

Union Home Minister and Minister of Cooperation
Shri Amit Shah lays the foundation stone and
inaugurates various development works of Kalol
Municipality in Gandhinagar district, the capital of
Gujarat, at a total cost of 144 crore

Prime Minister Shri Narendra Modi expects that the
citizens of the country, especially mothers and
sisters, take a pledge to give priority to indigenous
products in their daily use

Adopting indigenous goods will create numerous
business opportunities in the country, and our
economy will rapidly become the world's third-largest
economy

By the year 2029, there is a plan to develop Kalol
into an ideal assembly constituency with proper
coordination between rural and urban areas

The 350-bed state-of-the-art hospital being built by
the Government of India will provide the people of
the region with advanced healthcare facilities

Addressing the program, Union Home Minister Shri Amit Shah said that in the last five to six years, Kalol has witnessed unprecedented development. In the next 10 years, Kalol has immense potential for development. Several development projects have already been initiated here. Five schemes worth approximately ₹53 crore have been inaugurated, including a water treatment plant costing ₹35 crore, the construction of Jyoteshwar Lake at ₹11 crore, and a night shelter. Additionally, sanitation equipment and various borewell projects have been completed and dedicated today. Furthermore, several other projects worth ₹91 crore have been started under the Swarnim Jayanti Mukhyamantri Vikas Yojana and AUDA grants.

Shri Amit Shah said that with coordination between rural and urban areas a plan has been made to develop Kalol into a model assembly constituency by 2029. The Government of India has already begun construction of a massive 350-bed hospital with state-of-the-art facilities in Kalol. He stated that after the hospital's inauguration by 2027, residents of Kalol will no longer have to seek healthcare elsewhere. This hospital will connect the Primary Health Center (PHC) and Community Health Center (CHC), where all doctors will provide outpatient services. The hospital will have world-class equipment and the best doctors. The hospital's pathology lab will be even better than Ahmedabad's Civil Hospital. Free treatment up to ₹10 lakh will be available at this hospital under the Ayushman Bharat card and Gujarat government cards.

Union Home Minister Shri Amit Shah said that commendable work has been done in Kalol regarding the Jal Jeevan Mission, gas cylinder distribution, and toilet construction. He announced that the maintenance of Jyotishwar Pond will now be handled by a private company. Children's playing equipment, boating facilities, and pure food stalls will be installed around the pond.

Union Home Minister and Minister of Cooperation Shri Amit Shah said that Prime Minister Shri Narendra Modi has reduced the GST on food items to zero and the tax on farmers' goods by more than half, providing great relief to the public. Taxes on vehicles like scooters, motorcycles, and cars have also been reduced. Taxes on coal have also been reduced, which will reduce electricity bills. He said that Prime Minister Modi expects the citizens of the country, especially mothers and sisters, to pledge to use only indigenous products. He said that if we adopt indigenous products, many business opportunities will arise in the country and our economy will become the third largest in the world.
