The Ministry of Home Affairs (MHA) is proactively monitoring the monsoon situation across the country. Under the leadership of Prime Minister Shri Narendra Modi and guidance of Union Home Minister Shri Amit Shah, MHA is providing all necessary support to affected States and Union Territories in managing challenges posed by heavy rains.

In the month of July, 2026, country has faced heavy rains and landslides in some parts like Nagaland, Arunachal Pradesh, West Bengal, Assam, Gujarat, Maharashtra, Dadar and Nagar Haveli, Daman, J& K etc.

The Ministry of Home Affairs Integrated Control Room (ICR-ER) is working in close coordination with other central agencies including India Meteorological Department (IMD), Central Water Commission (CWC) and Indian National Centre for Ocean Information Services (INCOIS) for raising timely alerts to State Emergency Operation Centres and District Emergency Operation Centres. Besides disseminating Early Warnings up to States/UTs and Districts, the Control Room monitoring all the rescue activities round the clock.

National Disaster Response Force (NDRF) has worked tirelessly with State Government Agencies, State police and SDRF in all these places for rescue and relief operations to save human lives. NDRF pre-positioned its teams at vulnerable places to reduce response time. During the last one week, 52 civilians have been rescued by NDRF teams whereas 2206 civilians were evacuated to safer places across all the affected States/UTs.

In coordination with MHA, the Ministry of Defence (MoD) also mobilized its resources within shortest possible time to save stranded people, to provide assistance to Rescue Agencies in transportation of men and material and distributing relief materials.

A review meeting regarding preparedness for pre-monsoon floods and heatwaves across the country, was chaired by Union Home Minister Shri Amit Shah on 10<sup>th</sup> May, 2026. In follow up, another meeting was held by MHA on 03<sup>rd</sup> June, 2026 to review the overall preparedness on heavy rain, cloudburst, floods and landslides in Jammu and Kashmir. Preparedness along the Char Dham yatra route was also reviewed by MHA regularly.

Under directions of Union Home Minister Shri Amit Shah, the Inter-Ministerial Central Teams have already visited the affected areas of Arunachal Pradesh and Assam from 07<sup>th</sup> to 10<sup>th</sup> July 2026, for assessing the extent of damage and to provide necessary financial assistance to these States from NDRF. Another Inter-Ministerial Central Team is scheduled to visit the affected area of Assam from 25.07.2026 for assessing loss and damage caused due to incessant rains and floods.

Though recent rains have caused difficulty to people in some states, overall it has reduced the earlier predicted rain deficit of approximately 30 percentage to about 15 percentage.
