

Pre-bid conference organised by Ministry of Heavy Industries (MHI) for selection of beneficiary firms under PLI ACC Scheme for setting up Advanced Chemistry Cell (ACC) manufacturing facilities of cumulative 10 GWh capacity for Grid Scale Stationary Storage Applications

Bidding process to be held online through a transparent two cover system Technical Bid and Financial Bid under QCBS framework through the CPP Portal

Bid documents are available on the CPP portal since July 15, 2026 and bid due date is October 13, 2026

प्रविष्टि तिथि: 29 JUL 2026 6:48PM by PIB Delhi

The Ministry of Heavy Industries (MHI) successfully conducted a Pre-bid conference at India Habitat Centre, New Delhi, regarding the Global Tender for Selection of Manufacturers for Setting Up 10 GWh Manufacturing Capacities for Advanced Chemistry Cell (ACC) for Grid Scale Stationary Storage Applications under the Production Linked Incentive (PLI) Scheme. The conference held today i.e. July 29, 2026 witnessed active participation from more than 30 prospective bidders, industry stakeholders, industry associations, NITI Aayog, Government ministries including MNRE and Ministry of Power.

The Pre-bid conference was organized following the issuance of the bid documents on July 15, 2026 on the CPP Portal by MHI. This initiative is aimed at promoting domestic manufacturing of Advanced Chemistry Cells, enhancing energy security, and supporting the deployment of grid scale energy storage systems for renewable energy integration.

A detailed presentation was made on the scope and objectives of the global tender. During the pre-bid conference, the queries raised by the prospective bidders were addressed. The participants were informed that the last date to submit their queries by way of e-mail (as per details provided in RFP) is August 20, 2026.

The tender documents were available from July 15, 2026 and the bid due date is October 13, 2026. The bids shall be opened on October 14, 2026 at MHI. The bidding process will follow online transparent two-stage mechanism under the Quality and Cost Based Selection (QCBS) framework through the CPP Portal.

For further information and updates on the PLI ACC Scheme and the global tender process, interested participants were encouraged to visit the official website of the Ministry of Heavy Industries or CPP Portal.
