

Successful Completion of Phase-I of Census 2027 House Listing Operations (HLO) in Goa through Mobile Application

Posted On: 18 MAY 2026 1:07PM by PIB Mumbai

The Phase-I of Census 2027, namely the House Listing Operations (HLO), has been successfully completed in the State of Goa from 16 April 2026 to 15 May 2026. The operation was conducted efficiently across the State using a dedicated mobile application-based digital platform, marking a significant step towards technology-driven census operations.

The House Listing Operations covered comprehensive enumeration of houses, households, and associated amenities in both urban and rural areas of Goa.

Enumerators and supervisors carried out the exercise with dedication and professionalism, ensuring timely completion of the operation. Extensive training programmes were organized prior to commencement of the exercise to familiarize field staff with the digital application and operational procedures.

The successful implementation of the mobile app-based HLO reflects the Government's commitment towards modernizing census processes through digital technology, transparency, and efficient data management systems.

The Directorate of Census Operations, Goa, expresses sincere gratitude to the people of Goa for their active cooperation and support during the House Listing Operations. Appreciation is also extended to all enumerators, supervisors, district administration officials, local bodies, and other stakeholders whose coordinated efforts ensured the smooth conduct of the exercise.

The information collected during this phase will provide an important statistical foundation for planning, governance, infrastructure development, and implementation of welfare programmes.

Preparations for the next phase of Census 2027, namely Population Enumeration, are in progress and further details will be announced separately.
