

Third Edition of Bharat Mobility Global Expo (BMGE) to be held from 4th – 9th February 2027 in Delhi- NCR

BMGE continues to provide a platform for dialogue, collaboration, and innovation in the mobility sector

Posted On: 03 JUL 2025 5:19PM by PIB Delhi

The third edition of the Bharat Mobility Global Expo (BMGE) is scheduled to be held from 4th to 9th February 2027 in the National Capital Region of Delhi. The event aims to bring together various stakeholders from across the mobility spectrum, including industry representatives, policymakers, and technology experts.

Organised with the support of the Ministry of Commerce & Industry and the Ministry of Heavy Industries, BMGE has evolved as a comprehensive platform for showcasing developments across the automotive and mobility value chain. The first two editions, held in 2024 and 2025, drew participation from a wide cross-section of the industry and focused on themes such as clean mobility, innovation, and integration with global supply chains.

The 2025 edition covered 2 lakh square metres across three venues—Bharat Mandapam, Yashobhoomi, and India Expo Centre & Mart, Greater Noida—and recorded participation from over 1500 exhibitors. More than 9.8 lakh visitors attended the event, which included product launches, technology showcases, conferences, buyer-seller meets, and international delegations.

In keeping with the format of earlier editions, BMGE 2027 will include exhibitions, technical sessions, and stakeholder consultations. In addition, new segments are being considered to broaden the scope of the Expo. These include a dedicated section on “Multi-Modal Mobility and Logistics” encompassing rail, road, air, water, urban and rural mobility, and a showcase focused on tractors and agricultural mobility solutions.

BMGE is an industry-led initiative coordinated by EEPC- Engineering Export Promotion Council of India India with support from organisations such as SIAM, ACMA, ICEMA, ATMA, IESA, ISA, NASSCOM, CII, MRAI, TMA, Invest India, IBEF, ITPO, Yashobhoomi, and IEML.

The Expo continues to provide a forum for exchange of ideas, partnerships, and sectoral engagement in line with broader national objectives related to sustainable and inclusive mobility.
