

SECI and NHAI signs MoU in presence of Minister of State for Corporate Affairs & Road Transport and Highways Shri Harsh Malhotra for a Cleaner and Sustainable Delhi Saharanpur Dehradun Highway

A Step Towards Cleaner and Sustainable Infrastructure in line with Prime Minister's Vision of Net Zero by 2070

Posted On: 10 NOV 2025 7:22PM by PIB Delhi

In a significant step towards the ambitious vision of Prime Minister Shri Narendra Modi Ji's of making India Net Zero by 2070 and promoting renewable energy and sustainable development, Solar Energy Corporation of India Limited (SECI) and National Highways Authority of India (NHAI) have signed a Memorandum of Understanding (MoU) for the installation of solar power plants along the elevated portion of Package-1 (Delhi Portion) of the Delhi Saharanpur Dehradun highway (NH-709B) in Phase-1 in presence of Minister of State for Corporate Affairs & Road Transport and Highways Shri Harsh Malhotra. Shri V. Umashankar, Secretary, MoRTH and Shri Sanjay Sharma, Director, SECI Ltd also graced the occasion.

The MoU aims to develop renewable energy projects on highway infrastructure, harnessing the potential of solar energy to power highway infrastructure and reduce carbon footprint. This pioneering initiative will not only generate clean energy but also serve as a model for sustainable infrastructure development.

Shri Harsh Malhotra stated that MoU highlights the government's commitment to promoting renewable energy and sustainable development and this partnership between SECI and NHAI will pave the way for innovative and environmentally friendly solutions for highway infrastructure.

He stated that by leveraging solar energy, this initiative will reduce greenhouse gas emissions and contribute to a cleaner environment. The project will also demonstrate the feasibility of integrating renewable energy with infrastructure development, setting an example for future projects.

The Minister at the end stated that this collaboration underscores the commitment of both SECI and NHAI towards a sustainable future and aligns with the government's vision of promoting renewable energy and reducing carbon footprint.
