EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the Contracts for Difference (Definition of Eligible Generator) Regulations 2014 ([S.I. 2014/2010](#)) (the “Eligible Generator Regulations”) and the Electricity Market Reform (General) Regulations 2014 ([S.I. 2014/2013](#)) (the “Market Reform Regulations”).

Regulation 3 of the Eligible Generator Regulations defines “eligible generator”, for the purposes of Chapter 2 of Part 2 of the Energy Act 2013 ([c. 32](#)), as including a person who intends to carry out a generating activity in relation to an eligible generator. The amendments made by regulation 2 provide that carrying out a generating activity includes the continuation of electricity generation by an existing biomass station and that the definition of an eligible generator includes a biomass station.

Regulation 3(3) inserts regulation 19 into the Market Reform Regulations. It allows the Secretary of State to direct a CFD counterparty to implement amendments relating to sustainability obligations in a CFD entered into following a direction under section 10(1) of the Energy Act 2013.
