

SSC's Feedback Portal Draws Strong Response; Re-Exams to Be Scheduled for Genuine Cases of Disruption

Posted On: 20 SEP 2025 2:11PM by PIB Delhi

New Delhi, September 20 — The Staff Selection Commission (SSC) has said that its newly launched Feedback Portal has received an encouraging response from candidates appearing for the Combined Graduate Level Examination (CGLE) 2025, with close to 10,000 candidates submitting their examination experiences within a week of its launch.

SSC officials informed that around 2,000 candidates reported alleged technical disruptions during the Computer Based Examination. Each case is being carefully analysed by the Commission through its Regional Offices. “Where disruptions are found to be genuine, affected candidates will be given an opportunity to re-appear. The re-examinations will be scheduled on or before September 26, 2025,” an official said.

The Commission underlined that it remains committed to fairness and transparency in the conduct of examinations. So far, 7.16 lakh candidates have successfully taken the exam across the country. Officials also confirmed that on September 19, no shift was cancelled or rescheduled, indicating that the process remained smooth throughout the day.

The CGLE is one of the largest recruitment examinations in India, drawing participation from lakhs of aspirants seeking central government jobs. The introduction of the Feedback Portal is being seen as a step towards making the process more responsive and candidate-centric, ensuring that issues are addressed in real time while maintaining the integrity of the examination system.
