

India to Host 3rd BRICS Transport Ministers' Meeting in Nagpur on 11th and 12th July 2026

प्रविष्टि तिथि: 07 JUL 2026 2:39PM by PIB Delhi

India, under its BRICS Chairship 2026, will host the 3rd BRICS Transport Ministers Meeting in Nagpur, Maharashtra on 11th and 12th July 2026. The meeting will bring together Ministers and Senior Officials from BRICS member countries to deliberate on key priorities in the transport sector sustainability in infrastructure and mobility at the 3rd BRICS Transport Ministers' Meeting.

The meetings is being convened under India's BRICS Chairship theme: "Building for Resilience, Innovation, Cooperation and Sustainability (BRICS)", which reflects the shared commitment of BRICS nations to drive inclusive growth through technological innovation and enhanced connectivity.

Union Minister of Road Transport and Highways, Shri Nitin Gadkari will chair the BRICS Transport Ministers' meeting on 11th July 2026 which will see the participation from Ministers of other member countries.

Established as the principal platform for policy dialogue and cooperation in the transport sector among BRICS member countries, the Transport Working Group has emerged as a key mechanism for advancing resilient and efficient transport systems across member countries. Following the first two pivotal meetings of the Transport Working Group hosted by Russia and Brazil, this third iteration aims to deepen international transport cooperation.

The theme aligns closely with India's Viksit Bharat 2047 vision, which champions a data-driven, climate-conscious, and disaster-resilient transport ecosystem, by integrating electric mobility and circular economy solutions, India aims to lower logistics costs while establishing a sustainable, multimodal network that accelerates green mobility.

Over the two days, senior officials will review the progress of transport cooperation achieved since the Russian and Brazilian Chairships, exchange international best practices and deliberate on emerging areas of collaboration, including Sustainable Aviation Fuel (SAF), urban mobility, multi-modal transport, resilient logistics' supply chains, decarbonisation and the adoption of expanding AI-based technologies.

Today, the expanded BRICS grouping—comprising Brazil, China, Egypt, Ethiopia, India, Indonesia, Iran, Russia, Saudi Arabia, South Africa and the United Arab Emirates—represents nearly half of the world's population and accounts for around 40 per cent of global GDP. Strengthened transport cooperation among BRICS countries is expected to facilitate trade, improve regional and intercontinental connectivity, enhance logistics efficiency and contribute to more resilient global supply chains.

The 3rd BRICS Transport Ministers' Meeting in Nagpur is expected to further deepen transport cooperation among BRICS countries, carry forward the momentum generated at the meetings hosted by Russia and Brazil, and reinforce the bloc's collective commitment of innovation-driven growth.

Nagpur gears up to welcome the 3rd BRICS Transport Working Group Meeting, where BRICS member nations will come together to advance cooperation and shape a resilient, connected and sustainable transport future. @BricsIndia2026 @PIB_India @MORTHIndia #BRICS2026 #BRICSIndia2026 pic.twitter.com/ZYYDBpN9hY
