The Ministry of Railways has achieved significant progress under the ongoing Special Campaign 5.0, initiated by Government of India to institutionalize Swachhata in Government offices and disposal of pending matters.

At the mid-point of the campaign, which is from 2.10.2025 to 31.10.2025, the Ministry of Railways has achieved notable progress and is all set to achieve its target. So far, a total of 29,921 cleanliness campaigns have been conducted at railway stations, offices, and other Railway premises. The Ministry has also generated 235 crore in revenue through disposal of scrap material and freed up approximately 1.45 lakh square feet of office space, promoting more efficient use of infrastructure. In the Railways, scrap is being used to create attractive models, turning waste into wealth. Special attention is being given to the disposal of e-waste, which is being accounted for separately.

As part of administrative reforms, more than 50,000 files have been reviewed, leading to closure or weeding out of 20,277 files. So far, 1.37 lakh public grievances have been disposed of during the ongoing campaign, reflecting prompt and citizen-centric service delivery.

Further strengthening public engagement, the Ministry has organized more than 400 Amrit Samvad

interactions at various railway stations, fostering direct communication with passengers. These achievements at the mid-point of Special Campaign 5.0 are a testament to the dedication of Railway personnel across zones and divisions. The Ministry of Railways remains committed to sustaining this momentum throughout the entire campaign.
