

RURAL DRAINAGE AND WASTEWATER MANAGEMENT UNDER SBM-G AND JJM

Posted On: 07 AUG 2025 4:00PM by PIB Delhi

Approximately 86.43% i.e., 5,07,394 out of 5,87,045 villages have implemented some form of drainage system. Grey Water Management in villages is being done through various interventions such as soak pits (at household and community level), kitchen gardens and grey waste management systems such as Decentralized Wastewater Treatment System (DEWATS), duckweed ponds, Phytoid systems etc. The SBM-G initiative includes solutions at the drain end-point to ensure effective management and disposal of grey water in rural areas. The Mission does not monitor the specific types of drains such as open, closed, kutchra, or pucca. The SBM-G promotes for the adoption of closed drains or small-bore systems with focus on promoting safe treatment and disposal of wastewater at the drain end-point. State/UT wise, the details of the villages having drainage facilities are given below.

State/UT wise, the details of the villages having drainage facilities are given below. State/UT-wise, Central share allocated, released and utilised under SBM(G) during last 5 years are given below.

Since August 2019, Government of India in partnership with States is implementing Jal Jeevan Mission (JJM) – Har Ghar Jal to make provision of potable water to every rural household of the country through functional tap water connection i.e. at a service level of 55 litre per capita per day (lpcd), of prescribed quality (BIS:10500), on regular and long-term basis.

State/UT-wise, Central share allocated, released and utilised under JJM during last 5 years are given below.

Phase II of Swachh Bharat Mission (Grameen) [SBM(G)] is being implemented during the period from 2020-21 to 2025-26, with focus on Open Defecation Free (ODF) sustainability and to cover all the villages with solid and liquid waste management (including Greywater management) i.e. converting the villages from ODF to ODF Plus (Model). Under SBM(G) there is no provision of ODF ++ Status. Out of the total number of 5,87,047 villages in country, 4,73,058 villages have been declared Open Defecation Free (ODF) Plus (Model) upto 04.08.2025 as per Integrated Management Information System (IMIS) of SBM(G). Out of which, 3,29,753 villages have been verified so far.

This information was provided by THE MINISTER OF STATE FOR JAL SHAKTI

SHRI V. SOMANNA in a written reply to a question in Lok Sabha today.

MAM/SMP

(Lok Sabha US Q3040)

State/UT wise, the details of the villages having drainage facilities:

State Name	No of Villages	No of Villages having Drainage Facility	Percentage of villages having Drainage Facility
A & N Islands	265	231	87.17%
Andhra Pradesh	15995	11972	74.85%
