Objectives of the MoU:-

- Under this collaboration, National Skills Qualifications Framework (NSQF)-compliant, industry-oriented training programmes will be conducted in electronics, mobile phones, home appliances, installation, servicing and repair through State-of-the-art training facilities established at the identified Technology Centres by respective TCs.
- Samsung will also provide specialised training, Training of Trainers (ToT), technical support and continuous handholding to ensure quality training delivery.
- The initiative will provide youth with hands-on practical training, industry exposure, career counselling, internships and placement facilitation. Successful trainees will be provided a three-month internship alongwith stipend of ₹12000/month through Direct Benefit Transfer (DBT). Eligible women and Divyangjan trainees will also be supported through scholarships, along with merit-based rewards for outstanding performers

- The programme will initially target 1,600 trainees in the first year, with a gradual increase in subsequent years.
- Besides creating a pool of skilled and industry-ready manpower, the collaboration will strengthen industry-institution linkages and support industries/MSMEs, particularly in meeting their requirements for skilled manpower and technical capabilities in the electronics and home appliances service sectors.
