

Regarding upgradation of Kohima Medical College to AIIMS or Central Institute similar to RIMS Imphal

SHRI S. SUPONGMEREN JAMIR (NAGALAND): Hon. Madam in the Chair, through you, I would like to request the upgradation of the Kohima Medical College as a Central Institute. The Kohima Medical College, which is the first-ever medical college in the State, commenced in September 2023 with an intake of 100 students, and it requires further scope and development. Our people in the State are facing difficulties in accessing adequate health facilities. We have often had to go outside the State in order to avail better healthcare services.

Therefore, through you, Madam, I would like to request that the Kohima Medical College may kindly be upgraded into an AIIMS or a Central Institute, on the lines of the Regional Institute of Medical Sciences in Imphal. If the Kohima Medical College is upgraded in this manner, it will be of great benefit.
