Portfolio Rebalancing due to Short Term Defensive Consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view applicable regulations and political and economic factors. In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table above, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations as per para 1.9.1(b) of SEBI Master Circular on Mutual Funds. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days, in accordance with Para 4.5.5 Master Circular on Mutual Funds.

Portfolio Rebalancing due to Passive Breach:

In accordance with para 4.5.5 of SEBI Master Circular on Mutual Funds, in case of change in constituents of the index due to periodic review, the portfolio of fund shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio of fund in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Additionally, in the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 calendar days from the date of allotment/ listing.

Timelines for deployment of funds collected in NFO –

In line with clause 7.24 of SEBI Master circular on Mutual Fund funds collected in new fund offer shall be deployed as per following manner:

1. The AMC shall deploy the funds garnered in an NFO within 30 business days from the date of allotment of units.
2. In an exceptional case, if the AMC is not able to deploy the funds in 30 business days, reasons in writing, including details of efforts taken to deploy the funds, shall be placed before the Investment Committee of the AMC.
3. The Investment Committee may extend the timeline by 30 business days, while also making recommendations on how to ensure deployment within 30 business days going forwa the same. The Investment Committee shall examine the root cause for delay in deployment before granting approval for part or full extension. The Investment Committee shall not ordinarily give part or full extension where the assets for any scheme are liquid and readily available.

Std. Obs. 22, 23 & 24

4. In case the funds are not deployed as per the asset allocation mentioned in the SID as per the aforesaid mandated plus extended timelines, AMC shall:
   (i) not be permitted to receive fresh flows in the same scheme till the time the funds are deployed as

per the asset allocation mentioned in the SID.

(ii) not be permitted to levy exit load, if any, on the investors exiting such scheme(s) after 60 business days of not complying with the asset allocation of the scheme.

(iii) inform all investors of the NFO, about the option of an exit from the concerned scheme without exit load, via email, SMS or other similar mode of communication.

(iv) report deviation, if any, to Trustees at each of the above stages.

B. WHERE WILL THE SCHEME INVEST

The scheme would invest in the securities comprising the constituents of Nifty500 Growth 50 Index in the same proportion (weights) as in the index and track the benchmark index. The scheme may also invest in the money market instruments, in compliance with regulation to meet liquidity requirements.

Subject to the Regulations and other prevailing Laws as applicable, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

Std. Obs. 29

- Equity and Equity related instruments including derivatives (The Scheme may take exposure to equity derivatives of the index itself or its constituent stocks may be undertaken when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period. Other than for above purposes, the Scheme will not invest in Equity Derivatives)
- Money market instruments, Other Liquid instruments and Units of mutual fund schemes
- Units of Mutual Fund (only in units of domestic overnight funds, Liquid funds and Money Market Mutual Funds). The scheme will not invest in units of any SIF.
- Any other instruments as may be permitted by RBI/SEBI under prevailing laws from time to time.

The investment restrictions and the limits are specified in the Schedule VI of SEBI Regulations which is mentioned in the section 'Investment Restrictions'. The Securities mentioned above could be listed, to be listed, secured, unsecured, rated or unrated and of any maturity. The Securities may be acquired through initial public offerings, secondary market operations, and rights offers or negotiated transactions.

For detailed derivatives strategies, please refer SAI.

For detailed information kindly refer Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES

Std. Obs. 27

The Scheme follows a passive investment strategy and seeks to invest in the constituents of the Nifty500 Growth 50 Index. The scheme aims to achieve returns equivalent to the benchmark subject to tracking error.

The scheme would also invest in Units of Liquid Schemes and Money market instruments, Other Liquid instruments and Units of mutual fund schemes as may be provided by RBI to meet the liquidity requirements as stated in the asset allocation table.

Investment in Derivatives
The Scheme may take an exposure to equity derivatives of constituents of the Underlying Index when securities of the Index are unavailable, insufficient or for rebalancing at the time of change in Index or in case of corporate actions, for a short period of time. The total exposure to derivatives would be restricted to 20% of the net assets of the Scheme.

The Scheme may use derivative instruments such as stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

Securities Lending
Subject to the SEBI Regulations as applicable from time to time, the Scheme may, participate in securities lending.

Investment of Subscription Money:
In accordance with clause 1.7.3 of SEBI Master Circular on Mutual Fund, the Mutual Fund may deploy NFO proceeds in Triparty repo on Government securities or treasury bills before closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in triparty repo on Government securities or treasury bills during the NFO period. The appreciation received from investment in triparty repo on Government securities or treasury bills shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the Scheme during the NFO period, the interest earned upon investment of NFO proceeds in triparty repo on Government securities or treasury bills shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

Portfolio Turnover
Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. The Scheme, being an open ended Scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. However, it is difficult to measure with reasonable accuracy the likely turnover in the portfolio of the Scheme.

Tracking Error
Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, lack of liquidity, etc. The Scheme's returns may therefore deviate from those of its Underlying Index. Tracking Error may arise due to the following reasons:

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to dividend received, subscriptions, redemption, etc.
3. Halt in trading on the stock exchange due to circuit filter rules.

4. Corporate actions
5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
6. Delay in dividend payout, and withholding tax on dividend.
7. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may affect the NAV of the Scheme.
8. Lack of Liquidity

In accordance with Para 4.5.4 of the SEBI Master Circular for Mutual Funds, for ETFs in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a.

In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.

Tracking Error: The Fund shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of the Mutual Fund and AMFI.

Tracking Difference: The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the website of the Mutual Fund and AMFI, on a monthly basis, for tenures 1 year, 3 years, 5 years, 10 years and since the date of allotment of units.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

Std. Obs. 25

The performance of the Scheme will be benchmarked against constituents of Nifty500 Growth 50 Total Return Index. As the Scheme is an Index Scheme, Nifty500 Growth 50 Index is an ideal benchmark for this scheme, as the investment objective of the scheme is replicate / track the performance of the index.

Total Return variant of the index (TRI) will be used for performance comparison. the benchmark selected is in line with provision for selection of benchmark “For Index Funds”, as prescribed para 7.22.5 of SEBI Master Circular for Mutual Funds. The benchmark shall be in compliance of the aforesaid norms.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Asset Value (NAV) of the units under the Scheme shall be calculated as follows:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments + Current Assets – Current Liabilities and Provision}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV will be calculated up to four decimals.

The NAV shall be calculated and disclosed on each business day. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

Illustration of NAV: Std. Obs. 43

If the net assets of the Scheme, after considering applicable expenses, are Rs.10,45,34345.34 and units outstanding are 10,00,0000, then the NAV per unit will be computed as follows:

10,45,34,345.34 / 10,00,000 = Rs. 10.4534 per unit (rounded off to four decimals)

The repurchase price shall not be lower than 97% of the NAV. For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses that are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc. Details of source for meeting these expenses may be disclosed. Std. Obs. 44

The BER shall include:

- Investment and Advisory fees (sub-regulation 4 of Regulation 66)
- Recurring expenses (sub-regulation 5 of Regulation 66)
- Charges/ commission/ fees related to distribution of mutual fund schemes (Sub regulation 6 of Regulation 66)

The following expenses are charged to the scheme in terms of Regulation 66(9) and 66(10) of SEBI (MF) Regulations, 2026:

i. ###Schemes may charge expense incurred towards brokerage, for the purpose of execution of trade, over and above the base expense ratio subject to a maximum of 0.06 per cent of trade value in case of cash market transactions and 0.02 per cent of trade value in case of derivatives transactions. Expense charged towards brokerage, over and above the specified limit, shall not be part of the base expense ratio limit specified in the table given above.

ii. Transaction cost means regulatory levies and any other expenses charged by the stock exchanges, clearing corporation, and clearing house, as applicable. Such transaction costs shall not form part of the base expense ratio.

- [$]All statutory levies will be over and above the base expense ratio limits as defined in regulation 66(7). Statutory levy means levy imposed by state government and central government.

**Additional incentives to distributors for on boarding new individual investors from B-30 cities and women investors shall be paid from the amount set apart annually by AMCs for investor education, awareness.

1. New investments / inflows eligible for the additional commission:
   a. New individual investors (new PAN) from B-30 cities, at the mutual fund industry level;
   b. New women individual investors (new PAN) from both Top 30 and B-30 cities.
   c. The top 30 cities shall mean top 30 cities based on AMFI data on 'AUM by Geography – Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

- As per para 11.9.1 of SEBI Master Circular on Mutual Funds, the charges applicable for investor education and awareness initiatives from ETFs/Index Funds shall be 0.01% of daily net assets of the scheme. Further with reference to para 11.6.3 of SEBI Master Circular on Mutual Funds, the additional distribution commission shall be paid from the 2 basis points on daily net assets, mandatorily set aside annually by the AMC towards investor education, awareness, and financial inclusion initiatives, subject to applicable clawback provisions.

- Any expense other than those specified in sub-regulation 66 (4), sub-regulation 66 (5), sub regulation 66(6), sub-regulation 66(9) and sub-regulation 66(10), shall not be charged to the scheme and shall be borne by the AMC or trustee or sponsors.

- No charges other than the base expense ratio, brokerage cost, transaction cost, statutory levy and exit load including levies as may be specified by the SEBI, shall be charged to the investors.

- Any expenditure in excess of the base limits specified in these regulations shall be borne by the asset management company or the trustees or sponsors. If any expense of the scheme is borne by asset management company or by the trustee or sponsors, the same shall be done only after the investment and advisory fees charged to the scheme, if any, is fully reversed.

- All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan. The BER (Base Expense Ratio) of the Direct Plan will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan and no commission for distribution of Units will be paid / charged under the Direct Plan.

- The Mutual Fund would update the current expense ratios on the website (www.motilaloswalmf.com) atleast three working days prior to the effective date of the change. Investors can refer to "Base Expense Ratio" section on https://www.motilaloswalmf.com/downloads/mutual-fund/totalexpenseratio for Total Expense Ratio (BER) details

Illustration of impact of expense ratio on returns of the Scheme

Std. Obs. 45

Particulars	**Regular Plan**	**Direct Plan**
	Amount (Rs.)	
Amount Invested at the beginning of the year	NA	10,000
Net asset before expenses		11,500
Expenses other than Distribution Expenses 0.15%		17.25
Distribution Expenses 0.50%		0.00
Returns after Expenses at the end of the Year		1,482.75

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the Scheme. This exit load charged (net of GST) will be credited back to the Scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC www.motilaloswalmf.com or may call at toll free no. 91 8108622222 and +91 2240548002or your distributor.

Type of Load	**Load chargeable (as %age of NAV)**
Exit	1 % - If redeemed on or before 15 days from the allotment. Nil - If redeemed after 15 days from the allotment. Exit Load will be applicable on switch amongst the Schemes of MOMF. No Load shall be imposed for switching between Options within the Scheme. Further, it is clarified that there will be no exit load charged on a switch out amongst the plans within the same scheme

The investor is requested to check the prevailing load structure of the Scheme before investing.

The AMC shall ensure the repurchase price will not be lower than 97% of the Applicable NAV.

Any imposition or enhancement in the load structure shall apply on a prospective basis and in no case the same would affect the existing investors adversely. No Load shall be imposed for switching between Options within the Scheme.

Under the Scheme, the AMC reserves the right to modify/alter the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme, subject to maximum limits as prescribed under the SEBI Regulations. The load may also be changed from time to time and in case of exit/redemption, load may be linked to the period of holding.

For any change in the load structure, the AMC would undertake the following steps:

1. The addendum detailing the changes will be attached to SID and Key Information Memorandum (KIM). The addendum will be circulated to all the distributors so that the same can be attached to all SID and KIM already in stock.
2. Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all Investor Service Centres and distributors/brokers offices.
3. The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
4. The Fund shall display an Addendum in respect of such changes on its website (www.motilaloswalmf.com).
5. Any other measure that the Mutual Fund shall consider necessary.

I. INTRODUCTION

A. DEFINITIONS/INTERPRETATION

B. RISK FACTORS

Standard Risk Factors: Std. Obs. 8

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on various factors and forces affecting the capital market/debt market.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 100,000 made by it towards setting up the Fund.
- The present Scheme is not a guaranteed or assured return Scheme.
- The NAV of the Scheme can go up or down depending on the factors and forces affecting the securities markets.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns.

- **Scheme Specific Risk Factors:**

The scheme is subject to risks associated with growth-oriented equities, including high sensitivity to earnings surprises, valuation corrections, and interest rate fluctuations. Rapid changes in economic conditions, inflation dynamics, and monetary policy can significantly impact high-growth stock performance. The scheme faces concentration risk due to its focused exposure to companies exhibiting strong growth metrics—any adverse developments affecting earnings momentum, market sentiment toward growth stocks, or sector-specific headwinds could materially impact the scheme's returns.

- The performance of the Scheme may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems, etc. Some of the Risks are listed below:

- **Risks associated with investing in Equities**

a. Investments in the equity shares of the Companies constituting the Underlying Index are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macro-economic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on individual securities/sector and consequently on the NAV of Scheme.

b. The Scheme would invest in the securities comprising the Underlying Index in the same proportion as the securities have in the Index. Hence, the risk associated with the corresponding Underlying Index would be applicable to the Scheme. The Underlying Index has its own criteria and policy for inclusion/exclusion of securities from the Index, its maintenance thereof and effecting corporate actions. The Fund would invest in the securities of the Index regardless of investment merit, research, without taking a view of the market and without adopting any defensive measures. The Fund would not select securities in which it wants to invest but is guided by the Underlying Index. As such the Scheme is not actively managed but is passively managed.

c. Risks of Total Return
   Dividends are assumed to be reinvested into the constituents of underlying index after the ex-dividend date of the constituents However in practice, the dividend is received with a lag. This can lead to tracking error.

- **Market Risk**

The Scheme's NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes is government policies, changes in interest rates, inflation and other monetary factors causing movement in prices of underlining investments.

- **Concentration risk**

This is the risk arising from over exposure to few securities/issuers/sectors.

- **Passive Investments**

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **Risk Factors relating to Portfolio Rebalancing**

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

- **Index Fund**

The Scheme being an index scheme follows a passive investment technique and shall only invest in Securities

comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

Risks Associated with Money Market Instruments

- **Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

- **Credit Risk**
  Credit Risk means that the issuer of a security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the security). Even where no default occurs, the prices of security may go down because the credit rating of an issuer goes down. It must be, however, noted that where the Scheme has invested in Government securities, there is no risk to that extent.

- **Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.

- **Reinvestment Risk**: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

- **Pre-payment Risk**: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

- **Spread Risk**: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

- Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly, the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

- **Risks associated with Investing in Derivatives**

  Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

  Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- **Risks associated with Segregated portfolio**

  The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

- **Risks associated with Securities Lending**

  Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

  In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such

lent securities and this can lead to temporary illiquidity.

- **Tracking Error and Tracking Difference Risk** Std. Obs. 10

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index. Tracking difference refers to annualized difference of daily returns between the index and the NAV of the ETF / Index fund.

- **Transactions through mutual fund trading platforms of BSE and/ or NSE**

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

- **Risks associated with investing in Government of India Securities**

Market Liquidity risk with fixed rate Government of India Securities even though the Government of India Securities market is more liquid compared to other debt instruments, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes. Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by Reserve Bank of India undergo any adverse changes.

Interest Rate risk associated with Government of India Securities - while Government of India Securities generally carry relatively minimal credit risk since they are issued by the Government of India, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is not unique to Government of India Securities. It exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates.

- **Risks associated with investing in TREPS Segments**

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled

centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

- **Risk associated with potential change in Tax structure**

  This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 2025' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Std. Obs. 9

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

Risk factors associated for investments in Mutual Fund Schemes

- The Scheme may invest in units of Liquid Schemes for liquidity purposes only.
- Movements in the Net Asset Value (NAV) of these Schemes may impact the performance. Any change in the investment policies or fundamental attributes of these Schemes will affect the performance of the Scheme to the extent of investment in such schemes.
- Redemptions by in these Schemes would be subject to applicable exit loads.

Std. Obs. 9

Risk mitigation strategies:

Risk and Description	Risk mitigates / management strategy
Risks associated with Equity investment	
Market Risk The Scheme is vulnerable to movements in the prices of securities invested by the Scheme, which could have a material bearing	Market risk is inherent to an equity scheme. Being a passively managed scheme, it will invest in the securities included in its Underlying Index.

Risk and Description	Risk mitigates / management strategy
on the overall returns from the Scheme. The value of the underlying Scheme investments, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.	
Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests.	The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
Tracking Error risk (Volatility/ Concentration risk): The performance of the Scheme may not commensurate with the performance of the underlying Index viz. Nifty 500 Growth 50Index on any given day or over any given period.	**Tracking Error risk (Volatility / Concentration risk):** Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the scheme are too closely track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.
Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	Derivatives will be used in the form of Index Options, Index Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. The AMC monitors the portfolio and regulatory limits for derivatives through its front office monitoring system. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.
Risks associated with money market investment	
Market Risk/ Interest Rate Risk As with all fixed income securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise.	The Scheme may invest in money market instruments having relatively shorter maturity thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.

Risk and Description	Risk mitigates / management strategy
Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	
Liquidity or Marketability Risk This refers to the ease with which a security can be sold at or near to its valuation yield- to maturity (YTM).	The Scheme may invest in money market instruments having relatively shorter maturity. While the liquidity risk for short maturity securities may be low, it may be high in case of medium to long maturity securities.
Credit Risk Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis may be used for identifying company specific risks. Management's past track record may also be studied.

C. SPECIAL CONSIDERATIONS

- Prospective investors should study this SID and SAI carefully in its entirety and should not construe the contents hereof as advise relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming units before making a decision to invest/redeem/hold units.

- Neither this SID and SAI nor the units have been registered in any jurisdiction. The distribution of this SID or SAI in certain jurisdictions may be restricted or totally prohibited to registration requirements and accordingly, any person who comes into possession of this SID or SAI is required to inform themselves about and to observe any such restrictions and/ or legal compliance requirements of applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/Stock Exchange/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.

- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this SID or SAI or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the SID or SAI or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.

- The tax benefits described in this SID and SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advise received by the AMC regarding the law and practice currently in force in India as on the date of this SID and the Unitholders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unitholder is advised to consult his / her own professional tax advisor.

- Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise.

- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in SAI.

- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.

- MOAMC undertakes the following activities other than that of managing the Schemes of MOMF and has also obtained NOC from SEBI for the same:
  a. MOAMC is a registered Portfolio Manager under SEBI (Portfolio Managers) Regulations, 1993 bearing registration number INP000000670 dated August 21, 2017.
  b. MOAMC acts as an Investment Manager to the Schemes of Motilal Oswal Alternative Investment Trust and is registered under SEBI (Alternative Investment Funds) Regulations, 2012 as Category III AIF bearing registration number IN/AIF3/13-14/0044 and IN/AIF3/19-20/0799 respectively.
  c. MOAMC has incorporated a wholly owned subsidiary in Mauritius which acts as an Investment Manager to the funds based in Mauritius.
  d. MOAMC has incorporated a wholly owned subsidiary in India which currently undertakes Investment Advisory Services to offshore clients.
  e. AMC confirms that there is no conflict of interest between the aforesaid activities managed by AMC. In the situations of unavoidable conflicts of interest, the AMC undertakes that it shall satisfy itself that adequate disclosures are made of source of conflict, potential 'material risk or damage' to investor interest and develop parameters for the same.

- Apart from the above-mentioned activities, the AMC may undertake any business activities other than in the nature of management and advisory services provided to pooled assets including offshore funds, insurance funds, pension funds, provident funds, if any of such activities are not in conflict with the activities of the mutual fund subject to receipt of necessary regulatory approvals and approval of Trustees and by ensuring compliance with provisions of regulation 21(b) (i to viii). Provided further that the asset

management company may, itself or through its subsidiaries, undertake portfolio management services and advisory services for other than broad based fund till further directions, as may be specified by the Board, subject to compliance with the following additional conditions: -

i) it satisfies the Board that key personnel of the asset management company, the system, back office, bank and securities accounts are segregated activity wise and there exist system to prohibit access to inside information of various activities;

ii) it meets with the capital adequacy requirements, if any, separately for each of such activities and obtain separate approval, if necessary under the relevant regulations.

Explanation: ─For the purpose of this regulation, the term 'broad based fund' shall mean the fund which has at least twenty investors and no single investor account for more than twenty-five percent of corpus of the fund.

- The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day.

- As the liquidity of the Scheme's investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption requests. The Trustee has the right to limit redemptions under certain circumstances. Please refer to the section "Right to limit Redemption".

- Pursuant to the provisions of Prevention of Money Laundering Act, 2002 (PMLA), if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND (Financial Intelligence Unit – India) or such other authorities as prescribed under the rules/guidelines issued thereunder by SEBI and/or RBI and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unitholder/ any other person.

- Investors applying for subscription of Units directly with the Fund (i.e. not routed through any distributor/agent) hereinafter referred to as 'Direct Plan' will be subject to a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan and therefore, shall not in any manner be construed as an investment advice offered by the Mutual Fund/AMC. The subscription of Units through Direct Plan is a facility offered to the investor only to execute his/her/ their transactions at a lower expense ratio. Before making an investment decision, Investors are advised to consult their own investment and other professional advisors.

- Termination of the scheme(s)

  The Trustees reserve the right to terminate the scheme at any time. Regulation 36 of the SEBI Regulations 2026 provides that any scheme of a mutual fund may be wound up after repaying the amount due to the unitholders:

  1. On the happening of any event which, in the opinion of the trustees, requires the scheme to be wound up; or

2. If seventy-five percent of the unitholders of a scheme pass a resolution that the scheme be wound up; or
3. If SEBI so directs in the interest of the unitholders.
4. Where a scheme is wound up under the above Regulation, the trustees shall give a notice disclosing the circumstances leading to the winding up of the scheme:
    a. to SEBI; and
    b. in two daily newspapers having circulation all over India & a vernacular newspaper circulating at the place where the mutual fund is formed.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	Units once redeemed/repurchased will not be re-issued
Restrictions, if any, on the right to freely retain or dispose of units being offered.	The Trustee may, in the general interest of the Unitholders of the Scheme and when considered appropriate to do so based on unforeseen circumstances/unusual market conditions, impose restriction on redemption of Units of the Schemes. The following requirements will be observed before imposing restriction on redemptions:

	a. Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as: i. **Liquidity issues** - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. AMCs should have in place sound internal liquidity management tools for schemes. Restriction on redemption cannot be used as an ordinary tool in order to manage the liquidity of a scheme. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision shall not be allowed. ii. **Market failures, exchange closures** - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies. b. **Operational issues** - when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems Restriction on redemption may be imposed for a specific period of time not exceeding 10 working days in any 90 days' period. c. Any such imposition requires specific approval of Board of AMCs and Trustees and the same shall be immediately informed to SEBI. d. When restriction on redemption is applied the following procedure shall be followed: a) Redemption requests upto Rs. 2 lakh will not be subject to such restriction. c) In case of redemption requests above Rs. 2 lakhs, the AMC shall redeem the first Rs. 2 lakhs without restriction and remaining part over above be subject to such restriction. Units of the Scheme which are issued in demat (electronic) form will be transferred and transmitted in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time.

	Right to Limit Fresh Subscription The Trustees reserves the right at its sole discretion to withdraw / suspend the allotment / Subscription of Units in the Scheme temporarily or indefinitely, at the time of NFO or otherwise, if it is viewed that increasing the size of such Scheme may prove detrimental to the Unit holders of such Scheme.
