

Union Home Minister and Minister of Cooperation Shri Amit Shah addresses the ‘Dhanyawad Sabha’ held in Kolhapur, Maharashtra, as the Chief Guest

These 12 years of Modi Ji, the longest-serving elected Prime Minister of India, will be remembered in the history of independent India as an era of development, cultural renaissance, a secure India, and enhanced global stature

The commencement of the Ambabai Mahalaxmi Temple Corridor, being developed at a cost of ₹1,500 crore, marks the beginning of a new era of governance rooted in faith and culture in Maharashtra

“This country is not a dharamshala, infiltrators will be identified and deported one by one” — Union Home Minister’s clear message from Kolhapur

After Ram Mandir, Kashi Vishwanath, Kedarnath-Badrinath, Somnath, & Kamakhya, the Ambabai Corridor marks another milestone in our Government’s unwavering commitment to preserving and promoting India’s cultural and spiritual heritage

From rural and cooperative development to semiconductors, quantum technologies, and other new-age innovations, Modi Ji has given India a new identity across every sector

Union Home Minister and Minister of Cooperation Shri Amit Shah today addressed the ‘Dhanyawad Sabha’ held in Kolhapur, Maharashtra, as the chief guest. The programme was attended by Maharashtra Chief Minister Shri Devendra Fadnavis, Deputy Chief Minister Shri Eknath Shinde, and several other dignitaries.

On this occasion, Shri Amit Shah said that in the last 12 years, ever since Narendra Modi Ji became the Prime Minister of the country, our leader Shri Narendra Modi Ji has successfully completed many tasks that were earlier considered impossible. By the grace of Lord Shri Ram, Narendra Modi Ji became Prime Minister in 2014, and today a grand and divine Ram Temple stands tall in Ayodhya with its magnificent glory. Along with this, the Kashi Vishwanath Corridor has been constructed, and the reconstruction of Kedarnath Dham and Badrinath Dham has been carried out. The Somnath Temple is once again being adorned with gold. The corridor of Maa Kamakhya is being built and now the work on constructing the corridor of Ambabai Mahalaxmi Temple has also begun. He said that under the mantra of “Vikas Bhi, Virasat Bhi”, a cultural renaissance is taking place across the country. Shri Shah said that the reconstruction and redevelopment of all Jyotirlinga and Shaktipeeth temples in Maharashtra is underway, which is a matter of great pride for all of us.

Union Home Minister and Minister of Cooperation said that the commencement of the renovation and corridor construction work at Ambabai Mahalaxmi Temple in these 12 years is also one of the many significant achievements. Under the leadership of Prime Minister Shri Narendra Modi Ji, sustained efforts have been made not only to initiate work in areas such as the preservation of languages, promotion of culture, and safeguarding of the nation's borders, but also to take these initiatives to their logical conclusion with unwavering momentum. By initiating the construction of the Ambabai Mahalaxmi Temple Corridor, a new height has been given once again to the rule of dharma and cultural awareness in Maharashtra.

Shri Amit Shah said that recently Narendra Modi Ji has created a new record of becoming the longest-serving elected Prime Minister. When the history of independent India is written, these 12 years will be recorded as the years marked by India's development, cultural renaissance, creation of a secure India, and the rise of India's prestige and respect on the global stage. In these 12 years under Modi Ji's leadership, our governments have earned the support, trust, and confidence of the people across the country—from Somnath to Gangasagar. Shri Shah further said that not only infiltration from Bengal's borders will be completely stopped, but every single infiltrator across the country will be identified and deported one by one, this country is not a Dharamshala.

Union Home Minister said, under the leadership of Prime Minister Shri Narendra Modi Ji, along with ensuring the security of India, unprecedented work has been done in every sector — whether it is rural development, urban development, the creation of the Cooperation Ministry to make agriculture prosperous, establishing new standards for urban planning, or making India a global manufacturing hub through the PLI Scheme. He also said that a solid beginning has been made to take India to new heights in sectors like semiconductors, quantum engineering, software, data centres, and new-age technologies. Under the leadership of Prime Minister Shri Narendra Modi Ji we successfully landed Chandrayaan-3 on the southern pole of the Moon and established the 'Shiv Shakti Point', filling the hearts of all Indians with pride and joy.

Union Home Minister Shri Amit Shah said that important work has been initiated by the Maharashtra Government for the renovation and development of the sacred Karveer region's Mata Ambabai Mahalaxmi Temple in Kolhapur, where the Goddess has been residing for hundreds of years. The state government is undertaking the renovation of Shri Ambabai Mahalaxmi Temple in Karveer Nagar and the construction of the Temple Corridor. The total cost of this project is ₹1,500 crore and it will be developed over more than 28,000 square metres of land. He stated that during the redevelopment of this ancient temple, established in the 7th century, special attention is being given to the preservation of nearly 41 small and large temples in the vicinity, in consultation with the Archaeological Department. The temple complex will be equipped with modern facilities, including AI-based security cameras, LED lighting decorations, an outdoor gallery, heritage walkways, light and sound shows, a multipurpose hall, Annachhatra, police station, and a heritage courtyard, along with complete pilgrim amenities. Shri Shah added that upon completion of this project, this holy pilgrimage site in Kolhapur will be transformed into a fully developed spiritual destination within six months. This will not only rekindle devotion among lakhs of devotees of Ambabai Mata, but will also provide an opportunity to preserve and promote Kolhapur and Maharashtra's rich cultural heritage, especially inspiring the younger generation. He added that ₹1,500 crore is not a large sum because the development and glorification of such sacred places — where our history, faith, and culture reside — is a source of inspiration for all Indians.
