

BSNL Unveils 'Freedom Plan' One Month of Free 4G Services to Celebrate Independence Day

Posted On: 01 AUG 2025 6:12PM by PIB Delhi

Bharat Sanchar Nigam Limited (BSNL), India's trusted state-owned telecom giant, today launched its much-anticipated 'Freedom Plan'—a limited-period ₹1 offer that gives users to test BSNL's 4G mobile services for one full month. This initiative marks BSNL's celebration of India's Independence Day and offers citizens a chance to experience India's own indigenously developed 4G technology at no cost.

The plan includes:

- Unlimited voice calls (Local/STD),
- 2 GB high-speed data per day,
- 100 SMS/day, and
- A BSNL SIM—absolutely free.

Announcing the offer, **Shri A. Robert J. Ravi, CMD, BSNL**, said:

“With BSNL's 4G—designed, developed, and deployed under the 'Atmanirbhar Bharat' mission—we are proud to be putting India among a select group of nations that have built their own telecom stack. Our 'Freedom Plan' gives every Indian a chance to test and experience this indigenous network for 30 days—free of cost—and we are confident they will see the BSNL difference.”

He added that BSNL is rolling out 100,000 4G sites across the country using Make-in-India technology, and this initiative is a major milestone toward empowering digital India with secure, high-quality and affordable mobile connectivity.

Citizens can avail the freedom plan by visiting the nearest BSNL Customer Service Centre, retailer, or calling the toll-free number 1800-180-1503.

“Celebrate Independence with BSNL's Made-in-India 4G”
