope will cover expenses pertaining to programme support actions and any other accompanying measures to support the preparation of projects and provide advisory to project promoters.

In accordance with Article 27 of Regulation (EU) 2021/1153, financial resources allocated to the CEF are also to contribute to the corporate communication of the political priorities of the Union, to actions taken pursuant to the CEF and to the results obtained.

Remarks

This appropriation is intended to cover the continuation of aid under Regulation (EC) No 389/2006 to facilitate the reunification of Cyprus by encouraging the economic development of the Turkish Cypriot community with particular emphasis on economic integration of the island, on improving contacts between the two communities and with the Union and on preparation for the application of the Union *acquis*. Assistance is delivered in the areas specified in that Regulation, and includes notably the promotion of social and economic development, the development and restructuring of infrastructure, reconciliation, confidence building measures and support to civil society, bringing the Turkish Cypriot community closer to the Union, including scholarships for Turkish Cypriot students. Also, the TAIEX instrument is used for the preparation of legal texts for the purpose of these being applicable upon the entry into force of a comprehensive settlement of the Cyprus problem, as well as for the preparation of the Union *acquis* immediately following a political settlement for reunification.

CHAPTER 05 04 — SUPPORT TO THE TURKISH CYPRIOT COMMUNITY (cont'd)

05 04 01 (cont'd)

This appropriation will, in particular, allow for the continuation of Union financial support to facilitate the intensification of the work of the Committee on Missing Persons in order to meet the goals of its strategic plan on the faster identification of missing persons, as well as the implementation of the decisions of the bi-communal Technical Committee on Cultural Heritage in order to preserve common cultural heritage of Cyprus.

This appropriation is to be implemented in direct and indirect management and be used, inter alia, to sustain the outcome of works, services, supplies and grants being funded under earlier allocations. In addition, grant schemes addressed to a large variety of economic and civil society beneficiaries (non-governmental organisations, students and teachers, schools, farmers, small villages, and the private sector) may continue. These activities aim at socio-economic development and are driven by the prospect of reunification. Priority should be given, where possible, to reconciliation projects that create bridges between the two communities and build confidence. These measures underline the strong desire and commitment of the Union to the Cyprus problem settlement and reunification.

COMMISSION
TITLE 06 — RECOVERY AND RESILIENCE

CHAPTER 06 01 — SUPPORT ADMINISTRATIVE EXPENDITURE OF THE ‘RECOVERY AND RESILIENCE’ CLUSTER (cont’d)

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature (such as studies, meetings of experts, information and publications) directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Besides the expenditure described in this chapter, this appropriation is also intended to cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities which are required for the management of the Technical Support Instrument and the achievement of its objectives, in particular studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union, insofar as they are related to the objectives of Regulation (EU) 2021/240, expenses linked to IT networks focusing on information processing and exchange, including corporate information technology tools, and all other technical and administrative assistance expenses incurred by the Commission for the management of the Technical Support Instrument. Expenses may also cover, under the Technical Support Instrument, the costs of other supporting activities, such as the quality control and monitoring of technical support projects on the ground and the costs of peer counselling and experts for the assessment and implementation of structural reforms. This appropriation may also be used to cover the type of expenditure mentioned above in this item relating to the management of actions and activities initiated under Regulation (EU) 2017/825 of the European Parliament and of the Council of 17 May 2017 on the establishment of the Structural Reform Support Programme for the period 2017 to 2020 and amending Regulations (EU) No 1303/2013 and (EU) No 1305/2013 (OJ L 129, 19.5.2017, p. 1, ELI: <http://data.europa.eu/eli/reg/2017/825/oj>), which were not completed by 31 December 2020.

Besides the expenditure described in this chapter, this appropriation is also intended to cover technical and administrative assistance for the implementation of borrowing and debt management activities in capital markets undertaken by the European Union under Article 224 of Regulation (EU, Euratom) 2024/2509 ('Financial Regulation'). Such expenditure is mainly directed at supporting borrowing and debt management activities to implement the European Union Recovery Instrument. In addition, expenditure may be used for the purpose of supporting borrowing and debt management activities to implement other current and future programmes of financial assistance falling within Article 224 of the Financial Regulation. In accordance with Article 223(4), point (e) of the Financial Regulation, in the case of loan support, the relevant cost pre-financed by this Article is recovered from the relevant beneficiary starting from the year that follows the loan disbursement pursuant to Implementing Decision (EU, Euratom) 2024/1974. Costs recovered from loan beneficiaries are used for the purpose of future borrowing and debt management operations expenditure undertaken from this budget line.

Expenditure may include preparatory, monitoring, audit, staff and evaluation activities including corporate information technology systems, licenses, platforms and account management.

Remarks

Appropriations under this chapter are intended to cover expenditure relevant to Regulation (EU) 2021/240 establishing a Technical Support Instrument and Regulation (EU) 2021/241 establishing the Recovery and Resilience Facility.

The Recovery and Resilience Facility is intended to promote the Union's economic, social and territorial cohesion by improving the resilience, crisis preparedness, adjustment capacity and growth potential of the Member States, by mitigating the social and economic impact of the COVID-19 crisis, and supporting the green and digital transitions, thereby contributing to restoring the growth potential of the economies of the Union, fostering employment creation in the aftermath of the COVID-19 crisis, and promoting sustainable growth. It is to provide Member States with financial support with a view to achieving the milestones and targets of reforms and investments as set out in their recovery and resilience plans.

COMMISSION
TITLE 06 — RECOVERY AND RESILIENCE

CHAPTER 06 02 — RECOVERY AND RESILIENCE FACILITY AND TECHNICAL SUPPORT INSTRUMENT (*cont'd*)

In accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue gives rise to the provision of appropriations for this programme under this title for a total amount of EUR 337 969 000 000 in commitments. Moreover, a total amount of EUR 20 000 000 000 is made available under that Regulation as additional non-repayable financial support to finance key investments and reforms that will help increasing the resilience of the Union's energy system through a decrease of dependence on fossil fuels and diversification of energy supplies at Union level (REPowerEU). That amount also constitutes external assigned revenue in accordance with Article 21(5) of the Financial Regulation. Such amounts had to be legally committed before the end of 2023 with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

The Technical Support Instrument is intended to promote the Union's economic, social and territorial cohesion by supporting Member States' efforts to implement reforms. This is necessary to encourage investment, to increase competitiveness and to achieve sustainable economic and social convergence, resilience and recovery. The Technical Support Instrument's objective is to support Member States' efforts to design, develop and implement reforms and prepare, develop, amend and implement recovery and resilience plans pursuant to Regulation (EU) 2021/241. This includes strengthening their institutional and administrative capacity, in order to properly quantify costing, milestones and targets, including at regional and local levels, to facilitate socially inclusive, green and digital transitions, to effectively address the challenges identified in the country-specific recommendations and to implement Union law.

Remarks

This appropriation is intended to cover expenses for the implementation of the Recovery and Resilience Facility in order to provide Member States with financial support with a view to achieving the milestones and targets of reforms and investments set out in their recovery and resilience plans. That specific objective shall be pursued in close and transparent cooperation with the Member States concerned.

This support will aim, in particular, to provide financial contributions to structural reforms and investments aimed at addressing challenges identified in the context of the European Semester of economic policy coordination.

Remarks

Appropriations under this chapter are intended to cover expenditure to support the actions under the Union Civil Protection Mechanism.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue gives rise to the provision of appropriations for programmes financed under the Union Civil Protection Mechanism under Title 06 for a total amount of EUR 2 056 480 000 in commitments. Such amounts had to be legally committed before the end of 2023 with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Remarks

The Union Civil Protection Mechanism (UCPM) intervenes in all phases of the disaster management cycle: prevention, preparedness and response, and its geographical scope is both within and outside the Union.

As regards prevention, the mechanism aims in particular at fostering a shared culture of prevention with activities supporting and promoting Member States' risk assessment and risk reduction efforts, such as the sharing of good practice, the compilation and dissemination of information from Member States on risk management activities including through cross-border projects, peer reviews, and advisory missions. The mechanism also provides funding to scale-up Member States' and UCPM Participating States' disaster risk management strategies and to support the development of projects leveraging disaster risk management investments.

Preparedness efforts are supported, in particular, through the pooling of civil protection capacities in the form of the European Civil Protection Pool (ECPP), as well as the development of additional capacities at Union level to complement national efforts (the rescEU reserve and the rescEU transition phase). Preparedness is also improved through the development of Union-wide disaster resilience goals, training, exercises, the exchange of best practices and experts, all under the umbrella of the Union Civil Protection Knowledge Network. The mechanism also supports the study and development of disaster detection and early warning systems, and promotes scientific analysis and expert support.

Concerning the international dimension, the mechanism facilitates cooperation with the enlargement countries and countries under the European Neighbourhood Policy in the area of disaster management, through the funding of projects, training and policy dialogues.

In relation to response, the mechanism coordinates and finances or co-finances through the Emergency Response Coordination Centre (ERCC) the rapid and efficient deployment of national capacities, of ECPP modules and/or of rescEU, as well as of trained experts and Union civil protection teams for operations in Member States, UCPM Participating States, and in any third country. The mechanism support is financial, operational and facilitates coordination.

CHAPTER 06 06 — EU4HEALTH PROGRAMME (*cont'd*)**06 06 01** (*cont'd*)*Remarks*

This appropriation is intended to cover the operational expenditure under the EU4Health Programme. Its objective is to protect people in the Union from serious cross-border threats to health; to improve the availability, accessibility and affordability, in the Union, of medicines, medical devices and crisis-relevant products, and to support innovation regarding such products; to strengthen health systems and the healthcare workforce, including by digital transformation and by increased integrated and coordinated work among the Member States, sustained implementation of best practice and data sharing; and to increase the general level of public health.

The EU4Health Programme is to cater for a solid legal and financial framework for health crisis prevention, preparedness and response in the Union. This programme is to reinforce national and Union capacity for contingency planning and enable Member States to jointly cope with common health threats, in particular cross-border threats, where Union intervention can add tangible value. The programme complements health policies of the Member States and supports a 'One Health' approach, where applicable, in improving health outcomes through resilient, resource-efficient and inclusive health systems across the Member States, through better disease prevention and surveillance, health promotion, access, diagnosis and treatment, including the fight against cancer as well as cross-border collaboration in health. This programme is to also address non-communicable diseases, which have been shown to be a strong determinant of mortality from COVID-19.

Remarks

Appropriations under this chapter are intended to cover expenditure to support the actions under the emergency support within the Union. In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue, give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover the financing of emergency support operations to respond to the urgent and exceptional needs in Member States as a result of a natural or man-made disaster, in the event of activation by the Council under Regulation (EU) 2016/369.

COMMISSION
TITLE 06 — RECOVERY AND RESILIENCE

CHAPTER 06 07 — EMERGENCY SUPPORT WITHIN THE UNION *(cont'd)*

06 07 01 *(cont'd)*

Emergency support shall provide a needs-based emergency response, complementing the response of the affected Member States, aimed at preserving life, preventing and alleviating human suffering and maintaining human dignity. Emergency response may encompass assistance, relief and, where necessary, protection operations to save and preserve life in disasters or their immediate aftermath.

Following the activation through Regulation (EU) 2020/521 of the emergency support to tackle the COVID-19 outbreak in April 2020, this appropriation is intended to ensure a proper Union response in addressing the related health crisis.

The emergency support is intended to equip the Union with a broad toolbox commensurate with the large scale of the COVID-19 pandemic. The needs-based emergency support allows the Union to deploy targeted measures strategically, addressing the needs related to the COVID-19 crisis where the scale, speed or cross-border nature of the solutions needed are best addressed through coordinated Union intervention. Such emergency support complements Member States' efforts and assistance provided through other Union instruments.

Coordinated action at Union level enables the current crisis to be addressed through, inter alia:

- funding of Advance Purchase Agreements with COVID-19 vaccine developers/manufacturers,
- procurement and distribution to Member States of essential health-related products, including protective gear for hospital staff, testing supplies, therapeutics, diagnostics and training,
- transportation of essential medical cargo (including life-saving personal protective, testing and medical equipment, ventilators, masks, medicines, etc.),
- cross-border cooperation to alleviate the pressure on health systems in the most affected Union regions, including through the transportation of patients in need to cross-border hospitals which can offer free capacity, as well as providing support for the transport of medical teams and personnel including operating costs,
- funding clinical trials for generating clinical evidence to repurpose existing treatments to treat COVID-19 patients, as well the collection of COVID-19 convalescent plasma to increase its availability as a direct treatment for COVID-19 patients,
- increasing testing facilities and capacity in Member States and training additional staff to perform sampling and analysis,
- reinforcement of medical capacities and deployment of temporary healthcare facilities and temporary extension of existing healthcare facilities to relieve pressure on existing structures and increase overall healthcare capacity,
- procurement and donation of ultraviolet (UV) disinfecting robots to hospitals throughout the Union,
- contributing to strengthening cross-border contact tracing through an EU digital platform connecting national contact tracing and warning apps, as well as an EU exchange platform connecting national Passenger Locator Form systems,
- support issuing and verifying of interoperable certificates of vaccination, test results and recovery from COVID-19 to facilitate free movement,

CHAPTER 06 07 — EMERGENCY SUPPORT WITHIN THE UNION *(cont'd)***06 07 01** *(cont'd)*

- contributing to strengthening contact tracing through the establishment of an EU wastewater monitoring system.

This appropriation may cover any of the humanitarian aid actions eligible for Union financing, and may consequently encompass assistance, relief and, where necessary, protection operations to save and preserve life in disasters or in their immediate aftermath.

This appropriation may also be used to finance other expenditure directly related to the implementation of emergency support in accordance with Regulation (EU) 2020/521.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex 'Staff' to this section.

CHAPTER 06 10 — DECENTRALISED AGENCIES (cont'd)

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Article 3 of Regulation (EC) No 851/2004 provides that the mission of the European Centre for Disease Prevention and Control is the following:

- In order to enhance the capacity of the Union and the Member States to protect human health through the prevention and control of communicable diseases in humans and related special health issues, the mission of the Centre is to identify and assess current and emerging threats to human health from communicable diseases and related special health issues, to report thereon and, where appropriate, to ensure that information thereon is presented in an easily accessible way. The Centre acts in collaboration with competent bodies of the Member States or on its own initiative, through a dedicated network. The mission of the Centre is also to provide science-based recommendations and support in coordinating the response at Union and national levels, as well as at cross-border interregional and regional level, to such threats, where appropriate. In providing such recommendations, the Centre, where necessary, cooperates with Member States and takes into account existing national crisis management plans and the respective circumstances of each Member State.
- In the event of other outbreaks of diseases of unknown origin that may spread within or to the Union, the Centre acts on its own initiative until the source of the outbreak is known. In the case of an outbreak that is clearly not of a communicable disease, the Centre acts only in cooperation with the coordinating competent bodies and upon their request, and provides a risk assessment.

Remarks

European Food Safety Authority (EFSA) is the cornerstone of the Union system of risk assessment for food and feed safety. Its scientific advice on existing and emerging risks underpins the policies and decisions of risk managers in the Union institutions and Member States with the objective of protecting consumer health. The Authority's most critical commitment is to provide objective, transparent and independent advice and clear communication grounded in the most up-to-date scientific methodologies, information and data available. The Authority is committed to the core standards of scientific excellence, openness, transparency, independence and responsiveness.

The establishment plan of the Authority, as the outgoing Chair of the EU Agencies Network, includes one post to create a position for the Head of the Shared Support Office in Brussels. This is with the aim of promoting efficiency gains and synergies across agencies and with the institutions, so that individual agencies can focus their resources on core tasks. The financing of the post for the Head of the Shared Support Office will be shared between the agencies, which means that no additional funding for the Authority is required in this respect.

In order to promote the protection of human and animal health and of consumers of medicinal products throughout the Union, and in order to promote the completion of the internal market through the adoption of uniform regulatory decisions based on scientific criteria concerning the placing on the market and the use of medicinal products, the objective of the European Medicines Agency (EMA) is to provide the Member States and the institutions of the Union with the best possible scientific advice on any question relating to the evaluation of the quality, safety, and efficacy of medicinal products for human and veterinary use, in accordance with the provisions of the Union legislation relating to medicinal products.

Regulation (EU) 2022/123 strengthened the role of the EMA in crisis preparedness and the management of medicinal products and medical devices, allowing the EMA to closely monitor and mitigate shortages of medicines and facilitate the faster approval of medicines that could treat or prevent a disease causing a public health crisis. After an initial transition period, the EMA will also coordinate responses of the Member States on shortages of critical medical devices in the event of a crisis.

Remarks

Regulation (EC) No 141/2000 lays down a Union procedure for the designation of medicinal products as orphan medicinal products and provides incentives for the research, development and placing on the market of designated orphan medicinal products.

This appropriation is intended to cover the special contribution provided for in Article 7 of Regulation (EC) No 141/2000, as opposed to the one provided for in Article 67 of Regulation (EC) No 726/2004. It is used by the European Medicines Agency exclusively to compensate for the total or partial non-recovery of payments due for an orphan medicinal product.

Remarks

This appropriation is intended to cover the cost of carrying out the Joint Harmonised EU Programme of Business and Consumer Surveys in the Member States and candidate countries. The programme was initiated by a Commission Decision in November 1961 and was modified through subsequent Council and Commission decisions. It was last approved by Commission Decision C(97) 2241 of 15 July 1997 and last presented in the Commission Communication C(2016) 6634 of 20 October 2016.

This appropriation is also intended to cover the cost of studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases, software, equipment and the part-financing and support of measures relating to:

- fiscal policy surveillance including the monitoring of fiscal positions,
- the assessment of transposition and application by the Member States of the Union fiscal governance framework supporting the functioning of the economic and monetary union (EMU),
- economic monitoring and analysis of economic policies,
- the external aspects of the EMU,
- economic developments in the euro area,
- monitoring structural reforms and improving the operation of markets in the EMU and in the Union,

CHAPTER 06 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**06 20 04** (*cont'd*)06 20 04 01 (*cont'd*)

- coordination with financial institutions and analysis and development of financial markets, and borrowing and lending operations involving Member States,
- the facility providing financial assistance for Member States' balance of payments,
- cooperation with economic operators and decision-makers in the fields mentioned in the preceding indents,
- deepening and expanding the EMU,
- the purchase of equipment, software development, maintenance and related training for the protection of the euro against counterfeiting.

This appropriation is also intended to cover the funding of priority information measures on Union policies on all aspects of the rules and functioning of the EMU, as well as on the benefits of closer policy coordination and structural reforms, and to address information needs of key stakeholders and citizens, in relation to the EMU.

This measure is designed to be an effective channel of communication and dialogue between the citizens of the Union and the Union institutions, and to take account of specific national and regional characteristics, where appropriate in cooperation with the Member State authorities. Emphasis will also be placed on preparing citizens for the introduction of the euro in Member States planning for its introduction.

It includes:

- the development of communication activities at central level (brochures, leaflets, newsletters, website design, development and maintenance, social media, exhibitions, stands, conferences, seminars, audio-visual products, opinion polls, surveys, studies, promotional material, coin design competitions, twinning programmes, training etc.), and similar activities at national and regional levels implemented in cooperation with the Commission's Representations,
- partnership agreements with Member States that wish to provide information about the euro or the EMU,
- cooperation and networking with Member States in the appropriate forums,
- communication initiatives in third countries, in particular to point out the international role of the euro and the value of financial integration.

The implementation of the Commission's communication strategy takes place in close coordination with the Member States and the European Parliament.

The Commission adopts a strategy and an annual work plan drawing on the orientations set out in its Communication of 11 August 2004 (COM(2004) 552) and it reports regularly to the relevant committee of the European Parliament on the implementation of the strategy and on planning for the coming year.

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover expenditure to support Member States to achieve high employment levels, fair social protection and a skilled and resilient workforce ready for the future world of work, as well as expenditure to support, complement and add value to the policies of the Member States to ensure equal opportunities, access to the labour market, fair working conditions, social protection and inclusion.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the European Union Recovery Instrument entered in the statement of revenue gives rise to the provision of appropriations for programmes financed under REACT-EU under Titles 05 and 07 for a total amount of EUR 50 620 000 000 in commitments. Such amounts had to be legally committed before the end of 2023, with the exception of administrative expenditure, for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Remarks

This appropriation is intended to cover expenditure aiming to reduce the economic, social and territorial disparities, which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring, clean energy transition, digitalisation of the workplace, growing skills and labour shortages and the implications and impact of demographic change, including population ageing, in order to create a more social Europe. This is to be done in line with the principles of the European Pillar of Social Rights.

It will cover the following three categories of regions:

- less developed regions, with a GDP per capita less than 75 % of the average GDP of the Union,
- transition regions, with a GDP per capita between 75 % and 100 % of the average GDP of the Union,
- more developed regions, with a GDP per capita above 100 % of the average GDP of the Union.

Promotion of equality between women and men horizontally and through specific actions should be part of the support provided by the ESF+ in order to increase the participation of women in employment as well as conciliation between working and personal life and combat the feminisation of poverty and gender discrimination in the labour market and in education and training.

CHAPTER 07 02 — EUROPEAN SOCIAL FUND PLUS (ESF+) (cont'd)

07 02 04 (cont'd)

Remarks

This appropriation is intended to finance the implementation of the EaSI strand of the ESF+ programme. The general objective of the EaSI strand is to promote employment, equal access to the labour market, education and training, and social inclusion by providing financial support for the Union's objectives.

To achieve the general objectives of promoting a high level of employment, guaranteeing adequate social protection, combating social exclusion and poverty, improving working conditions and protecting workers' safety and health, the EaSI strand is in particular to:

- develop and disseminate high-quality comparative analytical knowledge in order to ensure that related policies are based on sound evidence and are relevant to needs, challenges and local conditions,
- facilitate effective and inclusive information sharing, mutual learning, peer reviews and dialogue on related policies at national, Union and international levels in order to assist the design of appropriate policy measures,
- support social experimentation in the related areas and build up the stakeholders' capacity at national and local levels to prepare, design and implement, transfer or upscale tested social policy innovations, in particular with regard to the scaling up of projects developed by local stakeholders in the field of the socio-economic integration of third-country nationals,
- facilitate the voluntary geographic mobility of workers and increase employment opportunities through developing and providing specific support services to employers and jobseekers with a view to the development of integrated European labour markets, ranging from pre-recruitment preparation to post-placement assistance in order to fill vacancies in certain sectors, professions, countries or border regions, or for particular groups, such as people in vulnerable situations,
- support the development of the market ecosystem around the provision of microfinance to microenterprises in start-up and development phases, in particular those that are created by or employ people in vulnerable situations,
- support networking at Union level and dialogue with and among relevant stakeholders in the related policy areas and contribute to build up the institutional capacity of involved stakeholders, including the public employment services, public social security and health insurance institutions, civil society, microfinance institutions and institutions providing finance to social enterprises and social economy,
- support the development of social enterprises and the emergence of a social investment market, facilitating public and private interactions and the participation of foundations and philanthropic actors in that market,
- provide guidance for the development of social infrastructure needed for the implementation of the European Pillar of Social Rights,
- support transnational cooperation in order to accelerate the transfer, and facilitate the scaling up, of innovative solutions, in particular for the related policy areas,
- support the implementation of relevant international social and labour standards in the context of harnessing globalisation and the external dimension of Union policies in the related policy areas.

Remarks

Appropriations under this chapter are intended to cover Erasmus+: the Union programme for education and training, youth and sport. Its objective is to support the educational, professional and personal development of people in the fields of education and training, youth and sport, in Europe and beyond, thereby contributing to sustainable growth, quality jobs and social cohesion and to strengthening European identity and active citizenship. As such, the Erasmus+ programme is to be a key instrument for building a European education area, supporting the implementation of the European strategic cooperation in the field of education and training, including its underlying sectoral agendas, advancing youth policy cooperation under the 2019-2027 Union Youth Strategy and developing the European dimension in sport. The Erasmus+ programme will build on the achievements and contribute to the long-lasting legacy of the 2022 European Year of Youth.

The Erasmus+ programme has the following specific objectives:

- to promote the learning mobility of individuals and groups, and cooperation, inclusion and equity, excellence, creativity and innovation at the level of organisations and policies in the field of education and training,
- to promote non-formal and informal learning mobility and active participation among young people, and cooperation, inclusion, creativity and innovation at the level of organisations and policies in the field of youth,
- to promote the learning mobility of sport staff, and cooperation, quality, inclusion, creativity and innovation at the level of sport organisations and sport policies.

The objectives of the Erasmus+ programme are to be pursued through the following three key actions:

- learning mobility (key action 1),
- cooperation among organisations and institutions (key action 2),
- support to policy development and cooperation (key action 3).

The objectives shall also be pursued through Jean Monnet actions.

CHAPTER 07 03 — ERASMUS+ (cont'd)

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover European Solidarity Corps activities.

The general objective of the European Solidarity Corps is to enhance the engagement of young people and organisations in accessible and high-quality solidarity activities, primarily volunteering, as a means of strengthening cohesion, solidarity, European identity and active citizenship in the Union and beyond, addressing societal and humanitarian challenges on the ground, with particular focus on the promotion of sustainable development, social inclusion and equal opportunities.

The specific objective of the European Solidarity Corps is to provide young people, including those with fewer opportunities, with easily accessible opportunities for engagement in solidarity activities that induce positive societal changes in the Union and beyond, while improving and properly validating their competences as well as facilitating their continuous engagement as active citizens. The European Solidarity Corps will build on the achievements and contribute to the long-lasting legacy of the 2022 European Year of Youth.

The objectives of the European Solidarity Corps are to be implemented under the following strands of actions: (a) participation of young people in solidarity activities addressing societal challenges; and (b) participation of young people in humanitarian aid-related solidarity activities (the European Voluntary Humanitarian Aid Corps).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this Chapter.

Remarks

This appropriation is intended to cover (1) the participation of young people in solidarity activities addressing societal challenges and (2) their participation in humanitarian aid-related solidarity activities. It shall support the following actions:

1. Solidarity activities addressing societal challenges.

Those actions are in particular to contribute to strengthening cohesion, solidarity, active citizenship and democracy within and outside the Union, while also responding to societal challenges with a particular focus on the promotion of social inclusion and equal opportunities. They take the form of (a) volunteering; (b) solidarity projects; (c) networking activities; and (d) quality and support measures.

2. Humanitarian aid-related solidarity activities.

Those actions are in particular to contribute to providing needs-based humanitarian aid aimed at preserving life, preventing and alleviating human suffering and maintaining human dignity and to strengthening the capacity and resilience of vulnerable or disaster-affected communities. They take the form of (a) volunteering; (b) networking activities; and (c) quality and support measures with particular focus on measures to ensure the safety and security of participants.

Remarks

Appropriations under this chapter are intended to cover the Creative Europe programme.

The Creative Europe programme aims to safeguard, develop and promote European cultural and linguistic diversity and heritage, and to increase the competitiveness and the economic potential of the cultural and creative sectors, in particular the audiovisual sector.

The Creative Europe programme has the following specific objectives:

- enhancing artistic and cultural cooperation at the European level in order to support the creation of European works and strengthen the economic, social and external dimension of and innovation and mobility in Europe's cultural and creative sectors,
- promoting competitiveness, scalability, operation, innovation and sustainability, including through mobility, in the European audiovisual industry,
- promoting policy cooperation and innovative actions supporting all strands of the Creative Europe programme and promoting a diverse, independent and pluralistic media environment, and media literacy, thereby fostering freedom of artistic expression, intercultural dialogue and social inclusion.

CHAPTER 07 05 — CREATIVE EUROPE (cont'd)

The Creative Europe programme is to cover the following strands:

- the Culture strand, which covers cultural and creative sectors with the exception of the audiovisual sector,
- the Media strand, which covers the audiovisual sector,
- the Cross-sectoral strand, which covers actions across all cultural and creative sectors.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

This appropriation is intended to cover the cultural and creative sectors with the exception of the audiovisual sector (the Culture strand) within the Creative Europe programme. In line with the objectives of the Creative Europe programme, the Culture strand is to have the following priorities: (a) to strengthen transnational cooperation and the cross-border dimension of the creation, circulation and visibility of European works and the mobility of operators in the cultural and creative sectors; (b) to increase access to and participation in culture and to increase audience engagement and improve audience development across Europe; (c) to promote societal resilience and to enhance social inclusion and intercultural dialogue through culture and cultural heritage; (d) to enhance the capacity of the European cultural and creative sectors, including the capacity of individuals working in those sectors, to nurture talent, to innovate, to prosper and to generate jobs and growth; (e) to strengthen European identity and values through cultural awareness, arts education and culture-based creativity in education; (f) to promote capacity building within the European cultural and creative sectors, including grassroots organisations and micro-organisations, so that they are able to be active at the international level; and (g) to contribute to the Union's global strategy for international relations through culture.

Remarks

This appropriation is intended to cover the audiovisual sector (the Media strand) within the Creative Europe programme. In line with the objectives of the Creative Europe programme, the Media strand is to have the following priorities: (a) to nurture talent, competence and skills and to stimulate cross-border cooperation, mobility, and innovation in the creation and production of European audiovisual works, thereby encouraging collaboration across Member States with different audiovisual capacities; (b) to enhance the circulation, promotion, online distribution and theatrical distribution of European audiovisual works within the Union and internationally in the new digital environment, including through innovative business models; and (c) to promote European audiovisual works, including heritage works, and to support the engagement and development of audiences of all ages, in particular young audiences, across Europe and beyond.

Those priorities are to be addressed through support for the development, production, promotion, dissemination and access to European works with the objective of reaching diverse audiences within Europe and beyond, thereby adapting to new market developments and accompanying the implementation of Directive 2010/13/EU of the European Parliament and of the Council of 10 March 2010 on the coordination of certain provisions laid down by law, regulation or administrative action in Member States concerning the provision of audiovisual media services (Audiovisual Media Services Directive) (OJ L 95, 15.4.2010, p. 1, ELI: <http://data.europa.eu/eli/dir/2010/13/oj>).

The priorities of the Media strand are to take into account the differences across countries regarding audiovisual content production, distribution and access as well as the size and specificities of the respective markets.

Remarks

Appropriations under this chapter are intended to contribute to protecting and promoting rights and values as enshrined in the Treaties, the Charter of Fundamental Rights of the European Union and the applicable international human rights conventions, in particular by supporting civil society organisations and other stakeholders active at local, regional, national and transnational level, and by encouraging civic and democratic participation, in order to sustain and further develop open, rights-based, democratic, equal and inclusive societies based on the rule of law.

Within the general objective, the Citizens, Equality, Rights and Values programme has the following specific objectives, which correspond to four strands: to protect and promote Union values (Union values strand); to promote rights, non-discrimination and equality, including gender equality, and to advance gender and non-discrimination mainstreaming (equality, rights and gender equality strand); to promote citizens' engagement and participation in the democratic life of the Union and exchanges between citizens of different Member States, and to raise awareness of their common European history (citizens' engagement and participation strand); and to fight violence, including gender-based violence (Daphne strand).

CHAPTER 07 06 — CITIZENS, EQUALITY, RIGHTS AND VALUES (cont'd)

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to focus on promoting equality and preventing and combating inequalities and discrimination based on sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation, and respecting the principle of non-discrimination on the grounds provided for in Article 21 of the Charter of Fundamental Rights of the European Union; supporting, advancing and implementing comprehensive policies relating to women's rights, gender equality, racism and all forms of intolerance, the rights of the child and the rights of persons with disabilities; protecting and promoting Union citizenship rights and the right to the protection of personal data.

Those objectives will be pursued in particular through support to the following activities: awareness raising, mutual learning, analytical and monitoring activities, training, and ICT tools development and maintenance.

This appropriation will also support the European Network of Equality Bodies (Equinet).

Remarks

This appropriation is intended to focus on:

- supporting projects aimed at remembering defining events in modern European history, such as the coming to power of authoritarian and totalitarian regimes, including the causes and consequences thereof, and projects aimed at raising awareness among European citizens of their common history, culture, cultural heritage and values, thereby enhancing their understanding of the Union, of its origins, purpose, diversity and achievements and of the importance of mutual understanding and tolerance,
- promoting citizens and representative associations' participation in and contribution to the democratic and civic life of the Union by making known and publicly exchanging their views in all areas of Union action,
- promoting exchanges between citizens of different countries, in particular through town twinning and networks of towns, so as to afford them practical experience of the richness and diversity of the common heritage of the Union and to make them aware that such richness and diversity constitute the foundation for a common future.

The above specific objectives will be pursued in particular through support to the following activities: town-twinning activities, network of towns and remembrance projects, awareness raising, mutual learning, analytical and monitoring activities, training, ICT tools development and maintenance, and support to civil society organisations.

This appropriation will also contribute to the technical and organisational support of European citizens' initiatives.

Remarks

This appropriation is intended to focus on:

- preventing and combating at all levels all forms of gender-based violence against women and girls and domestic violence, including by promoting the standards laid down in the Council of Europe Convention on preventing and combating violence against women and domestic violence (the Istanbul Convention),
- preventing and combating all forms of violence against children, young people and other groups at risk, such as LGBTIQ persons and persons with disabilities,
- supporting and protecting all direct and indirect victims of such forms of violence, such as the victims of domestic violence perpetrated within the family or violence in intimate relationships, including children orphaned as a result of domestic crimes, and supporting and ensuring the same level of protection throughout the Union for victims of gender-based violence.

Those specific objectives will be pursued in particular through support to the following activities: awareness raising, mutual learning, analytical and monitoring activities, training, and ICT tools development and maintenance.

Remarks

This appropriation is intended to focus on protecting, promoting and raising awareness on rights by providing financial support to civil society organisations which are active at local, regional, national and transnational level in promoting and cultivating those rights, thereby also strengthening the protection and promotion of Union values and the respect for the rule of law and contributing to the construction of a more democratic Union, democratic dialogue, transparency and good governance.

The above specific objective will be pursued in particular through supporting civil society organisations and non-profit stakeholders active in the areas of the Citizens, Equality, Rights and Values programme to increase their capacity to react, to carry out advocacy activities to promote rights and to ensure adequate access for all citizens to their services, counselling and support activities.

Remarks

Appropriations under this chapter are intended to cover the staff of the decentralised agencies and of the European Public Prosecutor's Office (EPPO) and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies and the EPPO are set out in Annex 'Staff' to this section.

The agencies and the EPPO must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

CHAPTER 07 10 — DECENTRALISED AGENCIES AND EUROPEAN PUBLIC PROSECUTOR'S OFFICE (*cont'd*)

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

The European Foundation for the improvement of living and working conditions (Eurofound) delivers and disseminates important knowledge on work-related and social matters to contribute to sound and evidence-based policies in those fields. Its core activity relates to research in the areas of employment, working conditions, industrial relations and quality of life. The activities of Eurofound contribute to the following priorities: increasing labour market participation and combating unemployment by creating jobs, improving labour market functioning and promoting integration and gender equality, improving working conditions and making work sustainable throughout the life course, developing industrial relations to ensure equitable and productive solutions in a changing policy context, and improving standards of living and promoting social cohesion in the face of economic disparities and social inequalities such as the gender employment gap and the gender pay gap.

Part of this appropriation is intended for studies on working conditions and industrial relations in support of policies ensuring more and better jobs, making work more sustainable and strengthening social dialogue in Europe.

Another part of this appropriation is intended for studies and forward-looking research on labour markets, specifically the monitoring and anticipation of structural change, its impact on employment and the management of the consequences.

This appropriation will also cover research and gathering of knowledge on living conditions and quality of life with a particular focus on social policies and the role of public services in improving quality of life. Research into reconciliation of professional and private life and precarious employment, including breaking down by gender, is also covered by this appropriation.

Remarks

The European Agency for Safety and Health at Work (EU-OSHA) is committed to making Europe a safer, healthier and more productive place to work. EU-OSHA identifies and assesses new and emerging risks at work, and mainstreams occupational safety and health into other policy areas, such as education, public health and research. EU-OSHA raises awareness and disseminates information on the importance of workers' health and safety to governments, employers' and employees' organisations, Union institutions, bodies and networks, and private companies.

EU-OSHA's objective is to provide the Union institutions and bodies, Member States and interested parties with technical, scientific and economic information and qualified expertise in the area of health and safety at work. Special attention will be paid to gender aspects in the area of health and safety at work.

This appropriation is intended to cover the measures necessary to accomplish EU-OSHA's tasks as defined in Regulation (EU) 2019/126, and in particular:

- awareness-building and risk anticipation measures, with special emphasis on small and medium-sized enterprises,

CHAPTER 07 10 — DECENTRALISED AGENCIES AND EUROPEAN PUBLIC PROSECUTOR’S OFFICE (cont’d)

07 10 02 (cont’d)

- operation of the European Risk Observatory based on examples of good practice collected from firms or specific branches of activity,
- preparation and provision of relevant tools for smaller enterprises to manage health and safety at work,
- operation of the network comprising the main component elements of the national information networks, including the national employers’ and employees’ organisations, in accordance with national law or practice, as well as the national focal points,
- organising exchanges of experience, information and good practices, including in collaboration with the International Labour Organization and other international organisations,
- integrating candidate countries into these information networks and devising working tools which are geared to their specific situation,
- organising and running the European Campaign on Healthy Workplaces as well as the European Week on Health and Safety, focusing on specific risks and needs of users and final beneficiaries.

Remarks

The European Public Prosecutor’s Office (EPPO) is responsible for investigating, prosecuting and bringing to judgment the perpetrators of, and accomplices to, criminal offences affecting the financial interests of the Union which are provided for in Directive (EU) 2017/1371 of the European Parliament and of the Council of 5 July 2017 on the fight against fraud to the Union’s financial interests by means of criminal law (OJ L 198, 28.7.2017, p. 29, ELI: <http://data.europa.eu/eli/dir/2017/1371/oj>) and determined by Regulation (EU) 2017/1939. In that respect, the EPPO undertakes investigations, carries out acts of prosecution and exercises the functions of prosecutor in the competent courts of the Member States, until the case has been finally disposed of.

This appropriation is intended to cover the EPPO’s recruitment and staff-related expenditure, buildings (including building security), infrastructure and administrative information technology-related expenditures (Titles 1 and 2). It includes operational expenditure related to the costs related to the EPPO’s investigations in accordance with Article 91(5) and (6) of Regulation (EU) 2017/1939, the EPPO case management system, the IT exchange platform between the EPPO Central Office, the European Delegated Prosecutors and other judicial and law enforcement authorities in the Member States, which is a key element for the good functioning of the EPPO, and provisions for close protection services for senior EPPO staff, payment of the European Delegated Prosecutors and substantial translation costs for the operational needs of the EPPO (Title 3).

Remarks

The objective of the European Labour Authority (ELA) is to contribute to ensuring fair labour mobility across the Union and assist Member States and the Commission in the coordination of social security systems within the Union. To this end, ELA is to facilitate access to information on rights and obligations regarding labour mobility across the Union as well as to relevant services; facilitate and enhance cooperation between Member States in the enforcement of relevant Union law across the Union, including facilitating concerted and joint inspections; mediate and facilitate a solution in cases of cross-border disputes between Member States; and support cooperation between Member States in tackling undeclared work.

This appropriation is intended to cover the measures necessary to accomplish ELA’s tasks, in particular:

- facilitate access to information and coordinate the European network of employment services (EURES),
- facilitate cooperation and the exchange of information between Member States with a view to the consistent, efficient and effective application and enforcement of relevant Union law,
- coordinate and support concerted and joint inspections,
- carry out analyses and risk assessments on issues of cross-border labour mobility,

Remarks

The objective of this activity is to promote fair geographic and professional mobility (including the coordination of social security schemes) of workers in Europe in order to overcome the obstacles to free movement of workers and to contribute to the establishment of a real labour market at European level.

This appropriation is intended to cover actions supporting the monitoring of Union law through financing of a network of experts on labour mobility, including free movement and posting of workers and social security, reporting regularly on the implementation of Union legal acts in the Member States and at Union level and analysing and evaluating the major trends in Member State legislation with regard to free movement of workers and coordination of social security systems. This appropriation is also intended to cover actions supporting governance of Union legal acts through meetings of committees, actions for awareness raising and implementation and other specific technical support, and the development of relevant digital tools, such as the Electronic Exchange of Social Security Information (EESSI) system or the European Social Security Pass (ESSPASS), and their implementation.

This appropriation is intended to cover in particular:

- studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance, including the production of statistical reports, not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- the analysis and evaluation of the major trends in Member State legislation with regard to free movement of workers and coordination of social security systems, as well as the financing of networks of experts in those fields,
- the analysis and research on new policy developments in the domain of free movement of workers linked, for example, to the end of transitional periods and modernisation of social security coordination provisions,

CHAPTER 07 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**07 20 03** (*cont'd*)07 20 03 01 (*cont'd*)

- support for the work of the Administrative Commission for the Coordination of Social Security Systems and its sub-groups and for the follow-up of the decisions taken, as well as support for the work of the Technical and Advisory Committees on free movement of workers,
- support for actions preparing for the application of the new regulations on social security, including transnational exchanges of experience and information and training initiatives developed at national level,
- actions aimed at providing better service and raising public awareness, including measures aimed at identifying migrant workers' social security and employment problems, and measures speeding up and simplifying administrative procedures, gender-sensitive analysis of the barriers to free movement of workers and lack of coordination of social security systems and their impact on people with disabilities, including adaptation of administrative procedures to new information-processing techniques, in order to improve the system for acquiring rights and the calculation and payment of benefits pursuant to Regulations (EEC) No 1408/71, (EEC) No 574/72, (EC) No 859/2003, (EC) No 883/2004, (EC) No 987/2009, and (EU) No 1231/2010 and their future revisions,
- the development of information and actions to make members of the public aware of their rights with respect to free movement of workers and the coordination of social security schemes, including support structures set up by social partners providing targeted assistance to mobile workers,
- the support to relevant digital tools, such as the electronic exchange of social security information among Member States, with a view to facilitating the implementation of Regulation (EC) No 883/2004 and its implementing Regulation (EC) No 987/2009, including the maintenance of the central node of the EESSI system, testing system components, helpdesk activities, support for further development of the system and training.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, shall be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2), points (b), (e) and (f), of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Remarks

This appropriation is intended to increase the availability of general information given to citizens on topics concerning Europe and the Union so as to allow citizens to make full use of their right to be informed about and involved in European policies and to increase the visibility of the work of the Union institutions, the decisions taken and the stages in the building of the Union. It concerns essentially the funding or co-funding of the production or dissemination of multimedia (radio, TV, internet, etc.) information products, including by pan-European media and networks made up of local and national media delivering news on European affairs, as well as the tools necessary to develop a policy in this respect.

This appropriation also covers support expenditure, such as on studies, meetings, *ex post* controls, expert technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, evaluation and audit of current or future activities, feasibility studies, publications, and the repayment of travel and related expenses of experts.

Where appropriate, the procurement and grant procedures may include the conclusion of framework partnerships with a view to promoting a stable financing framework for the pan-European media funded under this appropriation.

Remarks

The Commission's executive communication services are provided to the President and the College of Commissioners in support of the communication activities of the President, College, Spokesperson's Service and Commission senior management by ensuring political and economic intelligence and media advice, and by feeding high-quality country-specific information and analysis from a variety of sources into the Commission's decision-making process. This leads, ultimately, to better informed Union policy making for citizens.

Corporate communication products and services are provided to the external communication service of the Commission and reflect its domain leader role, ensuring coherence in the Commission's messaging by aligning all Commission communication services to contribute to coherent and effective corporate communication on the political priorities of the Commission. This leads, step by step, to the definition of clearer corporate messages and narratives, to distinctive visual branding and eventually brand recognition, and to economies of scale, thus contributing to achieving a better image for the Commission and the Union.

This appropriation is intended to cover expenditure on corporate communication actions, which includes costs for the production of content, provision of corporate technical services, dissemination of information through integrated communication actions, organisation of and participation in events, studies or evaluations, and professionalisation activities where relevant.

This appropriation is intended to cover expenditure incurred within the Union for online multimedia and written information and other communication tools concerning the Union, for the purpose of providing all citizens with general information on the work of the Union institutions, the decisions taken and the stages in the building of the Union. This is a public service task. Online and other communication tools make it possible to gather citizens' questions or reactions on European topics. Those tools are made accessible to people with disabilities, in accordance with Web Accessibility Initiative guidelines.

The main tools concerned are:

- the Europa website (which constitutes the main point of access putting at the disposal of citizens information they might need in their daily lives and which therefore must be clearly structured) made ever more user-friendly and optimised for mobile devices,
- online press releases, databases and other online communication information systems.

CHAPTER 07 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**07 20 04** (*cont'd*)07 20 04 02 (*cont'd*)

This appropriation is also intended to fund:

- the improvement of the Europa website to optimise it for mobile devices, to focus it on user needs and to professionalise the use of other online channels like social media, blogs and web 2.0, including all types of training, coaching and consultancy services for various groups of stakeholders,
- the expenditure relating to hosting and licence costs associated with the Europa website,
- the costs of operation and maintenance of the Commission's social media presence including technical assistance and the purchase of licences for the necessary equipment and material,
- the exchange of best practices, knowledge transfer and professionalisation by financing visits of digital and other communication experts and practitioners,
- IT expenditure for development and maintenance of relevant information and management systems,
- the cost of subscriptions and access to online information sources such as press agencies, online news, information providers and external databases,
- the training and support required for accessing that information,
- evaluation and professionalisation expenditure.

This appropriation is intended to cover Eurobarometer and data analytics. This includes, *inter alia*, the analysis of trends in public opinion, mainly by means of opinion polls (e.g. general-public 'Eurobarometer' surveys, and 'flash' surveys, by telephone, of specific populations on particular subjects, at regional, national or European level, or qualitative surveys), together with quality control of such surveys.

This appropriation also covers measures to improve the Commission's data analytics capacity, with a view to fighting against disinformation and against the spreading of fake news.

This appropriation is intended to cover the costs of operating the Commission's television and radio studios and other audiovisual and multimedia information and communication facilities in the Commission premises in all Member States: staff and the purchase, hire, maintenance and repair of the necessary equipment and material (news coverage, audio-visual production, audio-visual media library, virtual reality etc.).

This appropriation also covers satellite rental to provide information on the Union's activities to television channels. It is to be managed in compliance with the principles of interinstitutional cooperation in order to ensure the dissemination of all information concerning the Union.

This appropriation covers equally qualitative media monitoring and analysis (including monitoring or analysis of social media activities), including the related subscriptions and licences.

This appropriation is also intended to cover general information for citizens on Union activities to increase the visibility of the work of the Union institutions, the decisions taken and the stages in the building of the Union, focusing mainly on the media. The tools developed for better understanding and reporting of topical issues in particular related support to communication for the political priorities of the Commission cover mainly:

- multimedia (photo, video, etc.) information material for the media and other platforms, including their publication or broadcasting and central deposit for long-term preservation or dissemination,
- graphic design,
- IT expenditure for development and maintenance of relevant information and management systems,
- seminars and support for journalists.

This appropriation also covers horizontal expenditure on, *inter alia*, internal communication, studies, meetings, *ex post* controls, expert technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, evaluation on horizontal or cross-cutting activities and professionalisation activities, and the repayment of travel and related expenses for persons invited to follow the work of the Commission.

Remarks

The Commission’s communication products and services are directly addressed to citizens in all Member States, providing information for and engagement with citizens to ensure that communication services for citizens are made available through simple, clear and understandable messages tailored to their needs, either via a mix of channels and media (traditional and new) or by directly communicating with citizens and stimulating exchange and engagement face-to-face. Together, this helps citizens to access up-to-date and user-friendly information on Union policies and values. It contributes to citizens’ increased awareness and understanding of European affairs and, in turn, stimulates citizens’ interest in engaging directly with ‘the faces of the Commission’, be it locally, nationally or Europe-wide.

CHAPTER 07 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**07 20 04** (*cont'd*)07 20 04 03 (*cont'd*)

This appropriation is intended to cover expenditure on corporate communication actions, which includes costs for the production of content, provision of corporate technical services, dissemination of information through integrated communication actions, organisation of and participation in events, studies or evaluations, and professionalisation activities where relevant.

This appropriation is intended to fund general information and communication or engagement activities addressed at citizens and stakeholders in all Member States, mainly provided by the Commission Representations in the Member States, and covers:

- communication actions linked to specific annual or multiannual political priorities of the Commission, as formulated in the State of the Union Address of the Commission President, the Commission's Work Programme and the Joint Declaration (in the context of implementing the Interinstitutional Agreement of 13 April 2016 between the European Parliament, the Council of the European Union and the European Commission on Better Law-Making (OJ L 123, 12.5.2016, p. 1, ELI: http://data.europa.eu/eli/agree_interinstit/2016/512/oj)), and ad hoc communication actions on a regional, national or international scale that fit in with the political priorities; those communication actions can be organised in partnership with the European Parliament, the European Economic and Social Committee, the Committee of the Regions or the Member States (national, regional and local levels) in order to create synergies between the partners and to coordinate their information and communication activities on the Union,
- open door events for citizens,
- dialogues and panels with citizens in the Member States, including in virtual and hybrid formats, to promote a new generation of engagement with citizens, both as an exercise in participative democracy and as a way to improve policy making,
- seminars and conferences as well as workshops with more specific target groups, such as young people, applying participatory methods and using modern communication technologies,
- organisation of or participation in European events, exhibitions and public relations activities, organisation of individual visits, etc.,
- direct communication actions targeting the general public (e.g., citizens' advice services),
- communication activities to fight disinformation,
- direct communication measures targeting stakeholders and opinion multipliers, in particular stepped-up measures involving the regional and national media, which is a major information outlet for a large number of Union citizens,
- management and operation of information centres and multimedia spaces and installations for the general public,

- social media outreach in the Member States, including data analytics,
- local support activities for the Europe Direct and other networks supported by the Commission, such as training, coordination, assistance and promotion, which also includes production, storage and distribution of information material and communication products by those outlets as well as for them,
- expenditure on studies, logistical services, technical assistance, in particular for IT including web maintenance, meetings of experts and expert technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts as well as the repayment of travel and related expenses of persons invited to follow the work of the Commission,
- IT expenditure for development and maintenance of relevant information and management systems,
- the exchange of best practices, knowledge transfer and professionalisation by financing visits of digital communication experts and practitioners,
- information, seminars and support for journalists,
- evaluation and professionalisation expenditure.

Online tools make it possible not only to inform citizens but also to gather their questions or reactions on European issues and have become an important tool to engage with citizens. The information covers all of the Union's institutions. The tools are to be made accessible to people with disabilities, in accordance with Web Accessibility Initiative guidelines.

The main types of tools concerned are:

- the websites, multimedia and written products of the Commission Representations in the Member States,
- online press releases, databases and other online communication information systems,
- complementary online channels in Commission Representations, such as local social media, blogs and other web 2.0 technologies,
- related data analytics.

This appropriation also covers the expenditure relating to the production for various target groups of (paper or digital) publications concerning the Union's activities that are often distributed through a decentralised network, mainly:

- the publications of the Commission Representations,

Remarks

The Commission's products and services are directly addressed to citizens, providing information for and engagement with citizens, and ensure that communication services for citizens across the Union are made available through simple, clear and understandable messages, either via a mix of channels and media (traditional and new) or by directly communicating with citizens and stimulating exchange and engagement face-to-face. Together, this helps citizens to access up-to-date and user-friendly information on Union policies and values. It contributes to citizens' increased awareness and understanding of European affairs, and in turn, stimulates citizens' interest in engaging directly with 'the faces of the Commission', be it locally, nationally or Europe-wide.

This appropriation is intended to cover expenditure for corporate communication actions, which includes costs for the production of content, provision of corporate technical services, dissemination of information through integrated communication actions, organisation of and participation in events, studies or evaluations, and professionalisation activities where relevant.

This appropriation is intended to fund general information to citizens and covers:

- the financing of the Europe Direct network throughout the Union (Europe Direct centres, European documentation centres, Team Europe speakers); that network supplements the work of the Commission Representations and the European Parliament liaison offices in the Member States,

Remarks

This appropriation is intended to cover expenditure to promote European social dialogue in Member States and candidate countries, as well as the cost of preliminary consultation meetings with trade union representatives.

Regarding the promotion of European social dialogue, strong and representative social partners are needed in order to improve the process of enhancing the functioning of social dialogue and to enhance competitiveness, resilience and quality jobs in the social market economy. Measures should help employees' and employers' organisations to address the overarching challenges facing European employment and social policy, as laid down in the Political Guidelines 2024-2029, in particular in the Action Plan to implement the European Pillar of Social Rights, and to enhance social dialogue in line with Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 25 January 2023 entitled 'Strengthening social dialogue in the European Union: harnessing its full potential for managing fair transitions' (COM(2023) 40 final), Council Recommendation of 12 June 2023 on strengthening social dialogue in the European Union (OJ C, C/2023/1389, 6.12.2023, ELI: <http://data.europa.eu/eli/C/2023/1389/oj>), the Tripartite Declaration for a thriving European Social Dialogue, signed at the Val Duchesse Social Partners Summit on 31 January 2024, the Pact for European Social Dialogue, signed by the Commission and the European cross-industry social partners on 5 March 2025, and to support the digital and green transitions.

Regarding actions on preliminary consultation meetings between European trade union representatives, the appropriation is intended to cover costs with a view to helping European trade union representatives form their opinions and harmonise their positions regarding the development of Union policies. Costs are intended to cover in particular studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases and software and the part-financing and support of measures relating to economic monitoring, analysis of the combination of measures and coordination of economic policies.

This appropriation is intended to cover expenditure related to the promotion of European social dialogue and related measures, in the Member States and the candidate countries, in particular for the following activities:

- studies, consultations, meetings of European cross-industry and sectoral social dialogue committees, meetings of experts, negotiations, publications and other actions directly linked to the achievement of the objectives of the budget heading, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,

CHAPTER 07 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**07 20 04** (*cont'd*)07 20 04 06 (*cont'd*)

- actions undertaken by social partners to promote social dialogue (including capacity building of social partners in Member States and candidate countries) at cross-industry, sector and company levels, including actions undertaken to promote equal participation of women and men in the decision-making bodies of both trade unions and employers' organisations,
- actions to improve knowledge and expertise on industrial relations across the Union and to exchange and disseminate relevant information,
- actions to improve the degree and quality of involvement of employees' and employers' representatives in Union policy- and law-making,
- actions on preliminary consultation meetings between European trade union representatives, notably to cover costs with a view to help them form their opinions and harmonise their positions regarding the development of Union policies.

The appropriation is also intended to cover costs related to the promotion of information, consultation and participation of representatives of enterprises, in the Member States and the candidate countries, in particular for the following activities:

- measures aimed at developing employee involvement in enterprises, meaning any mechanism, including information, consultation and participation, through which employees' representatives may exercise an influence on decisions to be taken within the enterprise, in particular by raising awareness and contributing to the application of Union law and policies in this area and the take-up and development of European Works Councils,
- initiatives to strengthen transnational cooperation between employees' and employers' representatives in respect of information, consultation and participation of employees within enterprises operating in more than one Member State and short training actions for negotiators and representatives in transnational information, consultation and participation bodies which may also involve social partners from candidate countries,
- measures to enable social partners to exercise their rights and duties as regards employee involvement, especially within the framework of European Works Councils, to familiarise them with transnational enterprise agreements and strengthen their cooperation in respect of Union law on employee involvement,
- projects and innovative actions supporting employee involvement, with a view to identifying, anticipating and addressing challenges driven by industry transitions and their social and economic consequences or changes in the world of work, e.g., restructuring and redundancies, outsourcing and subcontracting, digitalisation, automation and artificial intelligence, and new forms of work, or the need for a shift towards an inclusive, sustainable and low-carbon economy.

CHAPTER 07 20 — PILOT PROJECTS, PREPARATORY ACTIONS, PREROGATIVES AND OTHER ACTIONS (*cont'd*)**07 20 04** (*cont'd*)07 20 04 08 (*cont'd*)

Actions on analyses of and studies on the social situation, demographic change, including demographic ageing and longevity, and family aim to promote better policy responses in the Union and the Member States to demographic, employment and social challenges, including to the challenges of the digital and green transitions increasing longevity and changing family structures and the need to ensure just transitions and promote inclusive growth. The appropriation is intended to cover costs for producing and disseminating high-quality analyses and comparative information in the context of the Commission's political guidelines and the Union's strategic objectives. This will support the identification of future priorities for employment and social policies, including gender-specific measures and the development of analytical, data and research capacities for assessing, evaluating and monitoring the socio-economic impacts of transitions to a digital, climate-neutral Europe and a longevity society, in particular through the following activities:

- actions promoting the development of comparative analysis and evidence base and the exchange of views and experience at all relevant levels (regional, national, Union and international) regarding the employment, social and demographic situation and the socio-economic trends in the Union, as well as the gender pay gap and discrimination against women in the workplace,
- actions promoting the forward-looking identification of evidence gaps and socio-economic research and innovation needs,
- actions supporting an observatory of the social situation, cooperation with regard to relevant activities by the Member States and international organisations, and the management of a technical support group for the European Alliance for Families,
- studies, meetings of experts, dissemination of knowledge, information and publications directly linked to the achievement of the objectives of the strategy or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation is intended to cover in particular expenditure on the reporting referred to in the TFEU, including annual Commission reports on employment and social developments in Europe, biennial reports on demographic change and its implications, (inputs to) reporting on socio-economic impacts of the transition to climate neutrality and to a digital Europe, and Commission reports on problems concerning the social situation.

This appropriation is also intended to cover expenditure on analysis for the reporting referred to in the TFEU, as well as for the dissemination of knowledge on major employment, social and demographic challenges, and in particular challenges of the digital and green transitions and demographic ageing, and the ways of tackling them.

Remarks

This appropriation is intended to cover expenditure on information and training measures for workers' organisations, including representatives of workers' organisations in the candidate countries, deriving from Union action in the framework of the implementation of the Union social dimension. Those measures should help workers' organisations to address the overarching challenges facing European employment and social policy as laid down in the Political Guidelines 2024-2029, in the Action Plan to implement the European Pillar of Social Rights, and to enhance social dialogue in line with the Communication from the Commission to the European Parliament, the Council, the European Economic and Social Committee and the Committee of the Regions of 25 January 2023 entitled 'Strengthening social dialogue in the European Union: harnessing its full potential for managing fair transitions' (COM(2023) 40 final), the Council Recommendation of 12 June 2023 on strengthening social dialogue in the European Union (OJ C, C/2023/1389, 6.12.2023, ELI: <http://data.europa.eu/eli/C/2023/1389/oj>), the Tripartite Declaration for a thriving European Social Dialogue, signed at the Val Duchesse Social Partners Summit on 31 January 2024, and the Pact for European Social Dialogue, signed by the Commission and the European cross-industry social partners on 5 March 2025, and to support the digital and green transitions.

This appropriation is intended to cover in particular the following activities:

- support for the work programmes of the two specific trade union institutes, the European Trade Union Institute and the European Centre for Workers' Questions, which have been established to facilitate capacity building of workers' organisations through training and research at European level, as well as to improve the degree of involvement of workers' representatives in European policy and lawmaking,
- information and training measures for workers' organisations, including representatives of workers' organisations in the candidate countries, deriving from the implementation of Union action in the framework of the implementation of the Union social dimension,
- measures involving representatives of the social partners in the candidate countries with the specific purpose of promoting social dialogue at Union level.

This appropriation is also intended to promote equal participation of women and men in the decision-making bodies of workers' organisations.

Strong and competent social partners are needed to improve the process of enhancing the functioning of social dialogue in order to enhance competitiveness and quality jobs in the social market economy.

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature (such as studies, meetings of experts, information and publications) directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

CHAPTER 08 01 — SUPPORT ADMINISTRATIVE EXPENDITURE OF THE ‘AGRICULTURE AND MARITIME POLICY’ CLUSTER (cont’d)

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover market-related expenditure, direct payments and certain actions under direct management by the Commission, all financed from the European Agricultural Guarantee Fund (EAGF).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover the financing of the CAP Strategic Plans interventions funded by the European Agricultural Fund for Rural Development (EAFRD) under the programming period 2023-2027, as well as 2014-2020 programmes in accordance with Regulation (EU) No 1305/2013 that are extended to 2021 and 2022 under transitional rules set out by Regulation (EU) 2020/2220. Those appropriations may also be used for covering any outstanding payments for EAFRD measures prior to 2014 and for financing technical assistance at the initiative of the Commission within the limit of 0,25 % of the EAFRD envelope.

The EAFRD delivers specific climate and environmental public goods, improves the competitiveness of the agriculture and forestry sectors, and promotes the diversification of economic activity and quality of life and work in rural areas including areas with specific constraints.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from proceeds of the NextGenerationEU / European Union Recovery Instrument entered in the statement of revenue gave rise to the provision of appropriations for this programme under this chapter for a total amount of EUR 8 070 486 840 in commitments in 2021 and 2022.

Remarks

Appropriations under this chapter are intended to cover expenditure related to the implementation of the common fisheries and maritime policy with a view to:

- fostering sustainable fisheries and the restoration and conservation of aquatic biological resources,
- fostering sustainable aquaculture activities, and processing and marketing of fisheries and aquaculture products, thus contributing to food security in the Union,
- enabling a sustainable blue economy in coastal, island and inland areas, and fostering the development of fishing and aquaculture communities,
- strengthening international ocean governance and enabling safe, secure, clean and sustainably managed seas and oceans.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover expenditure related to the implementation of the Sustainable Fisheries Partnership Agreements and Protocols thereto concluded between the Union and third countries as well as the membership of regional fisheries management organisations.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Appropriations under this chapter are intended to cover the expenditure on staff and administration of decentralised agencies (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex ‘Staff’ to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

CHAPTER 08 10 — DECENTRALISED AGENCIES (*cont'd*)

08 10 01 (*cont'd*)

Remarks

This appropriation is intended to cover the expenditure on staff, administration and operation of the European Fisheries Control Agency. The Agency's mission is to promote the highest common standards for control, inspection and surveillance under the Common Fisheries Policy (CFP). Its primary role is to organise coordination and cooperation between national control and inspection activities so that the rules of the CFP are respected and applied effectively. The Agency also plays a role in the European cooperation on coast guard functions.

CHAPTER 09 01 — SUPPORT ADMINISTRATIVE EXPENDITURE OF THE ‘ENVIRONMENT AND CLIMATE ACTION’ CLUSTER (cont’d)

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature (such as studies, meetings of experts and information and publications) directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on administrative technical assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover actions contributing to the shift towards a clean, circular, energy-efficient, low-carbon and climate-resilient economy, including through the transition to clean energy, to the protection and improvement of the quality of the environment and to halting and reversing biodiversity loss, thereby contributing to sustainable development.

The LIFE programme may provide funding in any of the forms laid down in the Financial Regulation, in particular grants, prizes and procurement. It may also provide financing in the form of financial instruments within blending operations, which shall be implemented in accordance with Regulation (EU) 2021/523.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

This appropriation is intended to cover the expenditure related to the implementation of the specific sub-programme for nature and biodiversity of the LIFE programme.

It will provide support for the implementation of the EU Biodiversity Strategy and of Directive 2009/147/EC of the European Parliament and of the Council of 30 November 2009 on the conservation of wild birds (OJ L 20, 26.1.2010, p. 7, ELI: <http://data.europa.eu/eli/dir/2009/147/oj>) and Council Directive 92/43/EEC of 21 May 1992 on the conservation of natural habitats and of wild fauna and flora (OJ L 206, 22.7.1992, p. 7, ELI: <http://data.europa.eu/eli/dir/1992/43/oj>). Actions will cover both the terrestrial and the marine environment.

CHAPTER 09 02 — PROGRAMME FOR THE ENVIRONMENT AND CLIMATE ACTION (LIFE) (cont'd)

09 02 01 (cont'd)

It includes:

- the financing of innovative techniques, methods and approaches for reaching the objectives of the Union legislation and policy on nature and biodiversity, and for contributing to the knowledge base and to the application of best practice, including through the support of the Natura 2000 network,
- the development, implementation, monitoring, reporting and enforcement of the relevant Union legislation and policy on nature and biodiversity objectives and tracking the Union's biodiversity-related expenditure, as well as related support. It also includes improving governance at all levels through enhancing capacities of public and private actors and the involvement of civil society in nature and biodiversity-related policy development,
- the support of actions intended to catalyse the large-scale deployment of successful solutions/approaches for implementing the relevant Union legislation and policy on nature and biodiversity, by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising investment and improving access to finance.

Costs of technical assistance for selecting, monitoring, evaluating and auditing projects and of support for communication, IT actions, organising workshops, conferences and meetings, as well as other governance activities (including support to non-governmental organisations via operating grants), may also be financed by this appropriation.

TITLE 09 — ENVIRONMENT AND CLIMATE ACTION

CHAPTER 09 02 — PROGRAMME FOR THE ENVIRONMENT AND CLIMATE ACTION (LIFE) (cont'd)

09 02 02 (cont'd)

This sub-programme aims to facilitate the transition towards a sustainable, circular, energy-efficient and climate-resilient economy and to protect, restore and improve the quality of the environment.

It supports projects focusing on delivering the European Green Deal. These will be actions related to the shift towards a resource-efficient economy, the management of natural resources, such as air, water and land, towards achieving the zero-pollution ambition, strengthening the implementation of environmental legislation, as well as the promotion of good environmental governance.

It includes:

- the financing of innovative techniques, methods and approaches for reaching the objectives of the Union legislation and policy on the environment and to contribute to the knowledge base and to the application of best practice,
- the development, implementation, monitoring and enforcement of the relevant Union legislation and policy on the environment, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society,
- the support of actions intended to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the relevant Union legislation and policy on the environment, by replicating results, integrating related environmental objectives into other policies and into public and private sector practices, mobilising sustainable investments, and improving access to finance.

Costs of technical assistance for selecting, monitoring, evaluating and auditing projects and of support for communication, IT actions, organising workshops, conferences and meetings, as well as other governance activities (including non-governmental organisations supported via operating grants) may also be financed by this appropriation.

CHAPTER 09 02 — PROGRAMME FOR THE ENVIRONMENT AND CLIMATE ACTION (LIFE) *(cont'd)*

09 02 03 *(cont'd)*

Remarks

This appropriation is intended to cover the specific sub-programme for climate change mitigation and adaptation of the LIFE programme.

It supports activities focusing on delivering the European Green Deal, especially in the fields of climate change mitigation (reducing greenhouse gas emissions), climate change adaptation (strengthening efforts on climate-proofing, resilience building, prevention and preparedness), as well as the promotion of good climate governance.

It includes:

- the development, implementation, monitoring and enforcement of the relevant Union legislation and policy on climate action, including by improving governance at all levels, in particular through enhancing capacities of public and private actors and the involvement of civil society,
- the financing of innovative techniques, methods and approaches for reaching the objectives of the Union legislation and policy on climate action, contributing to the knowledge base and to the application of best practices,
- the support of any actions intended to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the relevant Union legislation and policy on climate action, by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising sustainable investments, and improving access to finance.

Costs of technical assistance for selecting, monitoring, evaluating and auditing projects and of support for communication, IT actions, organising workshops, conferences and meetings and other governance activities (including non-governmental organisations supported via operating grants) may also be financed by this appropriation.

Remarks

This appropriation is intended to cover the specific sub-programme for clean energy transition of the LIFE programme.

It supports the financing of activities with the following specific objectives:

- to develop, demonstrate and promote innovative techniques and approaches for reaching the objectives of the Union legislation and policy on the clean, sustainable and just energy transition, upscaling renewable energy solutions and increasing energy efficiency, and to contribute to the knowledge base and to the application of best practice,
- to support the development, implementation, monitoring and enforcement of the relevant Union legislation and policy on the clean, sustainable and just energy transition, upscaling renewable energy solutions and increasing energy efficiency, including by improving governance through enhancing capacities of public and private actors and the involvement of civil society,
- to catalyse the large-scale deployment of successful technical and policy-related solutions for implementing the relevant Union legislation and policy on the clean, sustainable and just energy transition, upscaling renewable energy solutions and increasing energy efficiency by replicating results, integrating related objectives into other policies and into public and private sector practices, mobilising investment and improving access to finance.

Costs of technical assistance for selecting, monitoring, evaluating and auditing projects and of support for communication, IT actions, organising workshops, conferences and meetings and other governance activities (including non-governmental organisations supported via operating grants) may also be financed by this appropriation.

Remarks

Appropriations under this chapter are intended to cover support from the Just Transition Fund (JTF) to territories facing serious socio-economic challenges deriving from the transition process towards a climate-neutral economy of the Union by 2050.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2020/2094, external assigned revenue resulting from the proceeds of the European Union Recovery Instrument entered in the statement of revenue give rise to the provision of appropriations for programmes financed under the Just Transition Fund under Title 09 for a total amount of EUR 10 868 467 855 in commitments. Such amounts had to be legally committed before the end of 2023, with the exception of administrative expenditure for which the amounts are indicated in the budget remarks of the relevant budget lines under this title.

Remarks

Appropriations under this chapter are intended to cover support from the public sector loan facility, the third pillar of the Just Transition Mechanism (JTM). It will support public investments, through preferential lending conditions. These investments will benefit the territories most negatively affected by the climate transition as identified in the territorial just transition plans for the purposes of the Just Transition Fund (JTF).

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

In addition, and in accordance with Regulation (EU) 2021/1229, it is envisaged to finance the total amount of the grant component mainly with assigned revenue and partly with appropriations programmed under the Multiannual Financial Framework (MFF) 2021-2027. The assigned revenue envisaged would stem from the estimated surpluses of the provisioning of the European Fund for Strategic Investments (EFSI) after its constitution phase, ending in 2022. Lastly, the public sector loan facility will be financed by assigned revenue from the repayments from financial instruments established by the programmes indicated in Annex I to Regulation (EU) 2021/1229.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the agencies are set out in Annex 'Staff' to this section.

The agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and the Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council (OJ L 122, 10.5.2019, p. 1, ELI: http://data.europa.eu/eli/reg_del/2019/715/oj) and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

This appropriation is intended to cover the costs of the implementation of the carbon border adjustment mechanism ('CBAM').

The CBAM is intended to address greenhouse gas emissions embedded in the goods covered by Regulation (EU) 2023/956 of the European Parliament and of the Council, upon their importation into the customs territory of the Union, in order to prevent the risk of carbon leakage. The CBAM will complement the system established for greenhouse gas emission allowance trading within the Union by Directive 2003/87/EC by applying an equivalent set of rules to imports into the customs territory of the Union of goods covered by Regulation (EU) 2023/956.

Remarks

This appropriation is intended to cover actions contributing to the efficient management of migration flows in accordance with the relevant Union *acquis* and in compliance with the Union's commitments on fundamental rights.

In particular, the AMIF is intended to contribute to strengthening and developing all aspects of the Common European Asylum System, including its external dimension; to strengthening and developing legal migration to the Member States including to the integration of third-country nationals; and to countering irregular migration and ensuring effective, safe and dignified return to and readmission in third countries. In this context, this appropriation can cover mission expenditure for experts of the Commission participating in the monitoring of the asylum and reception systems of the Member States, in accordance with the Article 47(5) of Regulation (EU) 2021/2303.

The AMIF promotes common measures in the area of asylum, including Member States' efforts in receiving persons in need of international protection through resettlement and transfers between Member States of applicants for or beneficiaries of international protection, supports integration strategies, and develops and strengthens a more effective legal migration policy, so as to ensure the Union's long-term competitiveness and the future of its social model and reduce incentives for irregular migration through a sustainable return and readmission policy. The AMIF supports the strengthening of cooperation with third countries to reinforce the management of flows of persons applying for asylum or other forms of international protection and avenues of legal migration and to counter irregular migration and ensure sustainability of return to and effective readmission in third countries.

The European Union Agency for Asylum (EUAA), which replaced and succeeded the European Asylum Support Office (EASO) as of 19 January 2022, is a centre of expertise on asylum and contributes to the development of the Common European Asylum System by facilitating, coordinating and strengthening practical cooperation among Member States on many aspects of asylum. EUAA also helps Member States fulfil their European and international obligations to give protection to people in need, and it provides operational support to Member States with specific needs and to Member States whose asylum and reception systems are under particular pressure. Furthermore, EUAA provides evidence-based input to Union policymaking and legislation in all areas having a direct or indirect impact on asylum.

Remarks

This appropriation is intended to ensure strong and effective European integrated border management at the external borders while safeguarding the free movement of persons within them, in full compliance with the Union's commitments on fundamental rights, thereby contributing to guaranteeing a high level of security within the Union.

More specifically, the Instrument for Financial Support for Border Management and Visa Policy (BMVI) is to contribute to supporting effective European integrated border management at the external borders, implemented by the European Border and Coast Guard as a shared responsibility of the European Border and Coast Guard Agency and the national authorities responsible for border management, to facilitate legitimate border crossings, to prevent and detect illegal immigration and cross-border crime and to effectively manage migratory flows, as well as to supporting the common visa policy in order to facilitate legitimate travel and prevent migratory and security risks.

The BMVI promotes the implementation of European integrated border management defined by its components in accordance with Article 3 of Regulation (EU) 2019/1896: border control, search and rescue during border surveillance, risk analysis and cooperation between Member States (supported and coordinated by the European Border and Coast Guard Agency). The BMVI also promotes inter-agency cooperation, cooperation with third countries, technical and operational measures within the Schengen area related to border control and designed to address illegal immigration and to counter cross-border crime better, use of state-of-the-art technology, and quality control and solidarity mechanisms. Furthermore, the BMVI contributes to the improvement of the efficiency of visa processing in terms of detecting and assessing security and irregular migration risks as well as facilitating visa procedures for *bona fide* travellers. The BMVI supports digitalisation of visa processing with the objective of providing fast, secure and client-friendly visa procedures for the benefit of both visa applicants and consulates.

Remarks

Appropriations under this chapter are intended to cover the financial support for customs control equipment to support the customs union and customs authorities to protect the financial and economic interests of the Union and its Member States, to ensure security and safety within the Union and to protect the Union from unfair and illegal trade while facilitating legitimate business activity. The Instrument for financial support for customs control equipment contributes to adequate and equivalent customs controls through the purchase, maintenance and upgrade of relevant and reliable state-of-the-art customs control equipment.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover the decentralised agencies' staff and administrative expenditure (Titles 1 and 2) and, where applicable, operational expenditure relating to the work programme (Title 3).

The establishment plans of the decentralised agencies are set out in Annex 'Staff' to this section.

The decentralised agencies must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, amounts repaid in accordance with Article 17 of Commission Delegated Regulation (EU) 2019/715 and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

The European Border and Coast Guard Agency (Frontex) promotes, coordinates and develops European border management in respect of the Charter of Fundamental Rights of the European Union and in line with the concept of integrated border management. Frontex's main tasks are to coordinate cooperation between Member States in management of the external border, assist Member States in training of national border guards, carry out risk analyses and follow research relevant for the control and surveillance of external borders. Furthermore, Frontex helps Member States that require technical and operational assistance at external borders and provides Member States with the necessary support in organising joint return operations.

Remarks

This appropriation is intended to contribute to ensuring a high level of security in the Union, in particular by tackling terrorism and radicalisation, serious and organised crime and cybercrime and by assisting and protecting victims of crime.

In particular, the Internal Security Fund (ISF) aims to increase the exchange of information among and within the Union law enforcement and other competent authorities and other relevant Union bodies as well as with third countries and international organisations; to intensify cross-border joint operations among and within the Union law enforcement and other competent authorities in relation to serious and organised crime with a cross-border dimension; and to support effort to strengthen the capabilities in relation to combatting and preventing crime including terrorism, in particular through increased cooperation between public authorities, civil society and private partners across the Member States.

The ISF should in particular support police and judicial cooperation and prevention in the fields of serious and organised crime, illicit arms trafficking, corruption, money laundering, drug trafficking, environmental crime, exchange of and access to information, terrorism, trafficking in human beings, exploitation of illegal immigration, child sexual exploitation, distribution of child abuse images and child pornography, and cybercrime. The ISF should also support the protection of people, public spaces and critical infrastructure against security-related incidents and the effective management of security-related risks and crises, including through the development of common policies (strategies, policy cycles, programmes and action plans), legislation and practical cooperation.

Remarks

Appropriations under this chapter are intended to cover the provision of funding for assisting Lithuania with the decommissioning of the Ignalina nuclear power plant, with specific emphasis on managing the radiological safety challenges, whilst ensuring broad dissemination to all Member States of knowledge thereby generated on nuclear decommissioning.

The appropriations should in particular cover the dismantling and decontamination of the Ignalina equipment and reactor shafts in accordance with the decommissioning plan, while ensuring the safe management of the decommissioning and legacy waste and disseminating the generated knowledge among Union stakeholders.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Protocol No 4 to the 2003 Act of Accession.

CHAPTER 12 03 — NUCLEAR DECOMMISSIONING FOR LITHUANIA (*cont'd*)

Council Regulation (EU) 2021/101 of 25 January 2021 establishing the nuclear decommissioning assistance programme of the Ignalina nuclear power plant in Lithuania and repealing Regulation (EU) No 1369/2013 (OJ L 34, 1.2.2021, p. 18, ELI: <http://data.europa.eu/eli/reg/2021/101/oj>).

Remarks

This appropriation is intended to support the financing of the decommissioning of the Ignalina (Lithuania) nuclear power plant.

The financial allocation for the Ignalina programme may also cover expenses related to the technical and administrative assistance for the implementation of the programme, such as preparatory, monitoring, control, audit and evaluation activities including corporate information technology systems, studies, expert meetings, information and communication actions (including corporate communication of the political priorities of the Union as far as they are related to the general objectives of Regulation (EU) 2021/101).

The financial allocation for the Ignalina programme may also cover the expenses of technical and administrative assistance necessary to ensure the transition between that programme and the measures adopted under Council Regulation (EC) No 1990/2006 of 21 December 2006 on the implementation of Protocol No 4 on the Ignalina nuclear power plant in Lithuania to the Act of Accession of the Czech Republic, Estonia, Cyprus, Latvia, Lithuania, Hungary, Malta, Poland, Slovenia and Slovakia 'Ignalina Programme' (OJ L 411, 30.12.2006, p. 10, ELI: <http://data.europa.eu/eli/reg/2006/1990/oj>) and Council Regulation (EU) No 1369/2013 of 13 December 2013 on Union support for the nuclear decommissioning assistance programme in Lithuania, and repealing Regulation (EC) No 1990/2006 (OJ L 346, 20.12.2013, p. 7, ELI: <http://data.europa.eu/eli/reg/2013/1369/oj>).

At the end of each year, the Commission shall elaborate a progress report on the implementation of the work carried out in the previous years and present it to the European Parliament and to the Council.

12 03 99 Completion of previous programmes and activities*Remarks*

Appropriations under this article are intended to cover payments in respect of commitments remaining to be settled from previous years.

Remarks

Appropriations under this chapter are intended to cover the provision of funding for decommissioning of nuclear facilities and management of radioactive waste, in line with the identified needs. For the period of 2021-2027, the appropriations should in particular cover:

- the assistance to Bulgaria and Slovakia in implementing the Kozloduy programme and the Bohunice programme, including management and storage of radioactive waste in line with the identified needs of the respective decommissioning plan, with specific emphasis on managing the safety challenges thereof,

CHAPTER 12 04 — NUCLEAR SAFETY AND DECOMMISSIONING, INCLUDING FOR BULGARIA AND SLOVAKIA *(cont'd)*

- and the support to the decommissioning and radioactive waste management programme of the Joint Research Centre.

The programme established by Regulation (Euratom) 2021/100 will create knowledge in the nuclear decommissioning process and in the radioactive waste management resulting from the decommissioning activities.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Task resulting from specific powers directly conferred on the Commission by Article 203 of the Treaty establishing the European Atomic Energy Community.

Council Regulation (Euratom) 2021/100 of 25 January 2021 establishing a dedicated financial programme for the decommissioning of nuclear facilities and the management of radioactive waste, and repealing Regulation (Euratom) No 1368/2013 (OJ L 34, 1.2.2021, p 3, ELI: <http://data.europa.eu/eli/reg/2021/100/oj>).

Remarks

This appropriation is intended to cover the activities carried out by the Joint Research Centre (JRC) to implement its Decommissioning and Waste Management Programme (2021-2027). Actions under this programme shall have the following specific objectives:

- to support the decommissioning plan and to carry out the activities in accordance with the national law of the host Member State for the dismantling and decontamination of the Commission's own nuclear installations at the JRC sites,
- safe management of associated radioactive waste,
- when appropriate, to prepare the optional transfer of the related nuclear liabilities from the JRC to the host Member States; such transfer shall not be imposed to any host Member State and shall be subject to mutual bilateral agreement between the Commission and the host Member States; this mutual bilateral agreement shall provide that all costs of the decommissioning of the Commission's own nuclear installations at the JRC sites and storage of the associated radioactive waste are paid by the Union and shall fully comply with Council Directive 2011/70/Euratom of 19 July 2011 establishing a Community framework for the responsible and safe management of spent fuel and radioactive waste (OJ L 199, 2.8.2011, p. 48, ELI: <http://data.europa.eu/eli/dir/2011/70/oj>),
- to develop ties and exchanges among Union stakeholders on nuclear decommissioning, with a view to ensure dissemination of knowledge and return of experience in all relevant areas such as research and innovation, regulation, training and to develop potential Union synergies.

It covers specific expenditure related to the activities of the JRC Decommissioning and Waste Management Programme, including the purchase of technical equipment, subcontracting of scientific and technical services, access to information and acquisition of consumables. This includes expenditure on technical infrastructure directly incurred for the activities concerned, as well as expenses for workshops and meetings in order to gather and disseminate knowledge and experience.

Remarks

The European Union Agency for Law Enforcement Training (CEPOL) is an agency of the Union dedicated to develop, implement and coordinate training for law enforcement officials. CEPOL contributes to a safer Europe by facilitating cooperation and knowledge sharing among law enforcement officials of the Member States, and to some extent from third countries, on issues stemming from Union priorities in the field of security; in particular, from the EU Policy Cycle on serious and organised crime. CEPOL brings together a network of training institutes for law enforcement officials in Member States and supports them in providing frontline training on security priorities, law enforcement cooperation and information exchange. CEPOL also works with Union bodies, international organisations and third countries to ensure that the most serious security threats are tackled with a collective response.

Remarks

European Union Drugs Agency (EUDA) provides the Union and Member States with a factual overview of European drug problems and a solid evidence base to support the drugs debate. It offers policymakers the data they need for drawing up informed drug laws and strategies. It also helps professionals and practitioners working in the field pinpoint best practice and new areas of research. While the EUDA is primarily European in focus, it also works with partners in other world regions, exchanging information and expertise. Collaboration with European and international organisations in the drugs field is also central to its work as a means of enhancing understanding of the global drugs phenomenon.

Remarks

This appropriation is intended to cover:

- expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of Euratom policy and legislation on nuclear safety and radiation protection,
- expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of ionising radiation; these actions relate to specific tasks provided for under the Euratom Treaty,
- expenditure related to verifying the operation and efficiency of systems to monitor the level of radioactivity in the air, water and soil and to ensure compliance with the basic standards in the Member States (Article 35 of the Euratom Treaty); this expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections, including the expenses linked to the specific medical control of the inspectors,
- expenditure linked to the implementation of the Commission's tasks referred to in the European peer-reviews on nuclear safety issues, e.g. Topical Peer Reviews and EU Stress Tests follow-up,
- expenditure including grants to nuclear safety regulators or their designated technical support organisations, related to the implementation of nuclear safety requirements (stemming from the provisions of Chapter 3 of Title II of the Euratom Treaty and derived secondary legislation) in nuclear installations facing new technical or geopolitical circumstances.

This appropriation may also cover expenditure on information and publications directly linked to the achievement of the objectives coming under this item.

Remarks

Appropriations under this chapter are intended to cover expenditure of an administrative nature (such as studies, meetings of experts, development and maintenance of IT systems and purchase of IT equipment and communication activities and publications) directly linked to the achievement of the objectives of the programmes or measures coming under this cluster, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover expenditure of an operational nature, such as cooperative projects, directly linked to the achievement of the objectives of the European Defence Fund (EDF) and its predecessor, the European Defence Industrial Development Programme (EDIDP).

In particular, appropriations under this chapter will support the development of actions – understood as the development phase of new products and technologies or the upgrading of existing ones – in the field of defence. The goal of both the EDF and EDIDP is to foster the competitiveness and innovativeness of the European defence technological and industrial base and reach a greater interoperability between Member States' capabilities, thereby contributing to the Union's strategic autonomy.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover the funding envisaged under the EDF for collaborative development projects of defence products and technologies consistent with defence capability priorities commonly agreed by Member States within the framework of the Common Foreign and Security Policy, thus contributing to greater efficiency of defence spending within the Union, achieving greater economies of scale, reducing the risk of unnecessary duplication and thereby reducing the fragmentation of defence products and technologies throughout the Union.

The EDF provides support for actions covering both new and upgrades of existing products and technologies where the use of pre-existing information needed to perform the upgrade is not subject, directly or indirectly to a restriction by non-associated third countries or non-associated third-country entities. Eligible actions shall relate to one or more of the following activities:

- activities aiming to create, underpin and improve knowledge, products and technologies, including disruptive technologies, which can achieve significant effects in the area of defence,
- activities aiming to increase interoperability and resilience, including secured production and exchange of data, to master critical defence technologies, to strengthen the security of supply or to enable the effective exploitation of results for defence products and technologies,
- studies, such as feasibility studies to explore the feasibility of new or improved technologies, products, processes, services and solutions,
- the design of a defence product, tangible or intangible component or technology as well as the definition of the technical specifications based on which such design has been developed which may include partial tests for risk reduction in an industrial or representative environment,
- the development of a model of a defence product, tangible or intangible component or technology, which can demonstrate the element's performance in an operational environment (system prototype),
- the testing of a defence product, tangible or intangible component or technology,

CHAPTER 13 02 — EUROPEAN DEFENCE FUND (EDF) — NON-RESEARCH (*cont'd*)

13 02 01 (*cont'd*)

- the qualification of a defence product, tangible or intangible component or technology,
- the certification of a defence product, tangible or intangible component or technology,
- the development of technologies or assets increasing efficiency across the life cycle of defence products and technologies.

This appropriation may also cover the expenditure linked to the work of independent experts appointed by the Commission to assist in the evaluation of proposals and to advise on or assist with the monitoring of the implementation of actions carried out. Furthermore, this appropriation may be used to fund the organisation of dissemination activities, matchmaking events and awareness-raising activities, in particular with a view to opening up supply chains to foster the cross-border participation of SMEs.

Remarks

Appropriations under this chapter are intended to cover expenditure of an operational nature, such as collaborative research projects, research activities in disruptive defence technologies and support actions in the defence research sector.

The objective of the European Defence Fund (EDF) for the research window is to support collaborative research that could significantly boost the performance of future defence capabilities throughout the Union, aiming at maximising innovation and introducing new defence products and technologies, including disruptive ones, and the most efficient use of defence research spending in Europe.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

CHAPTER 13 04 — MILITARY MOBILITY (*cont'd*)**13 04 01** (*cont'd*)*Remarks*

This appropriation is intended to cover actions to contribute to improving the transport infrastructure for the military mobility across the Union by taking advantage of the opportunity to increase synergies between civilian and defence needs and the TEN-T core and comprehensive networks as defined by Regulation (EU) No 1315/2013.

This objective will be mainly implemented through calls for proposals under multiannual work programmes, constituting financing decisions within the meaning of Article 110 of the Financial Regulation. Funding will be made available for sections or nodes identified by Member States in the Annexes to the 'Military Requirements for Military Mobility within and beyond the EU' as adopted by the Council on 15 July 2019 or any subsequent document adopted thereafter in so far as those sections or nodes are also part of the core and comprehensive TEN-T, and to any further indicative list of priority projects that may be identified by Member States.

Remarks

The instrument for the reinforcement of European defence industry through common procurement (EDIRPA) has the following objectives:

- to foster the competitiveness and efficiency of the European Defence Technological and Industrial Base (EDTIB), including SMEs and mid-caps, for a more resilient and secure Union, in particular by speeding up, in a collaborative manner, the adjustment of industry to structural changes, including the creation and ramp-up of its manufacturing capacities, and the opening of the supply chains for cross-border cooperation throughout the Union, thereby allowing the EDTIB to provide the defence products needed by Member States,
- to foster cooperation in the defence procurement processes between participating Member States in order to contribute to solidarity, prevent crowding-out effects, increase the effectiveness of public spending and reduce excessive fragmentation, ultimately leading to an increase in the standardisation of defence systems and greater interoperability between Member States' capabilities, while preserving the competitiveness and diversity of products available to Member States and in the supply chain.

The objectives shall be pursued with an emphasis on strengthening and developing the EDTIB throughout the Union to allow it to address, in particular, the most urgent and critical defence product needs, especially those revealed or exacerbated by the response to the Russian war of aggression against Ukraine, such as the shipment of defence products to Ukraine, taking into account the objectives of the Strategic Compass for Security and Defence and considering the work of the Defence Joint Procurement Task Force.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

This appropriation is intended to cover actions of an operational nature directly linked to the achievement of the objectives of the instrument for the reinforcement of European defence industry through common procurement (EDIRPA).

In particular, the Union financial support and actions brought through EDIRPA stimulate common procurement (defined as procurement jointly conducted by at least three Member States) by Member States and associated third countries and benefit the EDTIB, while ensuring the ability of Member States' armed forces to act, security of supply and increased interoperability.

Remarks

The instrument financially supporting industrial reinforcement for the production of relevant defence products in the Union, including through the supply of their components, established by Regulation (EU) 2023/1525, aims at urgently strengthening the responsiveness and ability of the European Defence Technological and Industrial Base (EDTIB) to ensure the timely availability and supply of ground-to-ground and artillery ammunition as well as missiles ('relevant defence products') in the Union. Its main objective is to support the industrial reinforcement, the competitiveness and resilience of EDTIB notably through investments in manufacturing capacities for relevant defence products, cross-border industrial partnerships and collaboration of relevant companies in a joint industry effort.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, in case of agreement on their participation, contributions received from EFTA States for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Regulation (EU) 2023/1525 of the European Parliament and of the Council of 20 July 2023 on supporting ammunition production (ASAP) (OJ L 185, 24.7.2023, p. 7, ELI: <http://data.europa.eu/eli/reg/2023/1525/oj>).

13 07 01 (*cont'd*)

Remarks

This appropriation is intended to cover actions of an operational nature, more specifically, directly linked to the achievement of the objectives of the instrument established by Regulation (EU) 2023/1525.

In particular, the Union financial support and actions brought through this instrument will ramp-up the production capacities of the European Defence Technological and Industrial Base (EDTIB) and facilitate investment throughout the supply chain. It will contribute to reducing lead time for the production of the relevant defence products while facilitating investment to allow EDTIB to produce more and faster. It will also encourage the EDTIB's resilience through cross-border industrial partnerships and collaboration of relevant companies in a joint industry effort.

Remarks

The Regulation establishing the European Defence Industry Programme and a framework of measures to ensure the timely availability and supply of defence products ('EDIP Regulation') provides for the establishment of the European Defence Industrial Programme that aims at supporting defence industry readiness of the Union and its Member States through the strengthening of the competitiveness, responsiveness and ability of the European Defence Technological and Industrial Base to ensure the timely availability and supply of defence products as set out in the European Defence Industrial Strategy.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, in case of agreement on their participation, contributions received from EFTA States for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

Remarks

This appropriation is intended to cover actions of an operational nature, more specifically, directly linked to the achievement of the objectives of the European Defence Industry Programme. In particular, the programme aims at increasing the defence industrial readiness of the European Defence Technological and Industrial Base in particular through:

- (a) initiating and speeding up the adjustment of industry to structural changes, including through the creation and ramp-up of its manufacturing capacities and the opening of the supply chains for cross-border cooperation and effective availability and supply throughout the Union, involving in particular, to a significant extent, SMEs, small mid-caps and other mid-caps;
- (b) incentivising cooperation in defence procurement in order to contribute to solidarity, prevent crowding-out effects, increase the effectiveness of public spending and reduce excessive fragmentation, ultimately leading to an increase in the standardisation of defence systems and greater interoperability.

14 01 01 *Support expenditure for the Neighbourhood, Development and International Cooperation Instrument — Global Europe (NDICI — Global Europe)*

Remarks

Besides the expenditure described in this chapter, this appropriation is also and more specifically intended to cover support expenditure for the implementation of the Instrument and for the achievement of its objectives, including administrative support associated with the preparation, follow-up, monitoring, control, audit and evaluation activities necessary for such implementation, as well as expenditure at headquarters and Union delegations for the administrative and coordination support needed for the programme, and to manage operations financed under this Regulation, including information and communication actions, and corporate information technology systems.

When support expenditure is not included in the NDICI — Global Europe action plans or measures, where applicable, support measures may cover:

- studies, meetings, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, publication activities and any other administrative or technical assistance expenditure necessary for the programming and management of actions, including remunerated external experts,
- research and innovation activities and studies on relevant issues and the dissemination thereof,
- expenditure related to the provision of information and communication actions, including the development of communication strategies.

Remarks

Appropriations under this chapter are intended to cover operational expenditure related to actions carried out under a Regulation of the European Parliament and of the Council establishing the Neighbourhood, Development and International Cooperation Instrument – Global Europe (NDICI — Global Europe) whose general objective is to uphold and promote the Union's values and interests worldwide in order to pursue the objectives and principles of the Union's external action, as laid down in Article 3(5) and Articles 8 and 21 TEU.

In accordance with that general objective, the specific objectives of the NDICI — Global Europe are the following:

(a) to support and foster dialogue and cooperation with third countries and regions in the Neighbourhood, in Sub-Saharan Africa, in Asia and the Pacific, and in the Americas and the Caribbean;

(b) at global level, to protect, promote and advance democracy, rule of law and human rights, including gender equality, support civil society organisations, further stability and peace and address other global challenges including migration and mobility;

CHAPTER 14 02 — NEIGHBOURHOOD, DEVELOPMENT AND INTERNATIONAL COOPERATION INSTRUMENT — GLOBAL EUROPE (NDICI — GLOBAL EUROPE) (cont'd)

(c) to respond rapidly to situations of crisis, instability and conflict; resilience challenges and linking of humanitarian aid and development action; and foreign policy needs and priorities.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Legal basis

Regulation (EU) 2021/947 of the European Parliament and of the Council of 9 June 2021 establishing the Neighbourhood, Development and International Cooperation Instrument – Global Europe, amending and repealing Decision No 466/2014/EU of the European Parliament and of the Council and repealing Regulation (EU) 2017/1601 of the European Parliament and of the Council and Council Regulation (EC, Euratom) No 480/2009 (OJ L 209, 14.6.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/947/oj>).

14 02 01 *Geographic programmes**Remarks*

Geographic programmes may cover all third countries, except for candidates and potential candidates as defined in Regulation (EU) 2021/1529 of the European Parliament and of the Council of 15 September 2021 establishing the Instrument for Pre-accession Assistance (IPA III) (OJ L 330, 20.9.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/1529/oj>) and overseas countries and territories as defined in Council Decision (EU) 2021/1764 of 5 October 2021 on the association of the Overseas Countries and Territories with the European Union including relations between the European Union on the one hand, and Greenland and the Kingdom of Denmark on the other (OJ L 355, 7.10.2021, p. 6, ELI: <http://data.europa.eu/eli/dec/2021/1764/oj>). Geographic programmes in the Neighbourhood area may cover any country specified in Annex II to Regulation (EU) 2021/947 of the European Parliament and of the Council of 9 June 2021 establishing the Neighbourhood, Development and International Cooperation Instrument — Global Europe, amending and repealing Decision No 466/2014/EU of the European Parliament and of the Council and repealing Regulation (EU) 2017/1601 of the European Parliament and of the Council and Council Regulation (EC, Euratom) No 480/2009 (OJ L 209, 14.6.2021, p. 1, ELI: <http://data.europa.eu/eli/reg/2021/947/oj>). In order to achieve the objectives laid down in that Regulation, geographic programmes shall be implemented through country, multi-country, regional, continental and trans-regional projects, based on the following areas of cooperation:

- good governance, democracy, rule of law and human rights, including gender equality,
- eradicating poverty, fighting against inequalities and discrimination, and promoting human development,
- migration, forced displacement and mobility,
- environment and climate change,

Remarks

This appropriation is intended to provide support to the Southern Neighbourhood partner countries (Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, occupied Palestinian territories, Syria, Tunisia) and covers actions implemented in the areas of cooperation specified in the NDICI — Global Europe, including through multi-country, regional, and trans-regional programmes. Priority areas for Union financing are selected mainly from those included in the association, partnership and cooperation agreements, jointly agreed partnership priorities or other relevant, existing and future, jointly agreed documents between the Union and the partner countries in bilateral and multilateral formats.

In addition, this appropriation contributes to the specific objectives of Union support for the Neighbourhood, which are:

- to promote enhanced political cooperation and strengthen and consolidate deep and sustainable democracy, stability, good governance, the rule of law and the respect for human rights;
- to support the implementation of association agreements or other existing and future agreements, and jointly agreed association agendas and partnership priorities or equivalent documents, including through institutional cooperation and capacity building;
- to promote a strengthened partnership with societies between the Union and the partner countries, and among the partner countries, including through people-to-people contacts and a wide range of activities with a specific focus on youth;
- to enhance regional and cross-border cooperation, in particular in the framework of the Union for the Mediterranean, European Neighbourhood-wide collaboration, including in the areas of energy and security;

Remarks

Appropriations under this chapter are intended to cover operational expenditure concerning humanitarian aid, disaster prevention, disaster risk reduction, and preparedness in third countries.

The aid is granted to victims without discrimination or adverse distinction on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation. That aid is provided in accordance with international humanitarian law and should not be subject to restrictions imposed by other partner donors, as long as it is necessary to meet the humanitarian needs to which such situations give rise.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

CHAPTER 14 03 — HUMANITARIAN AID (cont'd)

14 03 01 (cont'd)

Remarks

This appropriation is intended to cover the financing of humanitarian and food assistance operations of a humanitarian nature to help people in third countries who are the victims of conflicts or disasters, both natural and human-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations, such as technical assistance within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency.

Remarks

This appropriation is intended to cover the financing of operations at country, regional and global levels to prepare the response for and mitigate the impact of disasters caused by rapid and slow onset natural hazards (such as floods, cyclones, earthquakes, drought, sea level rise) or comparable emergencies caused by other threats (such as violence, conflict, industrial hazards, health related hazards, including epidemics). This appropriation is meant to ensure the development of relevant preparedness measures, such as early warning systems, purchase and transport of equipment (if required), contingency plans, and capacity building of national and local stakeholders.

CHAPTER 14 03 — HUMANITARIAN AID (*cont'd*)**14 03 02** (*cont'd*)

This appropriation may also cover any other costs directly linked to the implementation of preparedness operations, such as:

- the financing of scientific studies generating data and knowledge supporting better preparedness,
- the constitution of emergency stocks of goods and equipment for use in connection with humanitarian aid operations,
- the technical assistance necessary for the preparation and implementation of disaster preparedness projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of the Directorate-General for Humanitarian Aid and Civil Protection units deployed throughout the world.

This appropriation is also intended to provide funds for comprehensive Union actions to limit and manage impacts of climate change on vulnerable populations in developing countries, including displaced persons in the context of disasters and climate change.

Remarks

This appropriation is intended to cover the financing of any unforeseen measures under Article 14 04 01, decided on in the course of the financial year, which have to be implemented urgently.

This item is also intended as an element of flexibility in the CFSP budget, as described in the Interinstitutional Agreement of 16 December 2020 between the European Parliament, the Council of the European Union and the European Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management, as well as on new own resources, including a roadmap towards the introduction of new own resources (OJ L 433 I, 22.12.2020, p. 28, ELI: http://data.europa.eu/eli/agree_interinstit/2020/1222/oj).

Remarks

In accordance with Article 58(2), point (c), of the Financial Regulation, this appropriation is intended to finance expenditure related to preparatory measures in the field of Title V TEU to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for EUSRs, in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission / EUSR team.

Remarks

This appropriation is intended to cover all the expenditure connected with the appointment of European Union Special Representatives (EUSRs) in accordance with Article 33 TEU.

EUSRs should be appointed with due regard for gender equality and gender mainstreaming policies, and the appointment of women EUSRs should therefore be promoted.

This appropriation covers expenditure on the salaries of EUSRs and on setting up their teams and/or support structures, including travel costs and staff costs other than those relating to staff seconded by Member States or Union institutions. It also covers the costs of any projects implemented under the direct responsibility of an EUSR.

Remarks

This appropriation is intended to finance measures which contribute to the non-proliferation of weapons of mass destruction (nuclear, chemical and biological), primarily in the framework of the Union Strategy against the Proliferation of Weapons of Mass Destruction of December 2003. This includes support for measures implemented by international organisations in this field.

CHAPTER 14 04 — COMMON FOREIGN AND SECURITY POLICY (*cont'd*)**14 04 03** (*cont'd*)

This appropriation is intended to finance measures which contribute to the non-proliferation of conventional weapons and operations to combat the destabilising accumulation and trafficking of small arms and light weapons. This includes support for measures implemented by international organisations in this field.

Remarks

Appropriations under this chapter are intended to cover operational expenditure related to actions carried out under Decision (EU) 2021/1764. Its general objective is to promote the economic and social development of the OCTs and to establish close economic relations between them and the Union as a whole. The association shall pursue this general objective by enhancing the OCTs' competitiveness, strengthening the OCTs' resilience, reducing their economic and environmental vulnerability and promoting cooperation between them and other partners.

In accordance with Article 3(5) and Article 21 TEU, the specific objectives of the association are the following:

- to foster and support cooperation with OCTs,
- to support and to cooperate with Greenland in addressing its major challenges as the raising of education level and to contribute to the capacity of the administration of Greenland to formulate and implement national policies.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this chapter are intended to cover operational expenditure related to actions carried out under the instrument for providing support to Ukraine for 2023 (macro-financial assistance +). The general objective of that instrument is to provide short-term financial relief in a predictable, continuous, orderly and timely manner, financing of rehabilitation and initial support towards post-war reconstruction, where appropriate, with a view to supporting Ukraine on its path towards European integration.

To reach the general objective, the main specific objectives shall in particular be to support:

- macro-financial stability, and to ease Ukraine's external and internal financing constraints,
- a reform agenda gearing towards the early preparatory phase of the pre-accession process, as appropriate, including strengthening Ukraine's institutions, reforming and reinforcing the effectiveness of public administration as well as transparency, structural reforms and good governance at all levels,
- rehabilitation of critical functions and infrastructure and relief for people in need.

In accordance with Articles 21 and 22 of the Financial Regulation, any assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this article are intended to finance actions and activities not included elsewhere in this title but for which a basic act has been adopted.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

14 20 03 01 Macro-financial assistance (MFA) grants

Remarks

Macro-financial assistance (MFA) is a form of financial aid extended by the Union to partner countries experiencing a balance of payments crisis. MFA is designed for countries geographically, economically and politically close to the Union. These include candidate and potential candidate countries, countries covered by the European Neighbourhood Policy and, in certain circumstances, other third countries. In principle, MFA is only available to countries benefiting from an International Monetary Fund programme.

MFA is exceptional in nature and is mobilised on a case-by-case basis to help countries dealing with serious balance-of-payments difficulties. Its objective is to restore a sustainable external financial situation, while encouraging economic adjustments and structural reforms.

While MFA can take the form of medium- or long-term loans or grants, or a combination of these, this item only covers the grant element of MFA operations.

Appropriations under this item will also be used to cover costs incurred in relation to MFA operations, in particular: (i) costs incurred to conduct operational assessments in the beneficiary countries to obtain reasonable assurances on the functioning of administrative procedures and financial circuits; (ii) costs related to the implementation of the 'Better Regulation' guidelines, in particular for *ex post* evaluations of MFA operations; and (iii) costs to cover comitology requirements.

The Commission will inform the European Parliament and the Council regularly of the macro-financial situation of the beneficiary countries and will report extensively on the implementation of MFA on a yearly basis.

Remarks

In accordance with Article 245 of the Financial Regulation, this appropriation is intended to cover the Union's obligatory and voluntary contributions or membership fees to a number of international conventions, protocols and agreements to which the Union is party and preparatory work for future international agreements involving the Union.

In some cases, contributions to subsequent protocols are included in contributions to their basic convention.

Those international conventions, protocols and agreements include, inter alia:

- contributions of the Union to the World Customs Organisation (WCO),
- contributions of the Union to the International Tax Dialogue (ITD),
- contribution to the International Union for the Protection of New Varieties of Plants (UPOV), established by the International Convention for the Protection of New Varieties of Plants as last amended on 19 March 1991, which provides for an exclusive property right for breeders of new plant varieties,
- contribution to both the World Health Organisation Framework Convention on Tobacco Control (FCTC) and the FCTC Protocol to Eliminate Illicit Trade in Tobacco Products, which the Community ratified and to which the Union is a party,
- contribution due by the Union to cover the administrative budget arising out of its membership in the FAO, as well as to the International Treaty on Plant Genetic Resources for Food and Agriculture, following its ratification,
- contribution to multilateral and international environment agreements,
- contribution of the Union to the Energy Community,
- contribution of the Union to the Transport Community.

Annual membership fees which the Union must pay for its participation to the following international agreements on the grounds of its exclusive competence in the field:

- International Coffee Organisation,
- International Cocoa Organisation,
- International Cotton Advisory Committee when approved,

Remarks

This appropriation finances communication, information and outreach measures, systems and networks designed to project a strong, united voice for Europe in the world. The actions under this appropriation will strengthen the Union's capacity to promote its values and interests globally, enhance awareness of the Union's global role and, in that context, draw attention to the scale, ambition and impact of its common foreign and security policy, external relations, international cooperation and partnerships, neighbourhood, enlargement, conflict prevention and humanitarian policies and programmes. They will be based on a coordinated approach, linking the internal and external aspects of Union policies.

The communication, information and outreach measures concerned may address the general public or specific target audiences or stakeholder groups in the Member States or in third countries. They may be implemented directly by the Union centrally or at decentralised level in its delegations and offices in third countries, or in collaboration with public and private sector partners, service providers, international organisations and other stakeholders.

The communication, information and outreach measures financed by this appropriation include the design and implementation of:

- public diplomacy actions,
- strategic communication, including measures to counter global disinformation through the systematic tracking and exposing of disinformation spread by state and other actors,
- (integrated) campaigns, events and other communication, information and outreach actions,
- the EU Visitors programme managed jointly by the Commission and the European Parliament and other visitors' and networks and exchange programmes for media professionals and other stakeholders,

— information actions on Union citizens' rights following the United Kingdom's withdrawal from the Union.

Activities carried out in realising these measures include the (co-)production, procurement, distribution, organisation and management of:

- briefings and information packs, study visits, press trips, for media professionals and other stakeholders,
- printed, audio-visual and electronic content,
- traditional, online and social media publications,
- media monitoring,
- events, seminars, workshops, conferences and training courses,
- communication and information systems and networks,
- competitions and prizes for traditional and online journalism and reporting,
- opinion polling.

This appropriation may also cover IT-related expenditure, including corporate information technology.

Remarks

This appropriation covers the financing of strategic evaluation, external monitoring and audit needs in the areas of international cooperation and development, neighbourhood and enlargement.

The financing can also cover meta-studies, approaches, systems and methodologies for evaluation, monitoring and auditing, as well as training and knowledge-sharing systems and other horizontal actions to support the dissemination of expertise and knowledge in this area (such as studies, meetings of experts, information systems and publications).

This appropriation may also cover IT-related expenditure, including corporate information technology.

Remarks

This appropriation is intended to cover coordination measures under the Union’s development cooperation and humanitarian aid per the specific powers conferred to the Commission in Article 210 and Article 214(6) TFEU.

Pursuant to Article 210 TFEU, the Union and the Member States are to coordinate their policies on development cooperation at Union and international level and shall consult each other on their aid programmes, including in international organisations and during international conferences. They may undertake joint action. Member States shall contribute if necessary to the implementation of Union aid programmes. The Commission is allowed to take any useful initiative to promote this coordination.

Pursuant to Article 214(6) TFEU, the Commission is allowed to take any useful initiative to promote coordination between actions of the Union and those of the Member States, in order to enhance the efficiency and complementarity of Union and national humanitarian aid measures.

The measures covered by this appropriation are intended to provide the Commission with the means of support it needs to prepare, formulate and follow up coordination activities under its development policy and humanitarian aid at Union and international level.

The actions covered by this item will be implemented in coordination with Member States in a Team Europe approach and will include:

- effectiveness, efficiency, relevance, impact and viability studies in the area of coordination,
- analyses, technical assistance, methodological support, monitoring and coordination activities in the priority areas of development policy, aid and development effectiveness, including joint programming, joint implementation, Team Europe Initiatives (TEIs or flagships and transparency), financing for development and sustainable finance, humanitarian aid, bilateral and multilateral partnerships,
- meetings of experts, organisation of events, dialogues and exchanges between the Commission, Member States (including their agencies and development financing institutions), international organisations (UN, international financial institutions, etc.) and other international actors, including preparation of and participation to international fora such as the Global Partnership for Effective Development Cooperation or those under the policy stream financing for development and humanitarian aid, means of implementation, Agenda 2030 and new Consensus on Development and Humanitarian Aid,

Remarks

In accordance with Article 2, point (64), and Article 47(4), point (d), of the Financial Regulation, appropriations under this Chapter are intended to cover expenditure on external personnel and technical assistance directly linked to the implementation of programmes under this Title. Technical assistance includes support and capacity building activities necessary for the implementation of a programme or an action, in particular preparation, management, monitoring, evaluation, audit and control activities.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes, and any other assigned revenue, entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this Chapter. The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.

Remarks

Appropriations under this Chapter are intended to cover operational expenditure and provide financial support to the beneficiaries of the Reform and Growth Facility for the Western Balkans ('Facility'). The Facility will provide assistance to the Western Balkans for the delivery of socio-economic reforms and investments to implement their respective Reform Agendas in view to accelerate socio-economic convergence with the Union.

In accordance with Articles 21, 22 and 24 of the Financial Regulation, contributions received from third countries (EFTA States pursuant to the Agreement on the European Economic Area, candidate countries and, if applicable, the Western Balkan potential candidates, or other third countries) for participating in Union programmes and any other assigned revenue entered in the statement of revenue give rise to the provision of corresponding appropriations and to implementation under this Chapter.

The related estimated amounts as well as the corresponding article or item of the statement of revenue are indicated, wherever possible, in the relevant budget lines.
