

Regarding situation due to shortage of LPG cylinders

SHRI VIJAYAKUMAR ALIAS VIJAY VASANTH (KANYAKUMARI): Madam, the nation is reeling under an unprecedented crisis. The acute shortage of LPG gas cylinders, petrol and diesel has brought the country to a halt. Hospitals are struggling to provide essential services, college canteens are shut, hotels are closing down. The common man is struggling to cook a simple meal and fuel their vehicles.

The Central Government's mismanagement and inaction have led to this crisis. The shortage has led to panic, with people queuing up for long hours to get a cylinder or a litre of petrol. The prices are soaring and the people are suffering.

I demand the Government to take immediate action to address this crisis, roll back the price hike, ensure uninterrupted supply. The nation is crying out for relief and it is the Government's duty to listen. I urge the Government to act now and provide relief to the people. Thank you.
