MOIL has achieved best-ever production performance in FY 2025-26 (Apr-Dec), recording its **best-ever production figures for both the third quarter and the first nine months of the financial year**.

During **Q3 of FY 2025-26**, MOIL achieved a **record manganese ore production of 4.77 lakh tonnes**, registering a growth of **about 3.7% over the corresponding period last year (CPLY)**. This is the **highest-ever production achieved by the company in any third quarter** since its inception.

Further strengthening this growth momentum, MOIL has also recorded its **best-ever nine-month production of 14.21 lakh tonnes**, which is **higher by about 6.8% compared to CPLY**. The sustained improvement in production performance is a result of focused mine planning, operational discipline, enhanced mechanization, and the dedicated efforts of MOIL's workforce across all operating units.
