During the meeting, the two leaders discussed ways to further strengthen India–Guyana relations across a wide range of sectors. Dr. Jagdeo appreciated the decisive leadership of Prime Minister Shri Narendra Modi and India's rapid strides in digital governance and financial inclusion through UPI. Both sides discussed the possibility of extending similar digital public infrastructure models to Guyana.

The discussions covered cooperation in healthcare administration and hospital management, agricultural research, and improving connectivity and logistics between the two countries. The leaders also explored potential partnerships in IT, Blue Economy, energy, space, defence, education, biodiversity conservation and climate action.

The Guyanese delegation expressed interest in India's e-Migrate platform and the Indian Technical and Economic Cooperation (ITEC) programme as avenues for capacity building and skill development.

Both leaders also shared their mutual passion for cricket and acknowledged Guyana's contribution to the sport.

Reaffirming their shared commitment to the Global South, the Vice-Presidents underscored the importance of coordinated efforts at international platforms, including the United Nations Security Council (UNSC) and the International Tribunal for the Law of the Sea, to strengthen the voice and interests of developing nations.
