The Telecom Regulatory Authority of India (TRAI) released findings of Independent Drive Test (IDT) conducted across Surat City (In Gujarat), during the month of November 2025, for information of general telecom consumers. The purpose of this drive test is to assess and verify real world quality of mobile network services (both voice & data) provided by Telecom Service Providers (TSPs).

During the IDT, TRAI Captures live performance data of mobile network of all service providers on key performance indicators (KPIs) like Call setup success rate, data download and upload speeds, speech quality, etc. Multiple advanced test handsets are used and the sessions are monitored in real-time and analysed using advanced Software Systems. The results of the IDT are published on TRAI website and in newspapers to inform consumers and to encourage TSPs to improve their services.

TRAI Regional Office, Jaipur, through its appointed agency, conducted detailed drive tests covering city drive of 412 KMs, 14 Hotspot locations, Walk Test of 2.0 Kms, during 03.11.2025 to 07.11.2025 in **Gujarat LSA**.
