(c) require contractors to provide a link to the General Practice Patient Guidance on their websites;

(d) require contractors to register for and maintain an account with the learn from patient safety events service;

(g) reduce the notice period that NHS England must give to the contractor before removal of a patient from its list of patients where the address of the patient is no longer known;

(h) update references to directions relating to the provision of enhanced services.

The GMS Contracts Regulations are also amended to clarify, in relation to contracts held by individuals in partnership, the requirements in relation to changes to the composition of the partnership.
