38.13 crore teleconsultations conducted at AAMs

More than 5.7 crore wellness sessions have been conducted at Ayushman Arogya Mandirs

Posted On: 05 AUG 2025 4:24PM by PIB Delhi

As reported by States/UTs on AAM portal, a total of 1,78,154 Ayushman Arogya Mandirs (AAMs) have been operationalized in India across urban and rural areas.

Through Ayushman Arogya Mandir, comprehensive primary healthcare is provided by strengthening Sub Health Centres (SHCs) and Primary Health Centres (PHCs). These AAMs provide preventive, promotive, rehabilitative and curative care for an expanded range of services encompassing Communicable diseases, non-communicable diseases (NCDs), reproductive and child healthcare services and other health issues.

The home visits by primary healthcare teams for identification of risk factors followed by screening at AAMs ensures early detection of NCDs, followed by referral to PHCs and higher centres for management by specialist doctors.

The teleconsultation services, available at all operational AAMs across the country including rural areas, enables people to access the specialist services closer to their homes addressing concerns of physical accessibility, shortage of service providers and to facilitate continuum of care. Total teleconsultations conducted at AAM are 38.13 crore.

Beyond the management of illnesses, promotive and preventive health is an integral part of comprehensive primary health care. Wellness-related activities like Yoga, cycling, and meditation are conducted in AAMs. A total of 5.79 crore wellness sessions has been conducted at AAMs.

The Union Minister of State for Health and Family Welfare, Shri Prataprao Jadhav stated this in a written reply in the Rajya Sabha today.
