

SAIL Records Highest-Ever December Sales; Strong Growth Sustained in April - December 2025

प्रविष्टि तिथि: 05 JAN 2026 8:23PM by PIB Delhi

Steel Authority of India Limited (SAIL), the Maharatna CPSE and one of the leading steel producers in the Country, has added another feather in its cap by clocking a sales volume of 2.1 Million Tonne (MT) (provisional) during December 2025, thereby achieving a colossal growth of about 37% over the sales volume of 1.5 MT achieved in December 2024. This is the best ever showing for the month of December and saw the Company scale new peaks across product categories and different sales channels with significant inventory reduction. The performance was buoyed by maintaining strong focus on customer deliveries. SAIL has also been undertaking branding initiatives with a renewed vigour recently.

The performance during the month helped SAIL sustain its growth momentum during FY'26 with sales volume reaching 14.7 MT (provisional) through April-December'25 which is a growth of about 17% as compared to 12.6 MT during CPLY. Apart from the records set in the domestic market, export volumes have also surged significantly, underscoring SAIL's growing global footprint.

The consistent improvement highlights SAIL's strengthened market presence, customer-centric initiatives and operational excellence. The record breaking achievements by SAIL across both domestic and international markets not only reinforce it amongst leaders in India but also expected to catapult its position to a higher pedestal amongst top steel companies globally.
