

Prime Minister shares an article highlighting India's path of self-reliance and growth

Posted On: 13 OCT 2025 12:56PM by PIB Delhi

The Prime Minister, Shri Narendra Modi, shared an article written by Union Minister, Shri Hardeep Singh Puri, which underscores India's distinctive approach to development through scale, skill and self-reliance.

In the article, Shri Hardeep Singh Puri notes that while developed nations are turning inward, India continues to chart a different course, driven by reforms, digital innovation and the strength of its youthful workforce—factors that are powering the nation's rise as the world's growth engine.

Sharing the article, the Prime Minister's Office posted on X;

“Union Minister Shri @HardeepSPuri highlights that while developed nations are turning inward, India is charting a different path through scale, skill and self-reliance. He notes that reforms, digital innovation and a youthful workforce are powering India's rise as the world's growth engine.
