DELIVERY OF ‘AMINI’ THE ANTI-SUBMARINE WARFARE SHALLOW WATER CRAFT

Posted On: 06 NOV 2026 9:14AM by PIB Delhi

‘Amini’, one of the Anti-Submarine Warfare Shallow Water Craft (ASW SWC), **indigenously designed and built** by Garden Reach Shipbuilders and Engineers (GRSE), Kolkata has been delivered to Indian Navy on **05 Nov 2026.**

The ASW SWCs (ex-GRSE) have been designed and constructed in accordance with the Classification Rules of Indian Register of Shipping (IRS) by GRSE Kolkata.

These ships are one of the largest Indian Naval warships propelled by waterjets and are equipped with state-of-the-art Lightweight Torpedoes, Indigenous Rocket Launchers and Sonars, enabling effective detection and engagement of underwater threats. The ship will further strengthen Navy’s Anti-Submarine, coastal surveillance and mine laying capabilities.

Amini derives its name from **Amini Island in the Union Territory of Lakshadweep.** The ship is also a reincarnation of the erstwhile INS Amini, a Petya III Class Anti-Submarine Warfare Corvette decommissioned in 2002, thereby continuing the naval tradition of perpetuating distinguished legacy names.

The delivery of *Amini* is yet another milestone in the Indian Navy’s pursuit of indigenous shipbuilding, in line with the Government’s vision of ***Aatmanirbhar Bharat***. With **over 80 percent Indigenous Content**, the ship stands as a testament to the growing strength of the domestic defence manufacturing ecosystem and reducing dependency on imports.
