

Prime Minister shares an article by Union Minister Shri C. R. Paatil highlighting efforts to build climate-resilient water management and ensure water security

Posted On: 22 SEP 2026 1:45PM by PIB Delhi

The Prime Minister, Shri Narendra Modi, has shared an article written by Union Minister, Shri C. R. Paatil.

The Prime Minister noted that water security is a shared responsibility that calls for stronger systems, scientific solutions and Jan Bhagidari. He added that the Union Minister writes on India's efforts to build climate-resilient water management through the Jal Jeevan Mission, Namami Gange, water conservation and technology-driven solutions, providing an insightful perspective on how people's participation, alongside sustained efforts across States and communities, can help secure water for future generations in a sustainable way.

The Prime Minister's Office posted on X:

“Water security is a shared responsibility that calls for stronger systems, scientific solutions and Jan Bhagidari.

Union Minister Shri @CRPaatil writes on India's efforts to build climate-resilient water management through the Jal Jeevan Mission, Namami Gange, water conservation and technology-driven solutions.

An insightful perspective on how people's participation, alongside sustained efforts across States and communities, can help secure water for future generations in a sustainable way.”
