Higher education has the power to transform lives, but for many talented students from economically disadvantaged families, financial constraints often stand in the way of fulfilling their aspirations. One such inspiring example is **Mr. Akarsh S P**, a 26-year-old student belonging to the **Other Backward Classes (OBC)** community in Karnataka, whose dream of pursuing professional management education became a reality through the **Top Education Scheme for OBC Students** under the Ministry of Social Justice and Empowerment.

Growing up in a modest-income family in a smaller regional town, **Akarsh believed that education was the key to creating a brighter future for himself and his family.** His ambition was to pursue an MBA from a premier institution and build a successful corporate career. However, the high cost of tuition fees and living expenses posed a significant financial challenge. Funding a multi-year professional programme would have placed an enormous burden on his family and risked pushing them into debt.

Apart from financial hardships, Akarsh also faced geographical and social barriers. Limited access to quality career guidance, mentorship, and professional exposure made his journey more challenging. Despite these constraints, his determination to excel academically remained unwavering.

Top Class Education Scheme for OBC Students

Recognising his potential, the **Top Class Education Scheme for OBC Students** extended financial assistance in the form of **Tuition Fee Reimbursement amounting to ₹10,27,000 during the academic year 2025–26.** The scholarship significantly reduced the financial burden on his family, allowing him to continue his postgraduate management education without interruption or financial anxiety.
