23.1.2026

COMMISSION IMPLEMENTING REGULATION (EU) 2026/142

of 22 January 2026

making imports of robot lawn mowers originating in the People's Republic of China subject to registration with a view to allowing the levy of anti-dumping duties on the imports subject to registration

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) 2016/1036 of the European Parliament and of the Council of 8 June 2016 on protection against dumped imports from countries not members of the European Union ⁽¹⁾ ('the basic Regulation') and in particular Article 14(5) thereof,

After informing the Member States,

Whereas:

- (1) On 19 November 2025, the European Commission ('the Commission') announced, by a notice published in the *Official Journal of the European Union* ⁽²⁾, the initiation of an anti-dumping proceeding with regard to imports into the Union of robot lawn mowers originating in the People's Republic of China ('PRC').
- (2) This initiation followed a complaint lodged on 3 October 2025 by Husqvarna Manufacturing CZ s.r.o. on behalf of producers representing more than 25 % of the total Union production of robot lawn mowers.

1. PRODUCT SUBJECT TO REGISTRATION

- (3) The product subject to registration ('the product concerned') is electric robot mowers, capable of cutting grass (for example, in lawns, parks and sports grounds), without direct human control, whether or not including the secondary equipment necessary to their functioning (a charging station and, in most cases, ancillary materials or equipment necessary for the proper navigation of the robot lawn mower, e.g., a boundary wire or a wireless alternative thereto) originating in the PRC. This product is currently classified under CN code ex 8433 11 10 (TARIC code 8433 11 10 10).

2. REGISTRATION

- (4) Under Article 14(5) of the basic Regulation, imports of the product concerned may be made subject to registration.
- (5) The purpose of registration is to ensure that anti-dumping duties, if any, can be levied retroactively on the imports subject to registration in accordance with the applicable legal provisions, if the necessary conditions are met.
- (6) The Commission has decided to make imports of the product concerned subject to registration on its own initiative under Article 14(5) of the basic Regulation. The conditions for retroactive collection of duties will be assessed in the regulation imposing definitive duties if any.
- (7) Any future liability would emanate from the findings of the anti-dumping investigation.
- (8) The calculations provided in the complaint requesting the initiation of an anti-dumping investigation estimate dumping margins between 21,4 % and 57,4 % and an injury elimination level of around 125 % for the product concerned for the period from 1 April 2024 to 31 March 2025. The amount of possible future liability would normally be set at the lower of the dumping or injury level according to Article 7(2) of the basic Regulation.

⁽²⁾ OJ C, C/2025/6235, 19.11.2025, ELI: <http://data.europa.eu/eli/C/2025/6235/oj>.

- (9) However, at this stage the Commission is not in a position to estimate the amount of possible future liability. Thus, the amounts mentioned in the complaint are only for information purposes and cannot create any expectations as to the actual level of liability which will be established as a result of the investigation.

3. PROCESSING OF PERSONAL DATA

- (10) Any personal data collected in the context of this registration will be treated in accordance with Regulation (EU) 2018/1725 of the European Parliament and of the Council ⁽³⁾ on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data,

HAS ADOPTED THIS REGULATION:

Article 1

1. The customs authorities are hereby directed, under Article 14(5) of Regulation (EU) 2016/1036, to take the appropriate steps to register imports into the Union of electric robot mowers, capable of cutting grass (for example, in lawns, parks and sports grounds), without direct human control, whether or not including the secondary equipment necessary to their functioning (a charging station and, in most cases, ancillary materials or equipment necessary for the proper navigation of the robot lawn mower, e.g., a boundary wire or a wireless alternative thereto) originating in the People's Republic of China. This product is currently classified under CN code ex 8433 11 10 (TARIC code 8433 11 10 10).
2. Registration shall expire nine months following the date of entry into force of this Regulation.

Article 2

This Regulation shall enter into force on the day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 January 2026.

For the Commission
The President
Ursula VON DER LEYEN
