

India Internet Governance Forum (IIGF) 2025 to be held on 27-28 November in New Delhi

IIGF is a platform to discuss the future direction of India's internet and identify key areas that need attention

Posted On: 26 NOV 2025 2:34PM by PIB Delhi

The fifth edition of the India Internet Governance Forum (IIGF) will be held on 27–28 November in New Delhi. The venue for the first day of the forum will be the India Habitat Centre while the proceedings of the second day will be held at the India International Centre. Participants from government departments, tech companies, civil society groups, universities and policy circles are expected to join the multistakeholder event. The idea of the event is to bring people together to discuss the direction of India's internet and to identify the areas that need attention.

This year's theme is **“Advancing Internet Governance for an Inclusive and Sustainable Viksit Bharat.”** Discussions will be anchored around three key sub-themes: **Inclusive Digital Future, Digital Infrastructure for Resilient and Sustainable Growth, and AI for People, Planet and Progress**, focusing on safe, responsible and meaningful use of AI.

The event will be inaugurated by the Chief Guest Shri Jitin Prasada, Union Minister of State for Electronics & Information Technology, in the presence of Shri Sushil Pal, Joint Secretary, MeitY, and Dr. Devesh Tyagi, CEO, NIXI.

Speakers from the **UN IGF, Meta, Google Cloud, CCAOI**, and leading academic institutions will lead the discussions. The two-day forum will host **four panel discussions** and **twelve workshops**, providing space for sectoral, policy, and community-level conversations.

Members of the media, stakeholders and participants are invited to join IIGF 2025 and be part of discussions shaping the future of India's digital ecosystem. **To register for IIGF 2025, please visit: <https://indiaigf.in/>**

About IIGF:

The India Internet Governance Forum is the national chapter of the UN IGF. It follows a multi-stakeholder format where government, civil society, industry, technical bodies and academics get equal space. Set up in 2021, the forum aims to create a space for open conversations on internet policy issues. A 14-member committee with people from different sectors looks after the forum's work.
