

SURVEY OF VILLAGES ABADI & MAPPING WITH IMPROVISED TECHNOLOGY IN VILLAGES

Posted On: 10 FEB 2026 4:02PM by PIB Delhi

Under the Survey of Villages Abadi and Mapping with Improved Technology in Village Areas (SVAMITVA) Scheme, modern drone-based aerial survey technology and Continuously Operating Reference Stations (CORS) network is used to map Abadi areas of villages. The survey process includes generation of high-resolution orthorectified images, preparation of geo-referenced maps, ground verification with participation of local authorities and villagers, and resolution of objections before issuance of Property Cards by the State Government. The maps created under SVAMITVA Scheme are of high resolution (1:500 scale) with an accuracy of upto 5cms. This technology-driven approach enables accurate demarcation of property boundaries and supports the establishment of clear ownership records in rural areas.

Since the launch of the Scheme, 3.06 crore Property Cards have been generated for 1.86 lakh villages (details at **Annexure-I**). As on date, 31 States/UT have been onboarded for SVAMITVA Scheme.

Annexure-I

State/UT wise details of property cards prepared as on date

States/UTs	Property Cards prepared (villages)	Number of Property Cards prepared
Andaman and Nicobar Islands	141	7409
Andhra Pradesh	908	384336
Arunachal Pradesh	0	0
