

Chennai, March 02, 2026 National Institute of Fashion Technology (NIFT), Chennai celebrated cultural fashion event IDF X Spectrum 2026

Posted On: 02 MAR 2026 4:55PM by PIB Chennai

National Institute of Fashion Technology, Chennai was back with its cultural fashion extravaganza, with more creativity, fun, charm, and unlimited fashion exploration this time through a new fusion of IDF X SPECTRUM 2026, held on 26th and 27th February. Spectrum is a convergence of art, passion, creativity, sports, dance, music, drama, and literature, featuring over 25 events, welcoming student participation from various colleges across the city. Each event served as a unique platform to bring out the competitive talents of students from various backgrounds such as design, science, technology, arts, engineering, and literature.

This year, the inter-college convergence met the intra-college energy and enthusiasm with the Inter Department Feast - IDF. IDF brought together the students of the entire department to act with a common aim - togetherness! IDF served as the dynamic pathway that transformed the feast into an unforgettable journey, leading to the ultimate goal - a feast etched in everyone's memory.

The theme of the feast was “24 Frames.” Traditional film pulses at 24 frames per second—24 still images per second flashing so swiftly that our brain perceives seamless motion. This rhythm is cinema’s heartbeat. “24 Frames” revolved around cinema and films, just like the hands of a clock revolve through 24 hours.

One of the key highlights of the feast was the fashion show. National Institute of Fashion Technology, Chennai witnessed absolutely mind-blowing garment designs made by the aspiring and amateur designers. Students created innovative 3D garments and functional working model garments, showcasing both creativity and technical expertise.

IDF X Spectrum 2026 stood as a vibrant celebration of talent, unity, and boundless creativity, culminating in a spectacular showcase and a memorable feast that truly reflected the spirit of NIFT, Chennai.
