

Motion of Thanks on the President's Address- Contd.

SHRI G. M. HARISH BALAYOGI (AMALAPURAM): Hon. Chairperson, Sir, I rise on behalf of Telugu Desam Party to extend our support to the gracious Address of the hon. President of India. The Address presents a confident national roadmap rooted in reform, inclusion and long-term competitiveness. The vision of Viksit Bharat 2047 reflects a shift from managing short-term outcomes to shaping enduring economic strength, institutional capacity and global relevance.

14.01½ hrs

At this stage, Dr. Amar Singh, Shri Imran Masood, Shrimati Satabdi Roy Banerjee and some other hon. Members came and stood on the floor near the Table.

HON. CHAIRPERSON : Kindly go back to your seats.

? (Interruptions)

SHRI G. M. HARISH BALAYOGI: At the centre of this transformation lies technology and digital leadership. The President's Address rightly highlights the creation of over 25 lakh jobs in electronics manufacturing and the engagement of more than one crore young Indians across IT services and Global Capability Centres. ? (Interruptions)

HON. CHAIRPERSON: Hon. Members, please go back to your seats.

SHRI G. M. HARISH BALAYOGI: Extending tax incentives for data centres and cloud service providers until 2047 sends a strong signal of policy certainty and positions India as a trusted global hub for data, computing and artificial intelligence, while generating high-quality employment. ? (Interruptions)

Decentralised technology-led growth is now visible on the ground. My State of Andhra Pradesh offers a strong example, with nearly 25 per cent of national investment proposals in 2025-26 flowing into the State, including the proposed 15 billion dollar Google AI hub, the Rs. 798,000 crore Digital Connexion hyperscale campus and the 500 MW FrontierOne data centre. This momentum, driven by focused policy leadership under the hon. IT Minister, Shri Nara Lokesh garu, demonstrates what coordinated Centre-State governance and infrastructure readiness can achieve. ? (Interruptions)

Technology governance must advance in parallel with this growth, with emphasis on regulation and enforcement regarding data privacy, intellectual property and cybercrime to counter modern day misuses of technology such as deepfakes, manipulations and digital addiction especially amongst our youth. ?
(Interruptions) The use of AI in mental healthcare must be strictly regulated, with digital platforms operating under clear standards of privacy protection, ethical design and clinical accountability. ?
(Interruptions)

If technology is the engine of growth, education and skilling are the fuel that powers it. An allocation of Rs. 3,200 crore for Atal Tinkering Labs strengthens innovation, but inclusion must remain central, especially when only 35 per cent of schools in our country currently accommodate children with special needs. ?
(Interruptions) The decision to establish one girls' hostel in every district will expand higher education access, but empowerment must translate into entrepreneurship and economic participation. ?
(Interruptions)

As a panelist at the Viksit Bharat Young Leaders Dialogue, I witnessed strong entrepreneurial aspiration. ? (Interruptions)

Sir, due to the paucity of time, I would like to conclude. ?
(Interruptions) As I conclude, the President's Address is a call to national responsibility at a defining moment in India's journey. ?
(Interruptions) The vision of Viksit Bharat is not confined to one Government or one electoral cycle. ? (Interruptions) It is a continuous national mission demanding discipline, continuity and collective resolve. ? (Interruptions)

The Telugu Desam Party, as a part of the NDA Government, stand firmly committed to this mission. ? (Interruptions) We believe cooperative federalism, policy stability and strong institutions will form the foundation of Viksit Bharat. ? (Interruptions)

Thank you. ? (Interruptions)
