

Union Minister Jyotiraditya Scindia Invites Investors to Explore Tripura's Vast Growth Potential at Destination Tripura Business Conclave 2026

Tripura Emerging as India's Gateway To Southeast Asia Under PM Modi's Act East Vision: Scindia

Scindia Praises CM Manik Saha's Leadership in Building a Connected and Prosperous Tripura

Tripura Emerges as India's Gateway to Southeast Asia and a New Investment Destination: Scindia

Posted On: 09 JUL 2026 8:07PM by PIB Delhi

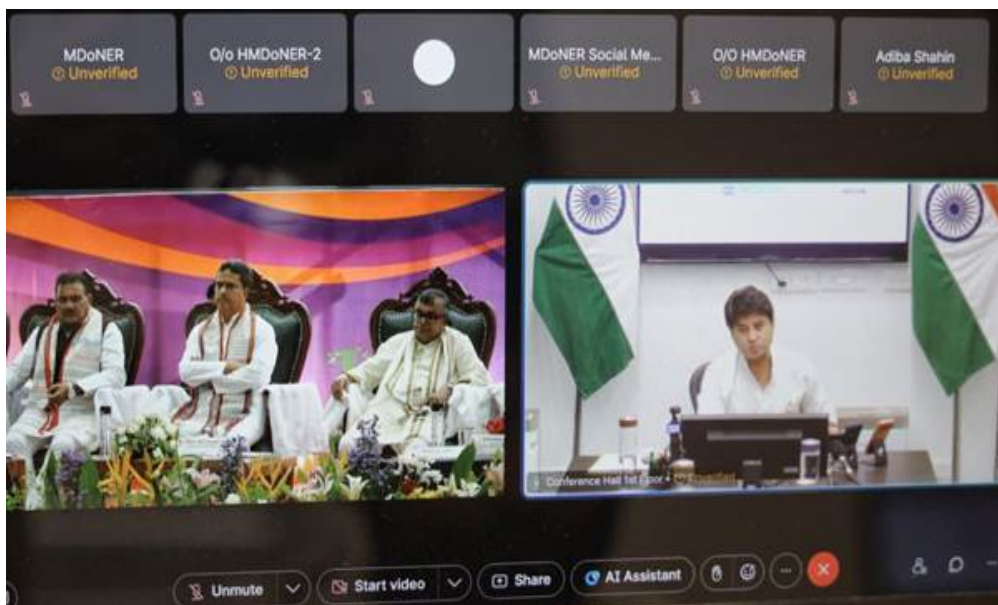

Union Minister for Development of North Eastern Region and Communications, Jyotiraditya M. Scindia, today addressed the Destination Tripura Business Conclave 2026 virtually and urged industry leaders to partner in Tripura's remarkable growth story, describing the State as one of the Northeast's most promising investment destinations.

Union Minister Scindia asserted that under the visionary leadership of Prime Minister Narendra Modi, the Northeast is emerging as the engine of growth that will play a defining role in the journey towards a Viksit Bharat. He noted that the Prime Minister's transformative Act East Policy has repositioned the region from India's frontier to its gateway to Southeast Asia, unlocking unprecedented opportunities for trade, investment and regional connectivity.

Describing Tripura as standing at the intersection of connectivity, commerce and opportunity, the Minister said the Destination Tripura Business Conclave showcases a State that is ready to become a preferred destination for investors seeking long-term opportunities. He said Agartala is emerging as a strategic gateway to Southeast Asia, connecting businesses to the ASEAN region of over 670 million people and one of the world's largest economic blocs.

Union Minister of DoNER highlighted Tripura's exceptional strengths, including abundant reserves of natural gas, bamboo, agarwood, rubber, tea, spices and horticultural produce, a highly educated workforce, investor-friendly policies, expanding infrastructure, and India's third International Internet Gateway. He noted that Tripura's emergence as India's largest bamboo-producing State and the country's second-largest producer of natural rubber offers immense opportunities for manufacturing, food processing, value addition, logistics, exports and technology-led industries.

Emphasising that “investment follows confidence, confidence follows infrastructure, and infrastructure follows vision”, Scindia said the Government of India has fundamentally transformed the Northeast's development landscape over the past decade through enhanced connectivity, modern infrastructure and strong institutional support. He highlighted key initiatives such as the India–Myanmar–Thailand Trilateral Highway, the Kaladan Multimodal Transit Transport Project, the Special Economic Zone at Sabroom, the Maitri Setu bridge and the Integrated Check Post, all of which are positioning Tripura as a springboard for exports to Southeast Asia.

Calling upon investors to seize the opportunities before them, Scindia said Tripura's transformation from a landlocked State into a gateway to the Bay of Bengal reflects the larger transformation of the Northeast under Prime Minister Narendra Modi's leadership. Reaffirming the Government of India's unwavering commitment to the region, he said the Ashtalakshmi States are poised to lead India's next chapter of economic growth.
