EXPLANATORY NOTE

(This note is not part of the Regulations)

Part 2 of the Planning and Compulsory Purchase Act 2004 (c. 5) (“the Act”), as amended by Schedule 7 to the Levelling-up and Regeneration Act 2023 (c. 55), established a system of local development planning in England.

Section 15CB of the Act makes provision for the preparation by a minerals and waste planning authority of one or more documents which are to be known collectively as their “minerals and waste plan”. Section 15CB(8) applies Part 2 of the Act in relation to a minerals and waste plan as it applies in relation to a local plan, subject to the exceptions set out in subsection (10).

Part 3 of the Planning and Compulsory Purchase Act 2004 (Local Planning) (Modification and Consequential Amendments) (England) Regulations 2026 (S.I. 2026/170) (“the first instrument”) modified Part 2 of the Act as it is applied in relation to a minerals and waste plan by section 15CB(8) of the Act. Regulation 7(2)(l) to (n) modified sections 15I, 15IA and 15IB of the Act such that in those provisions, references to a local plan (including within references to a joint local plan) are to be read as references to a minerals and waste plan document (instead of being read as references to a minerals and waste plan in accordance with section 15CB(8)(b) of the Act).

These Regulations (made in part in reliance on a power as modified by the first instrument) insert a new regulation 7A into Part 3 of the first instrument.

The new regulation 7A modifies section 15G of the Act so that it is to be read, in relation to a minerals and waste plan (including a joint minerals and waste plan document), as though:

- (a) for subsection (1), there is substituted new subsections (1) to (1B) which make provision for the revocation of minerals and waste plan documents by minerals and waste planning authorities;
- (b) after subsection (2), there is inserted new subsections (3) and (4) which:
 - (i) make provision for the Secretary of State to revoke a joint minerals and waste plan document at the request of minerals and waste planning authorities who are relevant authorities in relation to that document for the purposes of section 15IA of the Act (subsection (3)(a)), or to revoke a joint minerals and waste plan document for the relevant area of a minerals and waste planning authority who are a relevant authority in relation to that document for the purposes of section 15IA of the Act, at the request of that authority (subsection (3)(b));
 - (ii) set out what is meant by the term “the relevant authorities” (subsection (4)).

Modifications are also made to section 15IA of the Act so that it is to be read, in relation to a joint minerals and waste plan document, as though for subsection (3) there is substituted new subsections (3) to (3G). These modifications set out how functions are to be exercised under Part 2 of the Act in relation to a joint minerals and waste plan document, by the relevant authorities in relation to that document for the purposes of section 15IA of the Act, and other persons.
