

AIIMS Nagpur Hosts “Vesalius 2025” – National Cadaveric Ultrasound Workshop on Regional Anaesthesia & Pain Interventions

प्रविष्टि तिथि: 10 DEC 2025 8:05PM by PIB Mumbai

Nagpur : 10 December 2025

All India Institute of Medical Sciences (AIIMS) Nagpur successfully hosted Vesalius 2025—a national cadaveric ultrasound workshop on regional anaesthesia and pain interventions—on 7 December 2025 at the AIIMS Nagpur campus.

The workshop was organised jointly by the Department of Anaesthesiology and the Department of Anatomy, in collaboration with the Cadaveric Research Academic Board (CRAB) – AORA. The event was inaugurated by Prof. (Dr.) P. P. Joshi, Executive Director & CEO, AIIMS Nagpur, who appreciated the coordinated academic efforts and emphasised the importance of advanced skills training in procedural specialties.

The workshop featured:

- * Hands-on ultrasound-guided regional anaesthesia and pain-intervention training
- * Integration of clinical anatomy with procedural practice
- * Catheter insertion techniques demonstrated for the first time in this format
- * Dedicated cadaver-based stations for Minimally Invasive Pain and Spine Interventions (MIPSI)
- * High-fidelity training using advanced ultrasound systems

Over 40 delegates from across the country participated and were mentored by expert national faculty. Participants appreciated the structured format, focused hands-on training, and the innovative inclusion of catheter-based techniques and MIPSI stations, which significantly strengthened skill development and clinical application.

The organising departments stated that Vesalius 2025 reinforces AIIMS Nagpur's commitment to high-quality postgraduate education, advancement in pain and regional anaesthesia practices, and promoting interdisciplinary academic collaboration.
