	The scheme shall make investment in derivatives as permitted under the SEBI (MF) regulations. Exposure to equity derivatives of the index or its constituent stocks may be required in certain situations wherein equity shares are unavailable, insufficient or for rebalancing in case of corporate actions within 7 days (or as specified by SEBI from time to time). Investment in derivatives will be upto 20% of the net assets. Subject to the Regulations and the applicable guidelines, the Scheme may engage in Stock Lending activities. The Scheme will participate in stock lending not more than 20% of total Net Assets of the Scheme and would limit its exposure with regard to stock lending for a single intermediary to the extent of 5% of the total net assets at the time of lending. The Scheme shall be considered to be replicating the underlying index, provided: i. The duration of the portfolio of Scheme replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%. ii. ETFs/Index Funds replicating a Constant Maturity index may invest in securities with residual maturity within +/-10% of maturity range of the index. <u>Change in Asset Allocation:</u> The Scheme, in general, will hold all the securities that comprise the underlying Index. Expectation is that, over a period of time, the tracking																				

		error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimise tracking error to the maximum extent possible. If the investments fall outside the asset allocation range given above due to change in constituents of the index as a result of periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days. The proportions mentioned in the asset allocation can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and for defensive considerations only and will be rebalanced within 7 calendar days. As per SEBI Circular No. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022, in case of deviation (passive), the portfolio would be rebalanced within 7 calendar days from the date of deviation. The funds raised under the Scheme shall be invested only in securities as permitted by SEBI (MF) Regulations. Short term defensive consideration: (Consolidated Std. Obs. 23 & 24) Subject to SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2021/024 dated March 04, 2021 and circulars issued thereunder, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time. Portfolio rebalancing in case of passive breach: (Consolidated Std. Obs. 22) In line with para 3.6.7 of SEBI Master Circular dated June 27, 2024, in case of change in constituents of the index due to periodic review, the portfolio of Scheme shall be rebalanced within 7 calendar days. Further, any transactions undertaken in the portfolio of Index Schemes to meet the redemption and subscription obligations shall be done ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time. However, the portfolio will adhere to the overall investment objectives of the Scheme. However, the same will be rectified at the earliest opportunity as may be available, but not later than 7 calendar days, to minimize the tracking error. Timelines for deployment of Funds mobilized in a New Fund Offer (NFO) Pursuant to SEBI Circular dated February 27, 2025, the funds mobilized during the New Fund Offer (NFO) shall be deployed in accordance with the asset allocation pattern of the scheme within 30 business days from the date of allotment of units. In exceptional cases where the AMC is not able to deploy the funds within this period, shall provide an explanation, including
--	--	--

		details of the efforts made to deploy the funds, to the Investment Committee of the AMC. The Investment Committee may extend the deployment timeline by up to 30 business days and shall provide recommendations to ensure timely deployment in the future. Portfolio concentration norms In accordance with clause 3.4 of Master Circular, the Index shall comply with the following portfolio concentration norms: (a) The Index shall have a minimum of 10 stocks as its constituents. (b) No single stock shall have more than 25% weight in the Index. (c) The weightage of the top three constituents of the Index, cumulatively shall not be more than 65% of the Index. (d) The individual constituent of the Index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over the previous six months. The Scheme shall monitor compliance with the aforesaid norms by the Index at the end of every calendar quarter. Further, the updated constituents of the Index will be made available on the website of the Fund.

		Units will be allotted at the Applicable NAV on SIP installment realisation basis. In case the date falls on a Non-Business Day, the immediate next Business Day will be considered for this purpose. In case the fund realised on non-business day of the scheme, the immediate next Business Day will be considered for this purpose. The AMC/ Trustee reserves the right to change / modify the terms and conditions under the SIP prospectively at a future date. SIP Top up facility Investors may avail fixed SIP Top-up facility where they have an option to increase the amount of the SIP Installment by a fixed amount at predefined intervals. SIP Top-up facility shall be available for SIP Investments through ECS (Debit Clearing) / Direct Debit Facility / Standing Instruction only. The Top-up amount should be in multiples of ₹ 100 only. Monthly and quarterly SIP offers top-up frequency at yearly intervals. SIP PAUSE FACILITY The Fund offers Systematic Investment Plan (“SIP”) Pause facility (“the Facility”) for investors who wish to temporarily pause their SIP in the Schemes of the Fund. The terms and conditions of the Facility are as follows: 1. This Facility is available for SIPs with Monthly and Quarterly frequencies. 2. The maximum number of installments that can be paused using this facility are 3 (three) consecutive installments for SIPs registered with Monthly frequency and 1 (one) for SIPs registered with Quarterly frequency. Thereafter, automatically the balance SIP installments (as originally registered) will resume. 3. SIP pause requests should be submitted at least 15 days before the requested start date. 4. SIP Pause once registered cannot be cancelled. 5. The Investor understands and acknowledges that the SIP Pause facility is merely a transaction related facility offered by the Company; and the Investor unconditionally and irrevocably agrees that the AMC or Fund will not be liable for: (i) acting in good faith on any instructions received from the Investor; (ii) any force majeure events that are beyond the control of any person; and (iii) any error, default, delay or inability of the AMC or the Fund or its Agents to act on all or any of the instructions from the Investor. The Investor hereby assumes and undertakes the entire risk of using the Facility and agrees to take full responsibility for the same.

		The AMC/ Trustee reserves the right to change / modify the terms and conditions of the Facility or withdraw the Facility. Systematic Transfer Plan (STP) STP is a facility given to the Unit holders to transfer sums on a periodic basis from one scheme to another schemes launched by the Mutual Fund from time to time by giving a single instruction. Investors can opt for the STP by investing a lump sum amount in one scheme of the fund and providing a standing instruction to transfer sums at regular intervals. <table border="1" data-bbox="651 680 1516 1254"> <thead> <tr> <th>Particulars</th><th>Frequency</th><th>Details</th></tr> </thead> <tbody> <tr> <td rowspan="4">Frequency and Transaction Dates</td><td>Daily</td><td rowspan="4">Every Business Day</td></tr> <tr> <td>Weekly</td></tr> <tr> <td>Fortnightly</td></tr> <tr> <td>Monthly</td></tr> <tr> <td rowspan="4">Minimum number of transfers and minimum amount per STP</td><td>Daily</td><td rowspan="4">₹100/- each per transfer</td></tr> <tr> <td>Weekly</td></tr> <tr> <td>Fortnightly</td></tr> <tr> <td>Monthly</td></tr> </tbody> </table> An investor if choosing 29th, 30th or 31st of a month as the STP date, then the STP date will be automatically considered as the first business day of the following month. If any STP transaction due date falls on a non-Business day, then the respective transactions will be processed on the immediately succeeding Business Day for both the schemes. Default Frequency - Monthly The AMC/ Trustee reserves the right to introduce STPs at any other frequencies or on any other dates as the AMC may feel appropriate from time to time. In the event that such a day is a Holiday, the transfer would be affected on the next Business Day. It may be noted that this facility is subject to the lock-in requirement of the scheme. Systematic Withdrawal Plan (SWP) Unit holders have the benefit of availing the choice of Systematic Withdrawal Plan (SWP). The SWP allows the Unit holder to withdraw a	Particulars	Frequency	Details	Frequency and Transaction Dates	Daily	Every Business Day	Weekly	Fortnightly	Monthly	Minimum number of transfers and minimum amount per STP	Daily	₹100/- each per transfer	Weekly	Fortnightly	Monthly

		specified sum of money each month/quarter/ half-yearly/ yearly from his investments in the Schemes. SWP is ideal for investors seeking a regular inflow of funds for their needs. It is also ideally suited to retirees or individuals, who wish to invest lump sum and withdraw from the investment over a period of time. The amount thus withdrawn by redemption will be converted into Units at Applicable NAV and the number of Units so arrived at will be subtracted from the Units balance to the credit of that Unit holder. The Unit holder may avail of this Option, after the close of the New Fund Offer Period. Unit holders will have the option to change the amount or the period of withdrawals. The SWP may be terminated by a Unit holder and it will terminate automatically if all the Units are liquidated or withdrawn from the account or the holdings fall below ₹ 100/- (subject to the Unit holder failing to invest sufficient funds to bring the value of their holdings to the minimum amount of ₹ 100/- after the completion of SWP, within 30 days after the balance shall have fallen below the minimum holdings) or upon the Mutual Fund's receipt of notification of death or incapacity of the first Unit holder. Default Option : Monthly option Minimum SWP installment size is ₹ 100/- and in multiples of any amount thereafter. Switching Options Unit holders under the Scheme have the option to switch part or all of their Unit holdings in the Scheme to any other Scheme offered by the Mutual Fund from time to time. The Mutual Fund also provides the investors the flexibility to switch their investments from any other scheme(s) / plan (s) offered by the Mutual Fund to this Scheme. This option will be useful to Unit holders who wish to alter the allocation of their investment among the scheme(s) / plan(s) of the Mutual Fund in order to meet their changed investment needs. The Switch will be effected by way of a Redemption of Units from the Scheme at Applicable NAV, subject to Exit Load, if any and reinvestment of the Redemption proceeds into another Scheme offered by the Mutual Fund at Applicable NAV and accordingly the Switch must comply with the Redemption rules of the Switch out Scheme and the Subscription rules of the Switch in Scheme. OTM – ONE TIME MANDATE ('FACILITY') OTM is a simple and convenient facility that enables the Unit holders to transact in the Schemes of the Fund by submitting OTM - One Time Mandate registration with the Fund through e-NACH or UPI autopay facility. It is a one - time registration process wherein the Unit holder(s) of the Scheme(s) of the Fund authorizes his / her bank to debit their account upto a certain specified limit per transaction, on request received from the Fund, as and when the transaction is undertaken by the Unit holder, without the need of submitting cheque or fund transfer letter with every transaction thereafter.

		This Facility is only available to Unit holder(s) of the Fund who have been assigned a folio number by the AMC. Unit Holder(s) are requested to note that the AMC reserves the right to amend the terms and conditions, or modify, or discontinue the Facility for existing as well as prospective investors at any time in future. Transactions through the Stock Exchange Facilitating Transactions through recognized Stock Exchange infrastructure. Process for Investments made in the name of Minor through a Guardian Payment for investment from the bank account of the minor or from a joint account of the minor with the guardian only, else the transaction is liable to get rejected. Unit holders are requested to review the Bank Account registered in the folio and ensure that the registered Bank Mandate is in favour of minor or joint with registered guardian in folio. If the registered Bank Account is not in favour of minor or not joint with registered guardian, unit holders will be required to submit the change of bank mandate, where minor is also a bank account holder (either single or joint with registered guardian), before initiation any redemption transaction in the folio, else the transaction is liable to get rejected. For systematic transactions in a minor's folio, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details and updated bank account details. No further transactions shall be allowed till the status of the minor is changed to major. For detailed disclosure, kindly refer to SAI.
XIX.	Segregated portfolio/side pocketing disclosure (Consolidated Std. Obs. 53)	The Scheme has provided enabling provisions for Creation of Segregated Portfolio in terms of guidelines issued by SEBI from time to time. Please refer to the SAI for the details.
XX.	Stock lending (Standard Observation 6)	Subject to the Regulations and the applicable guidelines, the Scheme may engage in Stock Lending activities. The Scheme will participate in stock lending not more than 20% of total Net Assets of the Scheme and would limit its exposure with regard to stock lending for a single intermediary to the extent of 5% of the total net assets at the time of lending. Please refer to the SAI for more details.

Any amendments / replacement / re-enactment of SEBI (MF) Regulations subsequent to the date of the Scheme Information Document shall prevail over those specified in this Scheme Information Document.

The Scheme under this Scheme Information Document was approved by the Board of Directors of Zerodha Trustee Private Limited (Trustees to Zerodha Mutual Fund) on February 05, 2026. The Trustees have ensured that the scheme

approved is a new product offered by Zerodha Mutual Fund and is not a minor modification to the existing scheme/fund/product. (Standard Observation 25)(Consolidated Std. Obs. 65)

Notwithstanding anything contained in this Scheme Information Document, the provisions of the SEBI (MF) Regulations, guidelines and circulars issued by SEBI from time to time will be applicable. (Standard Observation 22)(Consolidated Std. Obs. 63)

Annexure (scheme related disclosures for schemes covered under MF Lite Framework)

Liquidity / Listing details	On an ongoing basis, the subscription and redemption shall be at NAV based prices on all Business Days. The Fund shall dispatch proceeds of redemption within 03 working days of receiving the valid redemption request. As per SEBI (Mutual Funds) Regulations, the Mutual Fund shall dispatch redemption proceeds within 03 Business Days from the date of redemption. A penal interest of 15% p.a. or such other rate as may be prescribed by SEBI from time to time, will be paid by the AMC in case the redemption proceeds are not dispatched within 03 Business Days from the date of redemption.
NAV disclosure <i>(Standard Observation 17(a))</i> <i>(Consolidated Std. Obs. 41)</i>	Disclosure Timings The NAV will be calculated by the AMC for each Business Day except in special circumstances. AMC shall disclose the NAV for each Business Day as below: 1. On the website of the Fund/AMC (www.zerodhafundhouse.com) - 11.00 P.M. every Business Day. 2. On the website of Association of Mutual Funds in India (AMFI) (www.amfiindia.com) - 11.00 P.M. every Business Day. Computation of NAV (Consolidated Std. Obs. 42) The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding under the Scheme on the valuation date. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time and as Stipulated in the Investment Valuation Policy and Procedures of the Fund, available on the Website. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail. NAV of Units of under the Scheme shall be calculated as shown below: NAV (₹) per Unit = Market or Fair Value of the Scheme's Investments + Current Assets - Current Liabilities and Provisions No. of Units outstanding under each Scheme The NAV of the Scheme will be calculated and disclosed at the close of every Business Day. The NAV of the Scheme will be calculated up to 4 decimal places. Methodology for calculation of sale and repurchase price.

Pursuant to SEBI circular no. *SEBI/HO/IMD/DF2/CIR/P/2018/92* dated June 05, 2018 on “Go Green Initiative in Mutual Funds”, the methodology of calculating the sale and repurchase price of units is explained with an illustration below:

A) Sale Price:

The Sale Price for a valid purchase will be the Applicable NAV of the respective Scheme i.e. Sale Price = Applicable NAV.

For a valid purchase request of ₹ 10,000, where the applicable NAV is ₹ 10, the units will be allotted as below:

Purchase Amount - ₹ 10,000 Applicable NAV - ₹ 10 No. of Units - 1,000 Units (<i>Purchase Amount/Applicable NAV</i>)
--

Please note that the entry load has been abolished with effect from August 01, 2009 vide SEBI Circular no. SEBI/IMD/CIR No. 4/ 168230/09 dated August 01, 2009. Hence, Sale price is equal to the applicable NAV.

B) Repurchase Price:

The Repurchase Price for a valid repurchase will be the applicable NAV reduced by any exit load (say 1%, if redeemed before completion of 1 year). i.e. applicable NAV - (applicable NAV X applicable exit load)

For a valid repurchase request where the applicable NAV is ₹ 10, the repurchase price will be as follows :

Applicable NAV - ₹ 10 Exit Load - 1% = 10 - (10 X 1%) = 10 - (0.1) = ₹ 9.9

Therefore, for the repurchase for 1,000 units, the Investor will receive the proceeds as given below:

No. Of Units - 1,000 Repurchase Price = ₹9.9 = 1000 X 9.9 = ₹ 9,900

	<i>Note: Transaction charges and other charges/expenses, if any, borne by the investors have not been considered in the above illustration(s).</i> The Mutual Fund will ensure that the Redemption Price will not be lower than 95% of the Applicable NAV provided that the difference between the Redemption Price and the Subscription /Purchase Price at any point in time shall not exceed the permitted limit as prescribed by SEBI from time to time, which is currently 5% calculated on the Subscription/ Purchase Price. The Purchase Price shall be at applicable NAV. (Standard Observation 17(b)) (Consolidated Std. Obs. 47) For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. kindly refer to SAI.											
Applicable timelines	<u>Dispatch of redemption proceeds:</u> As per SEBI (MF) Regulations, the Mutual Fund shall dispatch Redemption proceeds within 03 Business Days from date of receipt of valid redemption request from the Unit holder. <u>Dispatch of IDCW:</u> Not Applicable.

SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated December 31, 2024, the AMC shall annually set apart 5% of total TER charged to direct plans, subject to maximum of 0.5 bps of AUM for passive schemes as defined under the circular dated December 31, 2024, within the limits of total expenses prescribed under Regulation 52 of SEBI (MF) Regulations for investor education and awareness initiatives undertaken.</i> ³ <i>Refer Point (3) below on GST on various expenses.</i> ⁴ <i>The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively.</i> <i>The purpose of the above table is to assist the Investor in understanding the various costs and expenses that an Investor in the Plan(s) under the Scheme will bear directly or indirectly. The figures in the table above are estimates. The actual expenses that can be charged to the Scheme will be subject to limits prescribed from time to time under the SEBI (MF) Regulations.</i> GST As per Para B of the SEBI circular no. CIR/IMD/DF/21/2012 dated September 13, 2012, GST shall be charged as follows: - - GST on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations. - GST on other than investment management and advisory fees, if any, shall be borne by the Scheme within the maximum limit of TER as prescribed in Regulation 52 (6) of the SEBI (MF) Regulations.		

- c. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under Regulation 52 of the SEBI (MF) Regulations.

The total expenses of the Scheme including the Investment Management and Advisory Fee shall not exceed the limits stated in Regulation 52 of the SEBI (MF) Regulations.

The mutual fund would update the current expense ratios on the website (www.zerodhafundhouse.com) at least three working days prior to the effective date of the change and update the TER under the Section titled “Statutory Disclosures” under the sub-section titled “Total Expense Ratio of Mutual Funds”.

Illustration: Impact of Expense Ratio on Scheme's return (Consolidated Std. Obs. 44)

Expense ratio, normally expressed as a percentage of Average Assets under Management, is calculated by dividing the permissible expenses under the Regulations by the average net assets.

To further illustrate the above, for the Scheme under reference, suppose an Investor invested ₹10,000/- (after deduction of stamp duty) under the Direct Plan, the impact of expenses charged will be as under:

Particulars	Direct Plan
Amount invested at the beginning of the year (₹)	10,000
Returns before expenses (₹)	1,500
Expenses (₹)	150
Returns after expenses at the end of the year (₹)	1,350
Returns (per annum in %)	13.5%

Note(s):

- The purpose of the above illustration is to purely explain the impact of expense ratio charged to the Plan(s) under the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to seek appropriate advice.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of AMC, its associate, sponsor, trustees or any other entity through any route in terms of SEBI circulars, subject to the clarifications provided by SEBI to AMFI vide letter dated February 21, 2019 on

Definitions	In this Scheme Information Document, the words and expressions shall have the meaning specified in the following link, unless the context otherwise requires. https://assets.zerodhafundhouse.com/statutory-reports/other-disclosures/Definitions%20&%20Abbreviations.pdf
Risk factors	<u>Standard Risk Factors</u> - Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. - As the price/ value/ interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets. - Past performance of the Sponsors and their affiliates / AMC / Mutual Fund does not guarantee future performance of the Scheme of the Mutual Fund. - The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns. - The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of ₹ 1 lakh each made by them towards setting up the Fund. - The present Scheme is not a guaranteed or assured return Scheme. <u>Scheme specific risk factors:</u> <i>(Consolidated Std. Obs. 8) (Standard Observation 02)</i> The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following: <u>Tracking Error & Tracking Difference Risk</u> <i>(Consolidated Std. Obs. 10)(Consolidated Std. Obs. 39)</i> The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance, changes to the underlying index, regulatory restrictions and lack of liquidity which may result in Tracking Error. Hence it may affect Scheme's ability to achieve close correlation with the underlying index of the

	Scheme. The Scheme's returns may therefore deviate from its underlying index. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. Tracking errors are inherent in any index fund and such errors may cause the scheme to generate returns which are not in line with the performance of the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index or one or more securities covered by / included in the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index and may arise from a variety of factors including but not limited to: 1. Any delay in the purchase or sale of securities due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of dividend, etc. 2. The index reflects the prices of securities at a point in time, which is the price at close of business day on the stock exchange. The scheme, however, may trade the securities at different points in time during the trading session and therefore the prices at which the scheme trades may not be identical to the closing price of each scrip on that day on the respective stock exchange. In addition, the scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance from the closing price considered in the Index. 3. The potential of trades to fail may result in the scheme not having acquired the security at the price necessary to mirror the index. 4. Transaction and other expenses, such as but not limited to brokerage, custody, trustee and investment management fees. 5. Being an open-ended passive scheme, the scheme may hold appropriate levels of cash or cash equivalents to meet ongoing redemptions. The scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to circuit filters in the securities, liquidity and volatility in security prices. The tracking error of the scheme based on past one year rolling data shall not exceed 2%. In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMCs/ Mutual Fund, the tracking error may exceed 2% and the same shall be brought to the notice of Trustees with corrective actions taken by the AMC, if any. The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data. <u>Risks associated with Equity and Equity Related Instruments:</u> Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as price volatility, volumes traded, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected. Equity and equity related instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended
--	--

	significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, if there is a subsequent decline in the value of securities held in the Scheme's portfolio. Investments in equity and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment. <u>Risk factors associated with processing of transactions through Stock Exchange Mechanism</u> The trading mechanism introduced by the Stock Exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other authorised Stock Exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing /settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized Stock Exchange(s). Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of units. The Fund and the AMC are not responsible for the negative impacts. <u>Risks associated with segregated portfolio:</u> The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange. The risks associated in regard to the segregated portfolio are as follows: • The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer. • The security comprising the segregated portfolio may not realise any value. • Listing units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange. • The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio. <u>Risks associated with Debt and Money Market Instruments or Fixed Income Securities</u> <u>Credit Risk:</u> This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.
--	---

	<u>Price-Risk or Interest-Rate Risk:</u> From the perspective of coupon rates, debt securities can be classified in two categories, i.e. Fixed Income Bearing securities and floating rate securities. In Fixed Income bearing securities, the coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill. Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof. However, debt securities in the scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure. Floating rate securities issued by a government have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimising interest rate risk on a portfolio. <u>Reinvestment Risk:</u> Investments in fixed income securities carry reinvestment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond. <u>Basis Risk:</u> The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements. This may result in loss of value of the portfolio. <u>Spread Risk:</u> In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. During the tenure of the security this spread may move adversely or favourably leading to fluctuations in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security. <u>Legislative Risk:</u> Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the scheme. <u>Risk of Rating Migration:</u> It may be noted that the price of a rated security would be impacted with the change in rating and hence, there is risk associated with such migration. <u>Prepayment risk:</u> Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

	Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated. <u>Risks associated with investing in Tri Party Repo through CCIL (TREPS)</u> The mutual fund is a constituent member of the securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilised to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall". As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilisation of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members. Thus, the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member). Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral. <u>Risks associated with investing in Long term Government of India Securities</u> <u>Interest rate risk:</u> When interest rates rise, bond prices fall; conversely, when rates decline, bond prices rise. The longer the time to a bond's maturity, the greater will be its interest rate risk. Since the scheme would invest in government securities having maturity from 8 years to 13 years, interest rate risk would remain. <u>Inflation risk:</u> Inflation causes tomorrow's money to be worth less than today's; in other words, it reduces the purchasing power of a bond investor's future interest payments and principal, collectively known as "cash flows." Inflation also leads to higher interest rates, which in turn leads to lower bond prices. <u>Legislative risk:</u> The risk that a change in the tax code could affect the value of taxable or tax-exempt interest income. <u>Risk associated with Derivatives</u> (Consolidated Std. Obs. 28) (Standard Observation 5) Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon
--	--

	the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and the decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments. Trading in derivatives has the following risks: 1. An exposure to derivatives in excess of the hedging requirements can lead to losses. 2. An exposure to derivatives, when used for hedging purpose, can also limit the profits from a genuine investment transaction. 3. Derivatives carry the risk of adverse changes in the market price. 4. Illiquidity Risk i.e., risk that a derivative trade may not be executed or reversed quickly enough at a fair price, due to lack of liquidity in the market. The Fund may use derivatives instruments like equity futures & options, or other derivative instruments as permitted under the Regulations and Guidelines. Usage of derivatives will expose the Scheme to liquidity risk, open position risk, and opportunities risk etc. Such risks include the risk of mispricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. In case of the derivative strategies, it may not be possible to square off the cash position against the corresponding derivative position at the exact closing price available in the Value Weighted Average Period. Debt derivatives instruments like interest rate swaps, forward rate agreements or other derivative instruments also involve certain risks. <u>Risk associated with Securities Lending (Standard Observation 6)</u> Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon. The AMC shall adhere to the following limits should it engage in Stock Lending: 1. Not more than 20% of the net assets of a Scheme can generally be deployed in Stock Lending. 2. Not more than 5% of the net assets of a Scheme can generally be deployed in Stock Lending to any single approved intermediary / counterparty. <u>Risk Mitigation Strategies (Consolidated Std. Obs. 09)</u> The Scheme aims to track the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index TRI before expenses. The Index is tracked on a regular basis and changes to the constituents or their weights, if any, are replicated in the Underlying Portfolio with the purpose of minimising tracking errors. Investments in equity, debt and money market securities carry various risks such as but not limited to the ones mentioned above. While such risks cannot
--	--

be eliminated, they may be mitigated by diversification. In order to mitigate the various risks, the portfolio of the Scheme will be constructed in accordance with the investment restriction specified under the Regulations which would help in mitigating certain risks relating to investments in the securities market.

The AMC incorporates necessary framework in place for risk mitigation at an enterprise level, and scheme level in accordance with the Risk Management Framework prescribed by the SEBI. The Risk Management division of the AMC is an independent division within the organisation. Internal risk thresholds are defined and judiciously monitored. Risk indicators on various parameters are computed and are monitored on a regular basis. The Risk Management Committee of the Board enables a dedicated focus on risk factors and the relevant risk mitigants from time to time.

Equity Investments **(Standard Observation 5)**

Risk & Description	Risk mitigants / management strategy
Market Risk: The Scheme is vulnerable to movements in the prices of securities invested by the Scheme, which could have a material bearing on the overall returns from the Scheme.	Market risk is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.
Liquidity risk: The liquidity of the Scheme's investments is inherently restricted by the trading volumes in the securities in which the scheme invests as per the Underlying Index.	As such the liquidity of securities that the scheme invests into could be relatively low. The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time.
Volatility risk: The equity markets and derivative markets are volatile and the value of securities, derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.	Over 95% of the scheme will invest in securities in line with the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index and will thus have a similar volatility profile as the index. The volatility of the debt & money market portion of the portfolio will be controlled by diversification.
Derivative risk: As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bond.	The investment managers will invest only in exchange traded derivatives and the investment shall be in line with guidelines and regulatory limits as specified by regulators & scheme documents. No investment will be made in OTC derivative contracts for equity derivatives.
Concentration risk: The risk of the scheme investing heavily in a particular sector, asset class, or a small number of	Over 95% of the scheme will invest in securities in line with the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30

	companies. If that specific area underperforms, the fund's value can suffer disproportionately.	Index and will thus have a similar concentration profile as the index. The concentration of the debt & money market portion of the portfolio will be controlled by diversification.
	Tracking Error: The performance of the Scheme may not be commensurate with the performance of the benchmark index on any given day or over any given period, referred to as tracking error.	The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimise tracking error to the maximum extent possible. The investment manager will endeavour to maintain low cash levels to minimise tracking error.
	Securities Lending: Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.	All securities lending and borrowing transactions are carried out through the SLB platform of the recognized stock exchanges. The Scheme adheres to the limits prescribed by SEBI for securities lending.
	Processing of transactions through Stock Exchange Mechanism: transactions conducted through the Stock Exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized Stock Exchange(s). Accordingly, there could be negative impacts to the investors such as delay or failure in allotment / redemption of units.	The AMC has established appropriate internal controls, monitoring mechanisms, and reconciliation processes to manage risks associated with transactions processed through the Stock Exchange mechanism.
<u>Debt Investments</u>		
Risk & Description		Risk mitigants / management strategy
Market Risk/Interest Rate Risk: As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-Term securities. Indian debt markets can be volatile leading to the possibility of price		In a rising interest rate scenario, the Scheme may increase its investment in money market securities whereas if the interest rates are expected to fall, the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.

	movements up or down in fixed income securities and thereby to possible movements in the NAV.	
	Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Normally, the value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.	Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken to review its ability to undergo stress on cash flows and asset quality. A detailed evaluation of accounting policies, off-balance sheet exposures, notes, auditors' comments and disclosure standards will also be made to assess the overall financial risk of the potential borrower. In case of securitized debt instruments, the Scheme will ensure that these instruments are sufficiently backed by assets.
	Liquidity risk: This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM)	The Scheme may invest in government securities, corporate bonds and money market instruments. While the liquidity risk for government securities, money market instruments and short maturity corporate bonds may be low, it may be high in case of medium to long maturity corporate bonds
	Reinvestment risk: This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.	Reinvestment risk will only apply to the small portion of the portfolio made up of coupon payments from debt instruments, thus limiting its overall impact.
	Debt and Money Market instruments: Debt and Money Market Instruments or Fixed Income Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.	• Risk of Rating Migration: TREPS and Sovereign securities do not have rating and other eligible money market instruments and overnight funds the scheme have time to maturity lower than 91 days which results in a very low probability of rating migration. This risk is generally associated with long-term securities. • Basis Risk: Securities invested in are fixed rate securities and hence basis risk does not apply. This risk is generally associated

		with floating rate securities and has a higher bearing on long-term securities. • Spread Risk: Securities invested in are fixed rate securities and hence spread risk does not apply. This risk is generally associated with floating rate securities and has a higher bearing on long-term securities. • Legislative Risk: The Fund Manager maintains the flexibility to rebalance the portfolio in response to policy shifts (e.g., changes in sector-specific subsidies or import/export duties) to protect the scheme's capital and optimize returns. • Prepayment risk: To mitigate prepayment risk, the Investment Manager shall undertake prudent evaluation of securities may prefer instruments with lower prepayment probability where appropriate. The portfolio shall be adequately diversified across issuers and maturities, with active duration management aligned to the interest rate outlook to reduce reinvestment risk. Inflation risk: The Scheme may allocate to instruments with relatively shorter maturities, floating rate securities, or other instruments that are better positioned in a rising interest rate environment, where permitted under the investment mandate.
	Segregated Portfolio: The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer. The security comprising the segregated portfolio may not realise any value.	In such an eventuality it will be AMC's endeavour to realise the segregated holding in the best interest of the investor at the earliest.
	Risks associated with investing in Tri Party Repo through CCIL (TREPS): The scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the	As a member of the securities segment and Tri Party repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades, etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is

	other clearing member (the defaulting member). guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Index methodology/ Details of underlying fund in case of Fund of Funds	Index Methodology The Benchmark for the Scheme is Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index. The Scheme proposes to invest in a blend of equity and the fixed income instruments, which are constituents of the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index. Hence, it is an appropriate benchmark for the Scheme. Further, a Total Returns Index reflects the returns on the index from index gain/loss plus dividend payments by constituent index stocks. The performance will be benchmarked to the Total Returns Variant of the Index. The Trustee reserves the right to change the benchmark for evaluation of performance of the Scheme from time to time in conformity with the investment objectives and appropriateness of the benchmark subject to SEBI (MF) Regulations, and other prevailing guidelines, if any by suitable notification to investors to this effect. <u>Highlights</u> Index rebalancing: Weights of the equity and fixed income sub-indices can drift between monthly reset dates due to underlying asset price movement. These weights are reset to their pre-defined levels on a monthly basis. Base Date: January 03, 2011 Base Value: 1000 About the Index : Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index designed to measure the performance of a hybrid portfolio having 70% exposure to the Nifty LargeMidcap 250 Index and 30% exposure to the Nifty 8-13 yr G-Sec Index. Index service provider: NSE Indices Limited (NSE Indices), a subsidiary of NSE Strategic Investment Corporation Limited was setup in May 1998 to provide a variety of indices and index related services and products for the Indian capital markets. NSE Indices provides a broad range of services, products and professional index services. Portfolio concentration norms In accordance with clause 3.4 of Master Circular, the Index shall comply with the following portfolio concentration norms: (a) The Index shall have a minimum of 10 stocks as its constituents. (b) No single stock shall have more than 25% weight in the Index. (c) The weightage of the top three constituents of the Index, cumulatively shall not be more than 65% of the Index. (d) The individual constituent of the Index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over the previous six months. The Scheme shall monitor compliance with the aforesaid norms by the Index at the end of every calendar quarter.

Further, the updated constituents of the Index will be made available on the website of the Fund.

	The redemption proceeds will be credited to the bank account of the Unitholder, as per the bank account details recorded with the DP. Units will be redeemed on First In First Out (FIFO) basis. Redemption requests may not be processed if KYC compliant status is not updated in the folio.
Bank Mandate (Standard Observation 19) (Consolidated Std. Obs. 61)	As per the directives issued by SEBI, it is mandatory for applicants to mention their bank account numbers in their applications and therefore, investors are requested to fill-up the appropriate box in the application form failing which applications are liable to be rejected. Multiple Bank Account Registration The AMC/ Mutual Fund provides a facility to the investors to register multiple bank accounts (currently upto 5 for Individuals and 10 for Non - Individuals) for receiving redemption by providing necessary details. Investors must specify any one account as the "Default Bank Account". The investor, may however, specify any other registered bank account for credit of redemption proceeds at the time of requesting for redemption. Change in Bank Account The facility for change in Bank Account for the Units held in demat mode is available. The investors are requested to reach out to the respective Depository Participant.
Delay in payment of redemption/ repurchase proceeds/dividend	The AMC shall be liable to pay interest to the unitholders at rate as specified vide clause 14.2 of SEBI Master Circular for Mutual Funds dated June 27, 2024 by SEBI for the period of such delay.
Unclaimed Redemption and Income Distribution cum Capital Withdrawal Amount (Consolidated Std. Obs. 52)	As per the Clause 14.3 of SEBI Master Circular SEBI/HO/IMD/IMD-PoD1/P/CIR/2024/90 dated June 27, 2024, the unclaimed Redemption and dividend amounts shall be deployed by the Fund in call money market or money market instruments and in a separate plan of Liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. The investment management fee charged by the AMC for managing such unclaimed amounts shall not exceed 50 basis points. The AMCs shall not be permitted to charge any exit load in this plan. Provided that such schemes where the unclaimed redemption and IDCW amounts are deployed shall be only those Overnight scheme/ Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix. The investors who claim these amounts during a period of three years from the due date shall be paid at the prevailing NAV. After a period of three years, this amount can be transferred to a pool account and the investors can claim the said amounts at the NAV prevailing at the end of the third year. In terms of the circular, the onus is on the AMC to make a continuous effort to remind investors through letters to take their unclaimed amounts. The website of Zerodha Mutual Fund also provides information on the process of claiming the unclaimed amount and the necessary forms / documents required for the same. The details of such unclaimed amounts are also disclosed in the annual report sent to the Unit Holders. <i>Important Note: All applicants must provide a bank name, bank account number, branch address, and account type in the Application Form</i> For further details, refer to SAI.

Disclosure investment by minors	w.r.t	<u>Process for Investments made in the name of Minor through a Guardian</u> Payment for investment from the bank account of the minor or from a joint account of the minor with the guardian only, else the transaction is liable to get rejected. Unit holders are requested to review the Bank Account registered in the folio and ensure that the registered Bank Mandate is in favour of minor or joint with registered guardian in folio. If the registered Bank Account is not in favour of minor or not joint with registered guardian, unit holders will be required to submit the change of bank mandate, where minor is also a bank account holder (either single or joint with registered guardian), before initiation any redemption transaction in the folio, else the transaction is liable to get rejected. For systematic transactions in a minor's folio, AMC will register standing instructions till the date of the minor attaining majority, though the instructions may be for a period beyond that date. Upon the minor attaining the status of major, the minor in whose name the investment was made, shall be required to provide all the KYC details and updated bank account details. No further transactions shall be allowed till the status of the minor is changed to major.

What are the investment restrictions? (Standard Observation 11)		As per the Regulations, the following investment restrictions are currently applicable to the Scheme (all investment restrictions shall be applicable at the time of making investment): - The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. - The mutual fund shall get the securities purchased or transferred in the name of the mutual fund on account of the Scheme, wherever investments are intended to be of long-term nature. - Save as otherwise expressly provided under SEBI (MF) Regulations, the Mutual Fund shall not advance any loans for any purpose. - As per SEBI (MF) Regulations, the mutual fund under all its Scheme(s) will not own more than 10% of any company's paid-up capital carrying voting rights. Provided that the Sponsor of the Fund, its associate or group company including the asset management company of the Fund, through the Scheme(s) of the Fund or otherwise, individually or collectively, directly or indirectly, shall not have 10% or more of the shareholding or voting rights in the asset management company or the trustee company of any other mutual fund. Provided further that in the event of a merger, acquisition, scheme of arrangement or any other arrangement involving the sponsors of the mutual funds, shareholders of the asset management companies or trustee companies, their associates or group companies which results in the incidental acquisition of shares, voting rights or representation on the board of the asset management companies or trustee companies beyond the above specified limit, such

	exposure may be rebalanced within a period of one year of coming into force of such an arrangement. - The Scheme shall only invest in equity shares or equity related instruments which are listed or to be listed. - The Scheme shall not make any investment in: • Any unlisted security of an associate or group company of the Sponsor; or • Any security issued by way of private placement by an associate or group company of the Sponsor; or • The listed securities of group companies of the Sponsor, which is in excess of 25% of the net assets of the Scheme of the Fund. • any fund of funds Scheme. - The cumulative gross exposure through all permissible investments viz. equity, debt and money market positions should not exceed 100% of the net assets of the Scheme. - The Scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments. Provided that the Scheme may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the Scheme subject to such conditions as may be specified by SEBI from time to time. Provided further that the Scheme shall comply with the norms under the above clauses within the time and in the manner as may be specified by SEBI. Provided further that the norms for investments by the Scheme in unrated debt instruments shall be as specified by SEBI from time to time. - Further, the Scheme shall comply with provisions of SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/ 2019/104 dated October 1, 2019 regarding investment in Debt and Money Market Instruments, as amended from time to time, to the extent applicable to the Scheme. - The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company. Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and Tri-Party Repos. Provided further that investment within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board. Considering the nature of the Scheme, investments in such instruments will be permitted up to 5% of its NAV. - The Scheme shall invest in Debt instruments having Structured Obligations/ Credit Enhancements in accordance with provisions of SEBI Circular No. SEBI/HO/

	IMD/DF2/CIR/P/ 2019/104 dated October 1, 2019 as may be amended by SEBI from time to time. The same are currently as under: The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme: - Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and - Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade. For this purpose, a group means a group as defined under regulation 2 (mm) of the Regulations and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates. However, the above Investment limits shall not be applicable on investments in securitized debt instruments, as defined in SEBI (Public Offer and Listing of Securitised Debt Instruments) Regulations 2008. Investment in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares. - Transfer of investments from one Scheme to another Scheme in the same mutual fund, shall be allowed only if: - such transfers are made at the prevailing market price for quoted Securities on spot basis. <i>Explanation: spot basis shall have the same meaning as specified by Stock exchange for spot transactions.</i> Provided that inter scheme transfer of money market or debt security (irrespective of maturity) shall take place based on prices made available by valuation agencies as prescribed by SEBI from time to time. - the securities so transferred shall be in conformity with the investment objective of the Scheme to which such transfer has been made. - inter Scheme Transfers are affected in accordance with the guidelines specified by SEBI circular No. SEBI/ HO/ IMD/DF4/CIR/P/2020/202 dated October 08, 2020 as amended from time to time. (Consolidated Std. Obs. 30) - The Scheme may invest in other scheme(s) under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all Schemes under the same AMC or in Schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. Further, the Scheme shall not invest in any fund of funds scheme. - Pending deployment of funds of the Scheme in securities in terms of the investment objectives of the Scheme, the Fund may invest the funds of the Scheme in short term deposits of scheduled commercial banks subject to the following guidelines as specified by SEBI:
--	--

- “Short Term” for parking of funds shall be treated as a period not exceeding 91 days.
- Short Term deposits shall be held in the name of the Scheme.
- Total investment of the Scheme in short term deposit(s) of all the Scheduled Commercial Banks put together shall not exceed 15% of the net assets. However, this limit can be raised up to 20% of the net assets with prior approval of the Board of Trustees.
- Investments in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- The Scheme shall not invest more than 10% of the net assets in short term deposit(s) of any one scheduled commercial bank including its subsidiaries.
- The Scheme shall not invest in short term deposits of a bank which has invested in the Scheme. Trustees/ AMC shall also take steps to ensure that a bank in which the Scheme has short term deposit does not invest in the Scheme until the Scheme has short term deposit with such bank.
- No investment management and advisory fees will be charged for such investments in the Scheme.
- The aforesaid limits shall not be applicable to term deposits placed as margin for trading in the cash market.
- However, the period for ‘pending deployment’ as stated above for the Scheme shall not exceed 7 days.

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

As per Clause 1 of the Seventh Schedule of MF Regulation, the Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company.

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

Provided that above limit shall not be applicable for investments in Government Securities, treasury bills and tri party repo on Government securities or treasury bills.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the SEBI from time to time.

	1. The Scheme may invest in another scheme under the same AMC without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. 2. The Scheme shall not make any investments in: a. any unlisted security of an associate or group company of the Sponsors; or b. any security issued by way of private placement by an associate or group company of the Sponsors; or c. the listed securities of group companies of the Sponsors which is in excess of up to 25% of the net assets. 3. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if: a. such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.) b. the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made. c. IST purchases would be allowed subject to the guidelines as specified in SEBI Circular SEBI/HO/IMD/DF4/CIR/P/2020/202 dated October 08, 2020. 4. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities. Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard. 5. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months. 6. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form. 7. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature. 8. In accordance with the guidelines as stated under SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2019/104 dated October 01, 2019, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable: i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.
--	--

	ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed. iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular: a. Investments should only be made in such instruments, including bills rediscounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder. b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees. 9. Pursuant to SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022 replication of the Index by the Scheme shall be as follows: i. The duration of the portfolio of ETF/ Index Fund replicates the duration of the underlying index within a maximum permissible deviation of +/- 10%. ii. ETFs/Index Funds replicating a Constant Maturity index may invest in securities with residual maturity within +/- 10% of maturity range of the index. iii. In case of Target Maturity (or Target Date) ETFs/ Index Funds, the following norms for permissible deviation in duration shall apply: a) For portfolio with residual maturity of greater than 5 years: Either +/- 6 months or +/- 10% of duration, whichever is higher. b) For a portfolio with residual maturity of up to 5 years: Either +/- 3 months or +/- 10% of duration, whichever is higher. c) However, at no point of time, the residual maturity of any security forming part of the d) portfolio shall be beyond the target maturity date of the ETF/ Index Fund. iv. For an index based on G-Sec and SDLs, a single issuer limit shall not be applicable. The Scheme shall endeavour to follow the guidelines prescribed under SEBI Circular no. SEBI/HO/IMD/DOF2/P/CIR/2022/69 dated May 23, 2022 and circular issued thereunder from time to time. These investment restrictions shall be applicable at the time of investment. Changes, if any, do not have to be effected merely because, owing to appreciating or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any Schemes of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, AMC shall as soon as possible take appropriate corrective action, taking into account the interests of the Unit holders. In addition, certain investment parameters may be adopted internally by AMC, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / AMC may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for Mutual Funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996.
--	--

	The AMC / Trustee may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations. Further, apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund may follow any internal norms vis-à-vis restricting / limiting exposure to a particular scrip or sector, etc. (Standard Observation 13) (Consolidated Std. Obs. 19)

Fundamental Attribute (Standard Observation 8) (Consolidated Std. Obs. 59)	Following are the fundamental attributes of the Scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations: (i) Type of scheme: An open-ended scheme replicating/tracking Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index (ii) Investment Objective:(Consolidated Std. Obs. 26) a) Main Objective - Passive investment in securities replicating the composition of the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index, subject to tracking errors. There is no assurance or guarantee that the investment objective of the scheme would be achieved. (iii) Terms of Issue: a) Liquidity provisions such as listing, repurchase, redemption. Please refer to the section "Other Scheme Specific Disclosures." b) Aggregate fees and expenses charged to the Scheme. Please refer, section "Breakup of Annual Scheme Recurring expenses" c) Any safety net or guarantee provided - Not applicable. Change in Fundamental Attributes: In accordance with Regulation 18 (15A) of the SEBI (Mutual Funds) Regulations, the Trustee shall ensure that no change in the fundamental attributes of the Scheme and the Option thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme and the Option thereunder and affect the interest of Unit holders is carried out unless AMC complies with sub-regulation (26) of Regulation 25 of the SEBI (MF) Regulations.: Further, in accordance with Regulation 25 (26) of the SEBI (MF) Regulations, the AMC shall ensure that no change in the fundamental attributes of the Scheme or the trust or fee and expenses payable or any other change which would modify the Scheme and affect the interests of Unitholders shall be carried out unless: - A written communication about the proposed change is sent to each Unit holder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated. - The Unit holders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any Exit Load. In addition to the above, for bringing change in the fundamental attributes of the scheme, the comments shall be taken from SEBI before bringing such change(s).
Where will the Scheme Invest? (Consolidated Std. Obs. 29) (Standard Observation 15)	The corpus of the scheme will be invested in the securities covered by Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index, debt, money market instruments, which will include but not limited to: 1) Equity and Equity related instruments and other instruments as may be permitted by SEBI from time to time. 2) Debt and Money Market Instruments: a) Tri-party repo (TREPS) b) Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions

	c) Commercial Paper (CP) d) Treasury Bill (T-Bill) e) Repo f) Securities created and issued by the Central and State Governments g) Non-convertible debentures and bonds h) Floating rate debt instruments i) Investment in Short Term Deposits
What are the investment strategies? (Consolidated Std. Obs. 27 & 28) (Standard Observation 07)	The Scheme is a passively managed index fund, which endeavors to invest in Securities in proportion to the weightage of the securities in the Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index. The investment strategy would revolve around reducing the tracking error to the least possible extent through regular rebalancing of the portfolio, taking into account the change in weights of securities in the Index as well as the incremental collections/redemptions in the Scheme. Such rebalancing shall be done in accordance with timelines prescribed by SEBI from time to time. A part of the funds may be invested in debt and money market instruments, to meet the liquidity requirements. The Scheme may also invest in the schemes of Mutual Funds in terms of the prevailing SEBI (MF) Regulations. Though every endeavor will be made to achieve the objective of the Scheme, the AMC/Sponsors/Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme. INVESTMENT STRATEGY: The investment objective of the scheme is to achieve a return equivalent to Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index by investing in securities of companies comprising Nifty LargeMidcap250 Plus 8-13 yr G-Sec 70:30 Index. The net assets of the scheme will be invested predominantly in securities constituting the Nifty LargeMidcap 250 Hybrid 8-13 Yr Gsec 70:30 Index. This would be done by investing in all securities with the same weightage that they represent in the Nifty LargeMidcap 250 Hybrid 8-13 Yr Gsec 70:30 Index. The performance of the Scheme may not be commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by effectively replicating the portfolio in line with the index. However, there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund. DEBT AND MONEY MARKET INVESTMENT STRATEGY: (Consolidated Std. Obs. 13) A small portion of the net assets will be held as cash or will be invested in debt and money market instruments permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme. STRATEGIES FOR INVESTMENT IN DERIVATIVES:

	The Scheme may take derivatives positions based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme. The Scheme intends to use derivatives mainly for the purpose of hedging and portfolio balancing. Losses may arise as a result of using derivatives, but these are likely to be compensated by the gains on the underlying cash instruments held by the Scheme. The Scheme will not assume any leveraged exposure to derivatives. Derivatives can be traded over the exchange or can be structured between two counterparties.
