Dumpsite Remediation Acceleration Programme (DRAP) is an initiative to fast-track remediation of 214 legacy waste dumpsites which account for 80% of the remaining legacy waste and reclaim land for productive urban use, while preventing creation of new dumpsites by September 2026. DRAP covers 200 ULBs for 100% remediation of 214 most difficult dumpsites of each State/UTs.

Ministry of Housing & Urban Affairs (MoHUA) has extended Central Financial Assistance of ₹4,206 crore for projects worth ₹10,308 Cr, benefiting 2,489 ULBs across 29 States/UTs for legacy dumpsite remediation. To support DRAP initiative, the Ministry will provide additional financial assistance to cities based on their micro-plan on case-to-case basis, considering an estimate of ₹550 per tonne for legacy waste remediation as per operational guidelines of SBM-U 2.0. Further, each city has been encouraged to forge one or more partnerships i.e. corporate/PSUs/NGOs as per requirement for support in financing, logistics, technical, utilization & disposal, community engagement & awareness etc.

An IT module has been developed to monitor the progress across these identified sites on a real-time basis, with digital integration of weighbridges where ever possible etc. Also, regular reviews and field visits are being taken up to assess on-ground progress and ensure timely resolution of challenges.

This information was given by the Minister of State for Housing & Urban Affairs, Shri Tokhan Sahu in a written reply in the Lok Sabha today.
