

Prime Minister Shri Narendra Modi inaugurates the PM MITRA Park at Warangal, Telangana, marking a historic milestone in India's industrial and textile growth journey

Posted On: 10 MAY 2026 5:20PM by PIB Delhi

Prime Minister Shri Narendra Modi inaugurated the PM MITRA Park at Warangal, Telangana today marking a historic milestone in India's industrial and textile growth journey. Developed at **1695.54 Cr**, it is the country's first functional PM MITRA Park and operationalises the Government of India's 5F vision - Farm to Fibre to Factory to Fashion to Foreign. Inaugurating the project, Prime Minister said that the PM Mitra Park in Warangal, will accelerate the textile revolution in our country, creating large scale employment opportunities especially for the women.

Strategically located near the proposed Nagpur-Vijayawada Greenfield Expressway (NH-163G) and in proximity to NH-163, the park offers excellent multimodal connectivity to major railway networks and seaports, ensuring seamless logistics for global trade. Designed as a world-class industrial ecosystem, the park is equipped with state-of-the-art infrastructure including an extensive internal road network, dedicated power substation and assured water supply. It also emphasises sustainable development through a Common Effluent Treatment Plant with Zero Liquid Discharge technology.

The Park is poised to become a key driver of India's textile growth story with over ₹6,000crores in expected investment and significant progress already underway with 62% of the park already allotted. Spread across 1,327 acres, the park is set to generate large-scale opportunities across the textile value chain, with over 24,400 jobs expected and thousands already created.

The Ministry of Textiles, Government of India approved the establishment of seven PM MITRA parks in the states of Telangana, Tamil Nadu, Karnataka, Maharashtra, Uttar Pradesh, Gujarat and Madhya Pradesh in March 2023 to give a fillip to a national eco-system for textile infrastructure in the country.

The Government of Telangana had proposed the selection the Kakatiya Mega Textile Park (KMTP) at Warangal for approval as one of the seven sites under the PM MITRA Scheme with a view to expanding the infrastructure and facilitation for grounding of industries in the park, in March 2022. On approval

under the PM MITRA scheme under the **Brownfield category**, KMTP became eligible for a **development capital support of Rs 200 crores and a Competitive Incentive Support (CIS) of Rs 300 crores** for industries being set up in the park.

The Detailed Project Report for the PM MITRA Park, Warangal incorporating **expanded common infrastructure facilities** like upgradation of the CETP to a Zero Liquid Discharge Facility, Common boiler facility for processing units, expansion of worker dormitories, a 10 MW solar power plant, etc. was approved with a **total project cost of Rs 1695.54 Cr.**

Out of the total 548 acres allotted to industry in the park, **310 acres** have been allotted to industry after the announcement of the PM MITRA Park.

Industries being set up in the park will not only have access to **world class infrastructure facilities for the textile sector (benchmarked against textile mega parks globally)** but are also to receive Competitive Incentive Support (CIS) under the PM MITRA scheme. Manufacturing units become eligible for incentive support for which total fund of Rs ₹300 crore for each park, thereby making these parks more attractive to investors.

Units in the **PM MITRA parks are also eligible for benefits in convergence** with other Government of India schemes. Notably, the Ministry of Textiles has focused heavily on attracting fresh investment through **the PLI scheme for the textiles sector**. As an example of this convergence, one of the units in PM MITRA Park Warangal, Evertop Textile and Apparel Complex Pvt. Ltd. is also a beneficiary of the PLI scheme. The Company is expected to generate employment of around 12,800 persons with the proposed investment of Rs 1051 cores and an estimated annual turnover of Rs 1990 crores.

The PM MITRA Park scheme not only brings central government funding in the form of VGF but also improves investor confidence, modern shared infrastructure, and integration into India's national textile strategy — all of which significantly amplify the initiative undertaken to set up a textile park by the Government of Telangana. Being a PM MITRA Park effectively elevates KMTP from a state industrial park into a **nationally prioritized, globally positioned textile ecosystem.**
